## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 290/92

Exemption – The Corporation of the City of  
Peterborough—PETE-C-1/1

Approved—May 27th, 1992  
Filed—June 4th, 1992

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION – THE CORPORATION OF THE CITY OF PETERBOROUGH—PETE-C-1/1

Having received a request from The Corporation of the City of Peterborough (the "Proponent") that an undertaking, namely:

A modification to the design and operation of its landfill site, located on part of Lot 14 in Concession 14, Otonabee Township, involving an interim expansion to provide sufficient capacity to ensure disposal of waste until a replacement facility resulting from the ongoing Waste Management Master Plan (WMMP) is in operation, without increasing currently approved types or quantities of waste, serviced areas or populations served,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Proponent will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking.
- B. The Proponent will be subject to unnecessary delay and expense in implementing its long-term waste management program.
- C. The Proponent, its residents and others served by the site will be without a municipal solid waste disposal facility.
- D. Use of the site in the currently approved sequence and without the required engineered changes to preclude contaminant migration in excess of "Reasonable Use Policy" may lead to contamination of the natural environment. An amended application for Emergency Approval to use Cells I and J as an interim measure was approved by the Ministry of the Environment on July 5, 1989.
- E. The site, as presently approved, does not have sufficient capacity to dispose of the service area's waste until a new facility is found and approved through the ongoing WMMP process.
- F. Waste which is currently stockpiled on cells G and H may present a health hazard if not properly encapsulated or otherwise removed. This proposal incorporates the resolution of that problem.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Continued operation of the existing landfill is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame. A new replacement facility emanating from the ongoing WMMP is not anticipated before mid-1997.
- B. Alternatives which have been investigated do not appear to resolve the potential contamination of the natural environment nor do they provide adequate capacity for Peterborough's waste, pending commissioning of a facility through the ongoing WMMP.
- C. A mandatory public hearing under Part V of the *Environmental Protection Act* for the approval of changes to the design and operation and for an interim expansion will be held, thereby permitting the public and government agencies the opportunity to review the proposed changes to the site.
- D. The Proponent is participating in a long-term waste management program in accordance with the *Environmental Assessment Act* and it is anticipated that sufficient elements of that program will be implemented prior to the conclusion of the exempt undertaking to ensure that further exemptions from the *EA Act* are not required.
- E. If this exemption is not granted, then it is likely that damage to the natural environment will occur.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. By January 1994, a detailed proposal shall be presented, consisting of a plan and generic schedule for its long-term strategy for waste management, to the Director, Environmental Assessment Branch, and copies sent to the Director, Approvals Branch, and to the Regional Director, Central Region, of the Ministry of the Environment.
4. The Proponent shall file an *annual report*, commencing no later than December 31, 1992, outlining the municipality's progress in achieving abatement at the existing site and progress in implementing the long-term waste management strategy. This report will be submitted to the Director, Environmental Assessment Branch, Ministry of the Environment, for filing with the Public Record kept under section 31 of the Act by the Branch located at 250 Davisville Avenue, 5th Floor, Toronto, Ontario, M4V 1P5. Copies of the report shall be given to the Director, Approvals Branch, and Regional Director, Central Region.
5. No waste shall be deposited at the site pursuant to this order more than five years after the date of any Provisional Certificate of Approval or Certificate of Approval issued for the purpose of this order.

Exemption Order 820/90 filed as Ontario Regulation 222/90 is terminated and replaced hereby. O. Reg. 290/92.

## ENVIRONMENTAL ASSESSMENT ACT

### O. Reg. 291/92

Exemption – The Corporation of the County of Lambton—LAMB-CT-1

Approved—May 27th, 1992  
Filed—June 4th, 1992

## ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION – THE CORPORATION OF THE COUNTY OF LAMBTON—LAMB-CT-1

Having received a request from The Corporation of the County of Lambton that an undertaking, namely:

the expansion of the existing approved waste disposal landfill site located on part of Lot 12, Concession 3, in the City of Samia-Clearwater, County of Lambton, for the disposal of domestic, commercial non-hazardous industrial solid wastes and sewage sludges

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The proponent will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking.

- B. The proponent and its residents will be without a municipal solid waste disposal facility to serve the City of Sarnia-Clearwater, and the Village of Point Edward.
- C. Other available interim waste management options will result in significant increases in costs.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Expanded operation of the existing landfill is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame.
- B. Alternatives have been investigated.
- C. A public hearing under Part V of the *Environmental Protection Act* for the approval of the expanded operation will be held.
- D. The proponent is developing a long-term waste management plan in accordance with applicable legislation and sufficient elements of that plan will be implemented prior to the conclusion of the exempt undertaking.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. The Corporation of the County of Lambton shall proceed expeditiously to complete a long-term waste management plan in accordance with the *Environmental Assessment Act* within the interim period of time specified in Condition 7 (a).
4. The proponent shall file an *annual report*, outlining the municipality's progress in developing and implementing the long-term waste management strategy. This report will be submitted to the Director of the Environmental Assessment Branch of the Ministry of the Environment for filing with the public records kept under section 30 of the Act by the Branch. Copies of the report shall be given to the Director, Approvals Branch and Regional Director of Southwest Region. The first report shall be submitted within one year of the issuance of a Certificate of Approval or Provisional Certificate of Approval pursuant to this order.
5. The Corporation of the County of Lambton shall notify in writing the Director, Environmental Assessment Branch, Ministry of the Environment, no later than ninety days after the date of publication of this exemption order of how the County will comply with Conditions 3 and 4.
6. Over the course of each month, the average daily rate of disposal of waste excluding cover material is not to exceed 161 tonnes. In calculating an average, at least one day each week shall not be included in determining the number of days in the time period. A daily or weekly maximum may be determined by the Environmental Assessment Board in the course of the Part V hearing under the *Environmental Protection Act*. Waste shall not be received at the site more than six days per week.
7. No waste shall be disposed of by the proponent pursuant to this Order after the earlier of:
  - (a) five years after a Provisional Certificate of Approval or Certificate of Approval for the waste disposal site has been issued pursuant to this order, unless an application for an approval under the *Environmental Assessment Act* for an undertaking under the County of Lambton Waste Management Master Plan which includes a waste disposal site has been submitted to the Minister under the Act, in which case, no waste shall be disposed of by the municipality pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking, and
  - (b) the commencement of operations of a waste disposal site pursuant to the County of Lambton Waste Management Master Plan. O. Reg. 291/92.

## ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

### EXEMPTION – TOWNSHIP OF ROXBOROUGH—ROXB-TP-1

Having received a request from The Corporation of the Township of Roxborough, Stormont County (the "Township") that an undertaking, namely:

The interim expansion, operation and closure of the existing and approved Roxborough Township landfill site situated on the east half of lot 29, Concession VII, Township of Roxborough, for the disposal of domestic, commercial and non-hazardous solid industrial waste, with the changes as described in the Reports entitled "Township of Roxborough, Stormont County, Interim Expansion Study, Document I, Environmental Assessment Act, Section 29 Exemption Request Under MOE Policy No. 03-05" and "Township of Roxborough, Stormont County, Document II, Final Submission, Hydrogeological Investigation and Operation and Closure Plan for the Proposed Interim Expansion Area" dated December 1991, prepared by Water and Earth Science Associates Ltd.

- B. The Township will be subject to unnecessary delay and expense in implementing its long-term waste management program.
- C. The Township and its residents will be without a municipal solid waste disposal facility.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The continued operation of the existing landfill is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame.
- B. Alternatives have been investigated.
- C. A public hearing under Part V of the *Environmental Protection Act* for the approval of the continued operation will be held, thereby permitting the public and government agencies the opportunity to review the proposed changes to the site.
- D. It is the intention of the Township that the proposed long-term waste management program of the United Counties of Stormont-Dundas-Glengarry be pursued in accordance with applicable legislation and the Township expects that sufficient elements of the program will be implemented prior to the conclusion of the exempt undertaking so that the Township will not have to seek further approvals for waste disposal sites.

This exemption is subject to the following terms and conditions:

- 1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
- 2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity

  - ii. the commencement of operations of a waste disposal site pursuant to the United Counties of Stormont-Glengarry-Dundas Waste Management Master Plan,

unless an application for an approval under the *Environmental Assessment Act* for an undertaking under the United Counties of Stormont-Dundas-Glengarry Waste Management Master Plan which includes a waste disposal site proposed for use for waste from the Township has been submitted to the Minister under the Act, in which case, no waste shall be disposed of by the Township pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking.

- 4. Commencing no later than January 1993, the Township shall file an annual report to the Director, Southeastern Region, Ministry of the Environment, outlining the Township's progress in achieving abatement at the existing site and progress in implementing the long-term waste management program; a copy of the reports shall also be given to the Director, Approvals Branch, Ministry of the Environment. The Township may cease filing such reports after the site has been closed to the Director's satisfaction and the Director has advised the Township in writing that further reports are not required pursuant to this condition.
- 5. Except as may be provided in the certificate of approval issued under Part V of the *Environmental Protection Act*, the Roxborough Township landfill site shall be operated in accordance with the reports referred to in the description of the undertaking. O. Reg. 292/92.

### WETLAND PLANNING POLICY STATEMENT

#### AUTHORITY:

This document is prepared under the authority of section 3 of the *Planning Act* and is the Province of Ontario's Policy Statement on planning for the protection of *Wetlands* as a matter of Provincial Interest.

This Provincial Policy Statement:

- o is issued jointly by the Minister of Municipal Affairs and the Minister of Natural Resources; and,
- o gives direction to municipalities, planning boards, public agencies, the private sector and others for the protection of *Wetlands*.

#### GOALS:

To ensure that *Wetlands* are identified and adequately protected through the land use planning process.

To achieve no loss of *Provincially Significant Wetlands*.

#### OBJECTIVE:

The objective of the Province of Ontario with regard to *Wetlands* is three-fold:

Through a variety of programs, of which this policy is one:

1. To ensure no loss of *Wetland Function* or *Wetland Area* of *Provincially Significant Wetlands* in the Great Lakes - St. Lawrence Region;
2. To ensure no loss of *Wetland Function* of *Provincially Significant Wetlands* in the Boreal Region;
3. To encourage the conservation of other *Wetlands* (e.g. Classes 4 to 7) throughout Ontario.

#### APPLICATION:

This Policy Statement is to be applied to *Provincially Significant Wetlands* and lands adjacent to them, throughout Ontario.

#### INTERPRETATION:

This provincial policy statement:

- o replaces the "Guidelines for Wetland Management in Ontario" introduced by the Minister of Natural Resources in the Legislature in April of 1984.
- o takes effect on the date of publication in *The Ontario Gazette* and applies to all planning applications under the *Planning Act*.
- o does not supersede or take priority over other policy statements issued under section 3 of the *Planning Act*, or any other policy approved by the Lieutenant Governor in Council.

#### BACKGROUND:

##### Wetland Benefits

*Wetlands* are essential ecosystems and parts of ecosystems. They provide continuous, sustainable environmental, economic and social benefits that contribute to the high quality of life in Ontario. Not all of these benefits are easily translated into economic or human-related values. Some are of intrinsic ecological importance. For convenience, they can be grouped into biological, hydrological, and socio-economic benefits.

##### Wetlands:

- are important for the control and storage of surface water and the recharge and discharge of ground water;
- maintain and improve water quality, aid in flood control, and protect shorelines from erosion;
- trap sediments which would otherwise fill watercourses;
- support and initiate complex food chains which are ultimately essential to a broad spectrum of living organisms, including humans;
- provide important habitat for a wide variety of plant and animal species;
- immobilize some contaminants and nutrients;
- reduce other contaminants to less damaging compounds;
- assist in maintaining water quality in adjacent lakes and streams that support fish populations;
- provide valuable resource products such as timber, fish, and wild rice on a sustainable basis;
- contribute substantial economic and social benefits to the Province;
- provide active and passive recreational opportunities in green space settings.

Some benefits of Ontario's *Wetlands* are enjoyed throughout the rest of North America, through provision of such features as staging and breeding habitat for migratory waterfowl. The majority, however, are local, influencing either the area near a wetland, or the watershed in which it is situated.

Having abundant *Wetlands* in northern Ontario does not compensate for loss of *Wetlands* in the south. Many of the benefits can only come from *Wetlands* situated nearby. However, patterns of development have depleted *Wetlands* in many localities in the southern portions of the Province.

Furthermore, in any locality, the position of a wetland within a region, in combination with its other natural features, may be such that it provides more benefits than neighbouring *Wetlands*. This results in a higher relative "value" or relative importance of this wetland, and therefore results in a higher wetland classification, the numeric rating resulting from wetland evaluation.

If individual *Wetland Areas* share *Wetland Functions* and are interconnected ecologically, they may be considered as one *Wetland Complex* and evaluated accordingly. Lands which are not wetland but are *Adjacent Lands*, are also important in the ecosystem that extends beyond the wetland boundary. It is in such *Adjacent Lands* that migratory birds may choose nesting sites, rich timber resources grow, natural drainage patterns supply water to, and drain the wetland, and cultivated crops may find relief from drought conditions.

### Wetland Loss

Over three-quarters of the original *Wetlands* in Southern Ontario below the Canadian Shield have been lost. This loss is continuing as pressures escalate from competing land uses. Activities including land clearing, drainage, dredging and filling, continue to place pressure on *Wetlands*. North of the southernmost boundary of the Canadian Shield, wetland loss is also becoming significant, especially near urban areas and along shorelines of the Great Lakes and other bodies of water. In contrast to the south, bogs in broad areas of northern Ontario are extensive and well-dispersed. However, other *Wetland Types* are relatively scarce and may be jeopardized by competing land uses such as industrial and recreational development.

Recognition of the importance of *Wetlands*, combined with a concern for wetland loss has prompted the Province to develop a comprehensive *Wetlands* management program.

### Who Manages Wetlands in Ontario?

*Wetlands* in Ontario are held in both public and private ownership, and thus controlled by individuals, corporations and governments.

There is no provincial legislation that specifically addresses *Wetlands* or expressly requires the protection and conservation of *Wetlands*. However, *Wetlands* may be influenced by activities permitted under a variety of provincial statutes, including the *Conservation Land Act*, the *Drainage Act*, the *Lakes and Rivers Improvement Act*, the *Public Lands Act* and the *Conservation Authorities Act*.

Many *Wetlands* include fish habitat and therefore may, in part, come under the protection of the federal government through the habitat protection provisions of the *Fisheries Act* (Canada).

Many *Wetlands* have already been recognized for their abundant natural values, and have been secured under some form of public ownership such as Provincial Parks, Provincial Wildlife Areas, or Conservation Areas. Several *Wetlands* in Ontario are National Wildlife Areas, managed by Environment Canada under the *Canada Wildlife Act*. *Wetlands* are also included in the holdings of municipalities, often as part of county or regional forests.

An increasing number of private citizens also manage *Wetlands*. They recognize the value of such property in sustaining moisture, providing fuel and other resource products, and providing a place to recreate. The major responsibility for management of *Wetlands* in Ontario, however, is that of the Province. The Province not only oversees the municipal planning process and other processes by which *Wetlands* are affected, but is also the major custodian of land, which includes all Crown Lands within Ontario.

### Ontario's Wetlands Management Program

The Ministry of Natural Resources (MNR) has been developing and

implementing a *Wetlands* management program for more than a decade. In 1981, the Ministry released a discussion paper titled, "Towards a *Wetland Policy for Ontario*" that contained estimates of wetland loss in southern Ontario and discussed wetland values. The public response overwhelmingly supported the development of a provincial *Wetlands* policy to protect and conserve *Wetlands*.

In 1983-84, an evaluation system for *Wetlands* was developed by the Ministry of Natural Resources and Environment Canada. This evaluation system would be used to identify and classify *Wetlands* south of the Canadian Shield, on the basis of *Wetland Functions* and features.

In 1984, the Province introduced the "Guidelines for *Wetlands Management*" which stated the government's concern over wetland loss and expressed *Wetlands* management objectives and strategies within the context of the municipal land use planning process. These Guidelines were released to all municipalities, provincial government agencies and interest groups and were effective in raising public awareness of the importance of *Wetlands*.

Over time, the evaluation system was also used for other related initiatives. The Ministry of Natural Resources, Ducks Unlimited Canada, and Wildlife Habitat Canada, in a cooperative program, make use of classifications (i.e. the results of wetland evaluations) to assist in setting priorities for securing threatened *Wetlands*. The Conservation Land Tax Reduction Program and the related *Conservation Lands Act* offer tax rebates to landowners of Class 1, 2 and 3 *Wetlands*, and hence provide financial incentive to leave *Wetlands* in their natural state.

Wetland habitat development, securement and protection initiatives are being implemented under The North American Waterfowl Management Plan, in which all agencies responsible for migratory bird management in North America are working in partnership with their respective interest groups. In addition, Ontario is involved in conducting and supporting research on the ecology of *Wetlands*. Through the Carolinian Canada Program, Ontario has indicated commitment to protecting rare and threatened Carolinian<sup>1</sup> wetland habitats. *Wetlands* are also protected through the protection of representative habitats (such as the Areas of Natural and Scientific Interest (ANSI) program), protection and management of fish habitat, and management of significant *Wetlands* in various Crown land management programs.

<sup>1</sup>Carolinian habitats are located in the Carolinian Ecological Region of extreme southern Ontario, and are noted for their variety and numbers of life forms peculiar to that region. This is a small area, reduced and fragmented further by southern Ontario development and isolated from similar U.S. habitat by the Great Lakes. The result is an unusually large number of rare, and sometimes endangered species.

### DEFINITIONS:

For the purpose of this policy statement:

- **Adjacent Lands** means:

- a) those lands within 120 metres of a individual *Wetland Area*; and,
- b) all lands connecting individual *Wetland Areas* within a *Wetland Complex*.

- **Agricultural Activities** means ploughing, seeding, harvesting, grazing, animal husbandry, buildings and structures associated with these farming activities. This includes such activities on areas lying fallow as part of a conventional rotation cycle.

- **Boreal Region** means that area of Ontario north of the line shown on Figures 1 and 3.

- **Development** means:

- a) the construction, erection or placing of a building or structure;
- b) activities such as site grading, excavation, removal of top soil or peat and the placing or dumping of fill;
- c) drainage works, except for the maintenance of existing municipal and agricultural drains.

- **Environmental Impact Study (EIS)** means a study prepared in

accordance with established procedures, to identify and assess the impacts of *Development* on *Provincially Significant Wetlands*.

- **Great Lakes - St. Lawrence Region** means that area of Ontario south of the line shown in Figures 1 and 3.
- **Hydric Soils** mean soils that are characterized by an abundance of moisture, to the extent that the soils are either inundated or dominated by water-tolerant vegetation.
- **Hydrophytic Plants (Hydrophytes)** means vegetation commonly growing in water or in water-logged soil, and are water-tolerant.
- **Provincially Significant Wetlands** means:
  - a) Class 1, 2 and 3 wetland in that part of the *Great Lakes - St. Lawrence Region* below the line approximating the south edge of the Canadian Shield (see Figure 4), defined in "An Evaluation System for *Wetlands* of Ontario South of the Precambrian Shield". Second Edition, 1984, as amended from time to time; and,
  - b) those *Wetlands* identified as *Provincially Significant Wetlands* by the Ministry of Natural Resources through an evaluation system(s) developed specifically for other areas of Ontario.
- **Wetland Area** means a single, contiguous *Wetland* which may be composed of one or more *Wetland Types* (See Figure 2).
- **Wetland Complex** means two or more individual *Wetland Areas* along with their *Adjacent Lands*, that are related in a functional manner, and are grouped within a common wetland boundary (Figure 2). The whole complex is evaluated and classified, not its individual *Wetland Area* components.
- **Wetland Functions** means the biological, physical, and socio-economic interactions that occur in an environment because of the properties of the *Wetlands* that are present, including, but not limited to:
  - ground water recharge and discharge;
  - flood damage reduction;
  - shoreline stabilization;
  - sediment trapping;
  - nutrient retention and removal;
  - food chain support;
  - habitat for fish and wildlife;
  - attendant social and economic benefits.
- **Wetland Types** means individual wetland ecosystems that have specific characteristics, and are commonly called marshes, swamps, bogs, and fens.
- **Wetlands** means lands that are seasonally or permanently covered by shallow water, as well as lands where the water table is close to or at the surface. In either case the presence of abundant water has caused the formation of hydric soils and has favoured the dominance of either hydrophytic or water tolerant plants. The four major types of *Wetlands* are swamps, marshes, bogs, and fens.

Lands being used for agricultural purposes, that are periodically "soaked" or "wet", are not considered to be *Wetlands* in this definition. Such lands, whether or not they were *Wetlands* at one time are considered to have been converted to alternate uses.

## POLICY:

It is the policy of the Province of Ontario that:

### 1. GENERAL

- 1.1 All planning jurisdictions including municipalities, planning boards and resource management bodies within the Province shall protect **Provincially Significant Wetlands**.
- 1.2 Where **Provincially Significant Wetlands** have been identified, all

planning jurisdictions, including municipalities and planning boards, shall incorporate policies and protect **Provincially Significant Wetlands** in official plans, zoning by-laws and other development decisions under the *Planning Act*.

Municipalities are encouraged to incorporate the provisions of this Policy Statement by amendment to their Official Plans as soon as possible.

The Ministry of Natural Resources (MNR) and the Ministry of Municipal Affairs (MMA) will jointly administer this Policy Statement, explain its content and give advice on its application.

The Ministry of Natural Resources will provide wetland evaluation information to municipalities on a priority basis, and assistance in interpreting that information as evaluation information becomes available.

The Ministry of Natural Resources, in consultation with the Ministry of Municipal Affairs, will issue "Wetlands Implementation Guidelines" to assist planning jurisdictions, including municipalities and planning boards, in implementing this Policy Statement. The Guidelines will contain approaches for protecting *Wetlands* in official plans, zoning by-laws and other planning documents. Ministries and agencies having an

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-58

Having received a request from the Minister of Natural Resources that the Ministry of Natural Resources and the undertaking, namely:

the activity of fishery reclamation which consists of the removal of species from a waterbody by either mechanical or chemical means in order to create suitable conditions for species to be stocked

be exempt from the application of the Act pursuant to section 29, with respect to the application of condition #23 in the approval; which provides that the approval terminates on the 8th day of May, 1992;

Having been informed that the Minister of Natural Resources proposes, as an interim measure, to make some minor amendments to the Class EA for Fishery Reclamation pending the submission of a new Class EA relating to the undertaking and possibly other undertakings;

Having been informed that if the undertaking is not exempt from the application of condition #23, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Natural Resources will be damaged by the interference with its ability to rehabilitate degraded fisheries consistent with the Strategic Plan for Ontario Fisheries (SPOF II);
- B. The Ministry of Natural Resources will be damaged by the interference with its ongoing activities to rear fish for fish stocking purposes;
- C. The public will be damaged by the loss of certain cultural, social and economic benefits from Ontario's fisheries resource; and

The undersigned is of the opinion that it is in the public interest to order and orders that the Ministry of Natural Resources and the undertaking be exempt from the application of the Act, with respect to the application of condition #23 in the approval, for the following reasons:

- A. This interim exemption will allow the use of fishery reclamation as a fisheries management tool while MNR pursues amendments to the existing Class EA or a new Class EA is prepared for approval, so that the approval will remain in effect subject to the terms and conditions provided;
- B. As part of the interim measure, the original terms and conditions of approval can be revised and updated to reflect the experience gained since approval of the Class EA was given;
- C. Any amendments proposed by MNR will be subject to public review under the process set out in Part III of the Class EA.

This exemption is subject to the following terms and conditions:

1. Except as otherwise provided by these terms and conditions, the proponent shall comply with all the provisions in the Class Environmental Assessment (Class EA) for Fishery Reclamation and the conditions of approval attached to O.C. 1139/87.

2. For the purpose of the conditions attached to O.C. 1139/87, any body of water which has a natural or artificial outflow at any time during the three years preceding treatment with pesticides, or which is expected to have such an outflow during the succeeding year, or which is over five hectares in surface area, shall be regarded as a lake.
3. This exemption order and the approval of the undertaking authorized by O.C. 1139/87 shall terminate on the 30th day of September, 1992, unless by that date the Ministry of Natural Resources provides proposed amendments to the undertaking to the Director of the Environmental Assessment Branch, Ministry of the Environment, for consideration.
4. In the event that a submission referred to in condition 3 is made and amendments are approved pursuant to Part III of the Class EA, the approval shall terminate on the date specified in the amended Class EA.
5. In the event that a submission referred to in condition 3 is made and amendments are not approved pursuant to Part III of the Class EA, this exemption and the approval authorized by O.C. 1139/87 shall terminate on the 31st day of December, 1994, or such other date as is determined by the Minister of the Environment and published in *The Ontario Gazette*. **ENVIRONMENTAL ASSESSMENT ACT****O. Reg. 304/92**Exemption—Ministry of  
Transportation—MTC-60Approved—May 6th, 1992  
Filed—June 9th, 1992**ORDER MADE UNDER THE  
ENVIRONMENTAL ASSESSMENT ACT****EXEMPTION—MINISTRY OF TRANSPORTATION—MTC-60**

Having received a request from the Minister of Transportation that an undertaking, namely:

the activity of carrying out the design, provision and construction of a new two-lane, undivided highway, to be numbered as Highway 11/17, 27.8 kilometres in length, from the Thunder Bay Expressway/Harbour Expressway Intersection in the City of Thunder Bay, westerly to the East Limit of Kakabeka Falls in the Township of O'Connor, with full access control and at-grade intersections provided at appropriately spaced intervals along the alignment

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Transportation that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be damaged by an increase in the cost of and interfered with by the delay in the completion of a project for which a planning exemption has been granted.
- B. The Corporations of the City of Thunder Bay and the Townships of Paipoonge and O'Connor will be interfered with by the delay in completion of this project for which a designated

alignment has existed since 1979 upon which land use planning and development has been influenced in expectation of the highway construction.

- C. The public will be interfered with and damaged by operational problems in the existing Provincial and local road systems and by vehicle accidents on existing Highway 11/17.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The planning for the highway is exempt from the requirements of the Act. Public participation and intergovernmental agency liaison were part of the planning process.
- B. The Councils of the City of Thunder Bay and the Township of Paipoonge have passed resolutions requesting that the Ministry proceed as soon as possible with the undertaking.
- C. The completion of the re-alignment Highway 11/17 controlled access highway will allow the full benefit of the highway corridor to be realized by the people of Ontario and especially the residents and the business, commercial and industrial development in the City of Thunder Bay and the Township of Paipoonge.

This exemption order is subject to the following terms and conditions:

1. The Ministry of Transportation shall prepare and submit an Environmental Study Report and the undertaking shall be processed as though it were an undertaking described in Schedule B of the Class EA for Provincial Highways Program.
2. No construction shall be carried out pursuant to this exemption order unless construction has commenced prior to May 31, 1994. O. Reg. 304/92.

**ENVIRONMENTAL ASSESSMENT ACT****O. Reg. 305/92**Exemption—Ministry of  
Transportation—MTC-61Approved—May 6th, 1992  
Filed—June 9th, 1992**ORDER MADE UNDER THE  
ENVIRONMENTAL ASSESSMENT ACT****EXEMPTION—MINISTRY OF TRANSPORTATION—MTC-61**

Having received a request from the Minister of Transportation that an undertaking, namely:

the activity of carrying out the design, acquisition of property, construction, operation and maintenance of the Leamington Diversion, a staged four-lane divided expressway (initial two-lane

construction) 8.32 km in length with full access control, at grade intersections at all existing intersecting roadways along the expressway alignment

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Transportation that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with by the resulting delays in responding to the transportation needs of the Leamington area.
- B. The public will be damaged by deteriorating operational problems and vehicle accidents on existing Highway 3.
- C. The Crown will be damaged and interfered with by a delay in the completion of the project for which a planning study, corridor designation and acquisition of the majority of property was completed prior to the Act being proclaimed in 1975.
- D. The Corporation of the Town of Leamington will be interfered with and damaged to the extent that ever increasing traffic volumes entering the town limits will overtax Highway 3 and other roads within the town forcing remedial measures to be carried out sooner than necessary.
- E. The Corporations of the County of Essex and the Townships of Mersea and Gosfield South will be interfered with by the delay in completion of this project for which a designated alignment has existed since 1969, the majority of property has been acquired and upon which basis land use planning has been influenced in expectation of highway construction.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons of which I have been advised by the Minister of Transportation:

- A. The planning, highway designation and majority of property acquisition for the undertaking was completed before the Act came into force. Liaison with other governmental agencies was part of the initial planning process.
- B. In 1989, the Ministry of Transportation conducted a review of the planning study which evaluated seven alternatives including the upgrading of existing Highway 3 as well as the designated new alignment. Intergovernmental agency liaison and public participation were part of the review process. The results of this review confirmed the environmental and engineering appro-

priateness of the designated new alignment and was fully supported by the four municipal governments affected by the project.

- C. Adjacent sections of Highway 3 (New) from Oldcastle to Essex had been constructed prior to the implementation of the Act and the section from Essex to Ruthven was constructed under Exemption Order MTC-33, resulting in this one uncompleted section remaining to be constructed.
- D. The completion of this last remaining section of Highway 3 between the City of Windsor and the Town of Leamington will allow the full benefit of a fully controlled access freeway to be realized by the people of Ontario and particularly the business, agricultural and commercial elements in the Windsor-Leamington corridor.
- E. The Corporations of the County of Essex, the Townships of Mersea and Gosfield South and the Town of Leamington have over the last several years made representation to the Minister of Transportation and requested that the Ministry of Transportation proceed with the construction of the Leamington Diversion within the 1989 to 1994 time period. Each of the municipalities have recently passed resolutions requesting that the Ministry proceed with the undertaking as soon as possible.
- F. High traffic volumes and accident rates on the existing section of Highway 3 between Ruthven and Leamington will be substantially reduced as a result of the undertaking.

This exemption order is subject to the following terms and conditions:

1. The Minister of Transportation will follow the process outlined in the Provincial Highways Class Environmental Assessment, including contact with the appropriate Ministries, agencies and the public, during the design process. Any concerns which are raised shall be addressed and documented by the Ministry of Transportation.
2. The Minister of Transportation shall prepare and submit an Environmental Status Statement to the Environmental Assessment Branch of the Ministry of the Environment to be kept in the records maintained under section 31 of the Act to document the concerns identified and commitments made during the design process.
3. Prior to the commencement of construction, the Minister of Transportation must make the Environmental Study Report available for public comment for at least thirty days.
4. No construction shall be carried out pursuant to this exemption order unless construction has commenced prior to May 31, 1995. O. Reg. 305/92.

## ENVIRONMENTAL ASSESSMENT ACT

## O. Reg. 307/92

Exemption—The Corporation of  
the Township of Charlottenburgh—CHAR-TP-1

Approved—May 14th, 1992

Filed—June 11th, 1992

ORDER MADE UNDER THE  
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE CORPORATION OF THE TOWNSHIP OF  
CHARLOTTENBURGH—CHAR-TP-1

Having received a request from The Corporation of the Township of Charlottenburgh (the "Proponent") that an undertaking, namely:

the interim expansion, operation and closure of the existing and approved North Landfill Site located on Lot 21 and part of Lot 20, Concession 7, in the Township of Charlottenburgh, for the disposal of domestic, commercial and solid, non-hazardous industrial waste,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Proponent will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking,
- B. The Proponent will be subject to unnecessary delay and expense in implementing its long-term waste management program,
- C. The current users of the site who are located in the Township of Charlottenburgh and the Village of Lancaster will be without a municipal solid waste disposal facility;

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The continued operation of the existing landfill is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame,
- B. Alternatives have been investigated,
- C. A mandatory public hearing under Part V of the *environmental Protection Act* for approval of the continued operation and interim expansion will be held, thereby permitting the public and government agencies the opportunity to review the proposed changes to the site,
- D. It is the intention of the Proponent that the proposed long-term waste management program of the United Counties of Stormont-Dundas-Glengarry be pursued in accordance with applicable legislation and the Proponent expects that sufficient elements of the program will be implemented prior to the conclusion of the exempt undertaking so that the Proponent will not have to seek further approvals for waste disposal sites.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. No waste shall be deposited at the North Landfill Site pursuant to this order after the earlier of:
  - (i) five years after the date of the Provisional Certificate of Approval for the waste disposal site has been issued for the purpose of this order, and
  - (ii) the commencement of operations of a waste disposal site pursuant to the United Counties of Stormont-Dundas-Glengarry Waste Management Master Plan,

unless an application for an approval under the Act for an undertaking under the United Counties of Stormont-Dundas-Glengarry Waste Management Master Plan which includes a waste disposal site proposed for use for waste from the Township has been submitted to the Minister under the Act, in which case, no waste shall be disposed of by the Proponent pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking.

4. Commencing no later than January 1993, the Proponent shall file an annual report to the Director, Southeastern Region, Ministry of the Environment, outlining the Proponent's progress in achieving abatement at the existing site and progress in implementing the long-term waste management program; a copy of the reports shall also be given to the Director, Approvals Branch, Ministry of the Environment. The Proponent may cease filing such reports after the site has been closed to the Director's satisfaction and the Director has advised the Proponent in writing that further reports are not required pursuant to this condition. ## Workers' Compensation Board Commission des accidents du travail

IN THE MATTER OF Section 95  
of the *Workers' Compensation Act*  
R.S.O. 1990, c. W.11, as amended;

AND IN THE MATTER OF the IDSP Interim Report  
to the Workers' Compensation Board on Aluminum

### REQUESTS FOR SUBMISSIONS

Section 95 of the *Workers' Compensation Act* provides for the creation of an Industrial Disease Standards Panel (the Panel). It is the function of the Panel to:

- investigate possible industrial diseases;
- make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;
- create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and,
- advise on eligibility rules regarding compensation for claims respecting industrial diseases.

In a letter dated December 16, 1988, Dr. Elgie, Chairman, Workers' Compensation Board, requested the Industrial Disease Standards Panel to investigate the possibility that workplace exposure to aluminum results in industrial disease.

On June 3, 1992, the Industrial Disease Standards Panel provided the Workers' Compensation Board with a second report on the health effects of aluminum in the workplace. The report covers the health effects of aluminum exposure, the measurement of aluminum in the blood and urine and interpretation of aluminum measurements, and the issue of removal from occupational exposure to aluminum.

Included in this notice are the following:

1. the Panel's letter of transmittal
2. the Interim Report to the Workers' Compensation Board on Aluminum

In accordance with sub-section 95 (12) of the *Workers' Compensation Act*, the Board has published this notice setting forth the nature of the findings of the Panel and hereby requests written comments, briefs and submissions from any interested parties. Comments, briefs and submissions must be filed with the Board within 90 days of the date of this notice.

All comments, briefs and submissions related to this progress report should be sent to **Ms. Linda Angove, Secretary of the Board, Workers' Compensation Board, 2 Bloor Street East, 20th Floor, Toronto, Ontario M4W 3C3.**

Upon the expiry of the 90 day period herein, the Board, pursuant to subsection 95 (13), may accept the findings of the Panel with or without amendments or it may reject the findings.

Notice of the Board's acceptance or rejection, with reasons therefor, will be published in the Ontario Gazette in accordance with subsection 95 (15) of the *Workers' Compensation Act*.

#### Industrial Disease Standards Panel

In 1985 the Ontario legislature established the Industrial Disease Standards Panel (IDSP) to investigate and identify diseases related to work. The Panel is independent of both the Ministry of Labour and the Workers' Compensation Board. At the end of each fiscal year the WCB reimburses the Ministry for the Panel's expenditures.

The Panel's authority flows from section 95 of the *Workers' Compensation Act* and its functions are set out as follows:

- (8)
- (a) to investigate possible industrial diseases;
- (b) to make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;
- (c) to create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and
- (d) to advise on eligibility rules regarding compensation for claims.

Decisions of the Panel are made by its members who represent labour, management, scientific, medical and community interests. Once the Panel makes a finding, the WCB is required to publish the Panel's report in the Ontario Gazette and solicit comments from interested parties. After considering the submissions the WCB Board of Directors decide if the Panel's recommendations are to be implemented, amended or rejected.

To assist with its work the Panel has a small staff of researchers, analysts and support people. In addition to its own staff, the Panel relies heavily on the advice of outside experts in science, medicine and law, as well as input from the parties of interest.

#### The Issue and How it Arises

Boeing of Canada, deHavilland Division (now known as deHavilland Inc.) manufactures aircraft and McDonnell Douglas Canada Ltd. manufactures aircraft wings composed of aluminum. The workers at both plants have been very concerned about their exposure to aluminum dust and aluminum welding fumes.

The Workers' Compensation Board has no policy about aluminum claims. On December 16, 1988, the following questions were referred to the Industrial Disease Standards Panel by Dr. R. G. Elgie, then Chair of the Workers' Compensation Board:

- 1) *Is there scientific evidence that occupational exposure to aluminum constitutes a health risk to workers?*

*If the answer to this question is yes, then I am asking the Panel to address the following questions:*

- 2) *Are serum aluminum levels a good indicator for predicting the occupational health risks?*
- 3) *Under what conditions should a worker be removed from occupational exposure to aluminum?*
- 4) *What criteria should be used in the adjudication of claims arising from the adverse health effects? (49)*

After conducting some preliminary investigations, the Panel has decided to expand the scope of question 2) and ask:

*Are urine aluminum levels or other measuring methods useful as indicators for predicting occupational health risks?*

The Canadian Auto Workers have asked the Panel to recommend that the "precursor clause" in Section 1 (1) (n) (iii) of the *Workers' Compensation Act* be applied when certain blood aluminum levels are found.

#### Investigations by the Panel

The Panel has reviewed the medical literature about aluminum and its effects. The IDSP issued a Progress Report on October 20, 1989 which included a detailed literature review. (146) That Report identified the need for further investigations "concerning health effects among Ontario aircraft workers resulting from exposures to a variety of substances." (45)

Since then, the Panel has further reviewed the medical literature and has consulted several leading experts on the subject.

The Panel has reviewed Ministry of Labour hygiene reports on plant conditions at McDonnell Douglas made between 1985 and 1992 and at Boeing-deHavilland made between 1984 and 1992. Some of the current Panel members have visited both plants.

The Panel obtained an independent legal opinion on the precursor clause from the law firm of Cornish Roland. (20) The Panel has also considered a legal opinion provided by the Canadian Auto Workers. (16)

The Panel has solicited and considered several proposals for a study of the health effects of aluminum in these workers and has received comments on those proposals from several peer reviewers.

The Panel has routinely consulted labour and management involved in these issues.

#### Submissions by the Parties

The aircraft workers are represented by several locals of the Canadian Auto Workers. Union leaders state that there is sufficient evidence to establish that the workers' occupational exposure to aluminum could lead to serious health effects. They are particularly concerned about neurological illness and cognitive deficits. They state that some of the members are suffering from symptoms such as dizziness, headaches, nausea, memory loss and irritability. They attribute these problems to aluminum exposure because:

Our understanding is that it is established that aluminum exposure in industry can and has caused neurological damage, lung disease and death. There is a great deal of evidence of aluminum related toxicity from animal research and the effects on in-vitro tissues. Further, the effect of aluminum intoxication on patients undergoing renal dialysis establishes that aluminum does cause neurological damage. And finally, it has been clearly established that people with Alzheimers have high levels of aluminum in the brain compared to the average person who has very low levels. (36)

The Panel's preliminary investigations found that the following evidence might support these concerns:

- Very high levels of aluminum in some kidney dialysis patients are the recognized cause of a usually fatal brain disorder known as dialysis encephalopathy syndrome ("DES");
- Encephalopathy has been reproduced in animals by exposing them to aluminum;

- There is considerable evidence that high levels of aluminum appear in the brains of victims of Alzheimer's Disease;
- Some, but not all, environmental studies have shown a greater incidence of Alzheimer's Disease in localities which have high levels of aluminum in drinking water; and,
- A preliminary report suggests that some northern Ontario miners who were exposed to high levels of aluminum may have suffered some cognitive effects as a result of that exposure.

Because of its concern for the workers' health, the Union has arranged for the Ontario Workers' Health Centre ("OWHC") to conduct medical monitoring of the workers in both aircraft plants. Based upon research conducted at the University of Western Ontario, the Union and the OWHC contend that "normal" aluminum levels in healthy, non-occupationally exposed persons are at most 371 nanomoles ("nmol") per litre of blood and 556 nmol/litre of urine. (73)

The OWHC's April 6, 1989 report states that, of 1029 McDonnell Douglas workers tested, 184 had at least one blood aluminum measurement above that normal level and when averaged by the number of tests per worker, 146 had blood levels above normal. The vast majority were under 500. However, there was one result at each of the following three levels: between 2601 and 2700; between 2001 and 2100; and between 1401 and 1500 nmol/litre of blood.

Although specific urine test results were not listed in that report, it does state that 459 McDonnell Douglas workers had at least one urine or blood level which was above the levels which they consider normal.

While the Union acknowledges that any "dose-response" relationship is not yet known (36), it maintains that there is sufficient evidence to establish that these levels increase the risk of damage to health and have expected that action would be taken to prevent damage to the health of these workers.

On this evidence, the Union is asking that workers who report blood aluminum levels in excess of 371 nmol/litre be removed from the workplace and compensated for lost time. In its view, the Workers' Compensation Board has the responsibility and authority to take this action under the "precursor clause" (Section 1 (1) (n) (iii)) of the *Workers' Compensation Act*.

The Union has also requested a comprehensive medical and epidemiological investigation of the health effects of aluminum exposure in the aircraft industry.

McDonnell Douglas made a detailed submission to the Panel (103) which included copies of scientific studies and several "Health and Safety Notes" published by the Company which contend that aluminum exposure at the plant is not a health hazard to its workers. The package also contained reports on blood aluminum tests indicating that, of 54 current employees tested, only one had a blood aluminum level above 372 nmol/litre. However, of 152 newly hired workers, 19 had blood aluminum levels above 372 nmol/litre on pre-employment tests. Of 58 recalled employees, 18 had results above that level before returning to work. McDonnell Douglas argued that aluminum levels are commonly raised by diet and the use of antacids and can be reduced to normal levels by controlling those sources regardless of occupational exposure.

Boeing-deHavilland has not made submissions to the Panel on the aluminum issue.

Although both companies were also asked to provide their comments on the appropriate application of the precursor clause, neither has done so.

#### The Panel's Findings to Date

##### 1) *Is there scientific evidence that occupational exposure to aluminum constitutes a health risk to workers?*

The Panel has reviewed the medical literature on this subject and has consulted numerous experts in order to investigate a broad range of possible outcomes of aluminum exposure, including Alzheimer's Disease. It has reviewed epidemiological surveys of the aircraft,

pyrotechnics and aluminum industries. It has also considered reports of clinical findings, research on animals, anecdotal evidence from workers, employers and doctors, and has reviewed WCB claims.

### Background

Aluminum is a naturally occurring substance and is the most common metal in the earth's crust. (65, 92) Daily exposure is unavoidable by ingestion through food and water and by inhalation from the atmosphere. Aluminum has no known nutritional benefit. (134)

Normal daily intake in adults is estimated to be about 9 to 14 milligrams (120) but may be much higher depending on diet and intake of aluminum-containing medication such as antacids. (84, 65, 142) Normal total body aluminum content is in the range of 30 to 40 milligrams. (5)

All the medical experts consulted by the Panel have advised that it is important to distinguish between the amount of aluminum to which people are *exposed* and the amount of aluminum which is not eliminated but is *absorbed* by the body and accumulated in tissue.

The skin, lungs and gastrointestinal tract "serve as almost complete barriers to aluminum absorption." (5) In healthy people, the "blood-brain barrier" almost completely prevents aluminum from accumulating in the brain. (23) Some researchers believe that Alzheimer's Disease involves a defect in the blood-brain barrier, which is discussed further below.

The highest accumulation occurs in the lungs and bone. (134) Although the concentration of aluminum is highest in lung tissue, 50% of body burden occurs in bone because bone mass is so much greater than lung mass. (58) Accumulation in the lungs (65) and brain (134) appears to increase with age. (32)

### Occupational Surveys

#### Mortality

Studies of overall death rates in aluminum workers found either no increase (47, 60) or lower rates than expected. (106, 59)

#### Cancer

A survey of the aircraft industry found that numbers of cancer and nervous system diseases were lower than expected. (59) In addition, a 1988 review of the literature concluded that, except perhaps in cases of extremely high exposure, aluminum is not carcinogenic. (91)

Two surveys of mortality in aluminum reduction plant workers found increases in cancer rates (128, 106), one of which attributed this to coal tar pitch volatiles. (106)

Two epidemiological studies found evidence of increased rates of bladder cancer in workers in the aluminum industry. (149, 147) One of those researchers related the increase to polycyclic aromatic hydrocarbon exposure (149) and the other related it to exposure to coal tar pitch volatiles. (147)

#### Respiratory effects

For a few years there were reports of lung fibrosis having occurred in workers who produced fine aluminum powder in the pyrotechnics industry. (110, 83, 111, 105) The cause of those diseases is now attributed to the mineral oil coating which was applied to the aluminum particles in England between 1948 and 1955. In those cases which did not involve coated aluminum particles, the cause of the fibrosis has been attributed to the workers' exposure to silica, rather than to their exposure to aluminum. (41, 112)

However, lung fibrosis in one Belgian metal polisher was attributed to the worker's heavy aluminum dust exposure. (40)

Two surveys found increased rates of respiratory disease in aluminum workers. (128, 60) In one of these, coal tar pitch volatiles were considered the cause. (60) Slight impairment in lung function has been observed (90), as has bronchitis, which was considered related to ozone exposure. (139) Wergeland and colleagues found increased rates of asthma (158) but some authors attribute the cause of asthma and bronchitis in such workers to high concentrations of mixed dusts. (112)

Another research team found no such increase in lung illnesses. (14)

There are reports of reduced lung function proportionate to workers' exposure to mixed dusts including aluminum. (150) Nine workers in an abrasives plant with "prolonged heavy" exposure to aluminum oxide dust were found to have pulmonary fibrosis. The cause was determined to most likely be exposure to aluminum oxide, but possibly exposure to mixed dusts. (82)

#### Neurological effects

A 1989 search of the Swedish Occupational Cancer Registry database for evidence of aluminum-related or neurological illness or symptoms in the Swedish aircraft industry found only one report which involved solvent exposures. (70)

A study of the neurologic health of its workers was conducted for Intalco Aluminum Corporation in the state of Washington because nine workers filed claims for neurological symptoms which they related to aluminum dust exposure. A small increase in self-reported neurological symptoms was found among the most highly exposed but no objective medical or neuropsychologic evidence of a condition which was common to all of them was found. Six workers displayed no objective medical findings on tests nor upon examinations and the remaining three had other unrelated health conditions which were thought to explain their symptoms. (165)

The Panel received documentation from the University of Pittsburgh which indicated more than the number of expected deaths from neurological disorders. Of 21,800 workers studied, seven deaths from neurological illnesses were found. (129) The number of cases is so small that any analysis of these figures is unreliable.

#### Alzheimer's Disease

Gibbs found no Alzheimer's Disease nor lung fibrosis deaths in a mortality study of 5,406 Canadian aluminum smelter workers. (60)

French found no difference in the occupations of Alzheimer's Disease patients compared to controls but did find more head injuries in Alzheimer's victims. (57)

There is one report of Alzheimer's Disease occurring in one man who had worked for thirty years as an aluminum refiner in Japan. The authors compared his brain aluminum content to that of another Alzheimer's Disease victim and a victim of subacute sclerosing panencephalitis ("SSP"), neither of whom had occupational exposure to aluminum. They found aluminum accumulation in the aluminum refiner but not in either of the non-occupationally exposed victims. The authors concluded that aluminum does not necessarily contribute to the formation of Alzheimer's lesions, but it accumulates as a secondary effect in Alzheimer's victims who have had occupational exposure. (85)

#### Other

Between 1980 and 1987, the U.S. National Institute for Occupational Safety and Health (NIOSH) conducted health hazard evaluation surveys of eleven American aerospace, aircraft and aluminum-using operations. In one aerospace plant, aluminum welding fumes were found to be the cause of upper respiratory and eye irritations. In an office building, aluminum filings were likely responsible for neck, hand and facial rashes but no other health effects related to aluminum were found. Neurological symptoms were not a complaint so they were not investigated. (69)

Complaints of eye and respiratory tract irritation, skin rash and neurobehavioural responses prompted an investigation of health problems in a Washington state aircraft plant. The most probable cause of these symptoms, including neurobehavioural and auto-immune responses, was exposure to phenol formaldehyde resin and resin by-products. (10)

#### Aluminum and Encephalopathy

*Dialysis Encephalopathy Syndrome (DES) in kidney patients is believed to be caused by extremely high aluminum exposure.*

It is known that aluminum in very large amounts can be neuro-toxic. "Dialysis Encephalopathy Syndrome" (which is also called "DES" or "dialysis dementia") is a usually fatal condition which has occurred in some of the kidney dialysis patients whose blood levels rose to 7400

nmol/litre or above when their dialysis fluid contained large amounts of aluminum. (2, 24, 135, 65, 163) DES has now been largely eliminated because current treatment protocol requires removal of aluminum from dialysis fluid. (58)

The clinical features of DES are: stuttering; unclear speech; inability to speak; loss of ability to express, name things or recall names; persistent repetition of the same verbal or motor response; loss of ability to carry out familiar movements; intermittent lapse of an assumed posture; lack of muscular co-ordination; irregularity of muscular action; difficulty with attention and concentration; visual disturbances; poor calculation; difficulty with abstraction; seizures; delusions; hallucinations; depression; psychosis; and sometimes suicide. (151)

These symptoms usually, but do not always, improve after aluminum is removed from the body by treatment with chelating drugs. (101, 163, 152)

Not all of the dialysis patients who receive the same high doses of aluminum develop DES, nor does it usually occur in adults who take large oral doses of aluminum-containing antacids but are not undergoing dialysis. (163, 152)

There is no evidence that patients with DES will go on to develop Alzheimer's Disease, possibly because they do not live long enough to do so. (152) Although brain aluminum content is greatly elevated in DES patients, they do not develop the neurofibrillary degeneration which is a marker of Alzheimer's Disease. (163)

In animal studies, there is evidence of encephalopathy being induced in cats whose brains were directly injected with aluminum chloride or lactate (21) and in rabbits after central nervous system exposure to aluminum. (161)

However, the changes in the brains of humans and animals with aluminum-induced encephalopathy are not identical to the changes which occur in Alzheimer's Disease (35, 122, 124, 29, 164) (explained further below).

In 1921, Spofforth reported a single case of occupational "aluminum poisoning" which caused loss of memory, tremor, jerking movements and impaired co-ordination. The patient also suffered from vomiting, constipation and incontinence of urine. (148)

An unusual case of encephalopathy in an aluminum powder factory worker was reported in 1962. (105) At autopsy, the worker's liver contained 122 times the normal amount of aluminum and his lung and brain aluminum levels were 18 and 17 times normal respectively, but there were no characteristics of Alzheimer's Disease in his brain. No other cases of neurological signs or symptoms were found at the time in that workforce. In the absence of any other explanation, the authors concluded that "it seems possible that the encephalopathy was due to aluminum intoxication."

A 1977 NIOSH occupational hazard survey estimated that there were about 3 million workers with occupational exposure to aluminum compounds in the United States alone (112) (comparable Canadian statistics are not available (11)), yet there is little evidence of encephalopathy occurring after occupational exposure to aluminum.

Since a disease must have a probable connection to occupation, on the basis of the present evidence the Panel can only conclude that, in the industrial setting, aluminum does not cause a toxic encephalopathy similar to DES.

#### *Aluminum and Alzheimer's Disease*

Alois Alzheimer first described this progressive brain disorder in 1907. It occurs in middle or late life and involves a progressive deterioration of memory, disorientation and eventually dementia. (104, 25, 152) Some regard it as a process of accelerated aging. (97)

Since aluminum is widely believed to be the cause of DES, it is important to know that Alzheimer's Disease and DES are very different diseases with different symptoms and courses. (24, 26, 79, 80, 29, 152, 164)

The features of Alzheimer's Disease are progressive memory loss, disorientation and mood disturbances. (152) The main features of DES are speech difficulties, loss of coordination, a characteristic tremor, involuntary shaking, contractions of groups of muscles, loss of memory and personality changes (1, 151) among others, which are described in detail above.

The diagnosis of Alzheimer's Disease is made when neurons with neurofibrillary tangles and numerous characteristic senile (or neuritic) plaques are found in the brains of these patients at autopsy. (35, 163) Much smaller numbers of plaques occur in normal, healthy people as they age. (13, 48, 152)

Alzheimer's plaques contain deposits of amyloid protein and paired-helical filaments (pairs of filaments wound around one another), both of which have been found to contain aluminum. (163)

In contrast to the paired helical filaments which occur in Alzheimer's Disease, the neurofibrillary tangles which have been induced by aluminum in animals have structurally normal "straight" filaments. (163, 29, 48) In addition, aluminum-exposed animals do not develop the senile plaques which are a feature of Alzheimer's Disease. (163)

There were no Alzheimer-type neurofibrillary tangles in the brains of patients who died of DES despite the elevated concentrations of aluminum in some parts of their brains. (163)

Dr. D. R. Crapper McLachlan states that "Aluminum induces neither the paired helical filament configuration found in Alzheimer-type neurofibrillary tangles nor the formation of senile plaques with amyloid cores." (31, 29) However, he and other researchers believe that aluminum plays some important but so far unidentified role in the disease (22, 121, 86, 48, 29, 31), while others do not. (4, 85, 163, 79, 80, 164)

Clinical evidence suggests that aluminum may play some role in Alzheimer's Disease because some researchers have found abnormally high levels of aluminum in the brains of these patients at autopsy. (22, 121, 122, 123, 13, 124, 86, 48, 30, 31) Others have not found the same high brain aluminum content in Alzheimer's Disease patients compared to controls. (85, 81, 163)

High levels of aluminum and calcium have also been found in the brains of victims of Amyotrophic Lateral Sclerosis and Parkinson's Disease but again, the microscopic appearance is not identical to Alzheimer's Disease. (168, 122, 163)

One recent clinical trial involving 48 subjects suggested that the progression of Alzheimer's Disease had been slowed after levels of aluminum in the body were reduced by injection of a chelating agent. (30) However, as discussed below, chelation therapy also removes iron and alters the body's chemical and hormonal balance.

In the animal study of encephalopathy (mentioned above) injection of aluminum into the brains of rabbits produced a fatal encephalopathy and neurofibrillary degeneration similar but, again, not identical to that seen in Alzheimer's Disease. The authors proposed that Alzheimer's Disease involves a defect in the olfactory mucosa which allows excessive aluminum into the brain. (125)

Researchers do not agree about whether aluminum is one of the factors which causes Alzheimer's Disease or whether its accumulation in the brain is a secondary effect of the disease. Aluminum may accumulate in the brain because the disease causes a defect in the normally protective blood-brain barrier which makes the brain a willing host for aluminum deposition. (35, 24, 26, 4, 27, 28, 124, 85, 79, 53)

Some studies suggest a relationship between the incidence of Alzheimer's Disease and aluminum levels in local drinking water (156, 99, 116) but other researchers consider that suggestion "premature" (136) and "unwise." (46) Another study did not find such a relationship. (159)

While the cause of Alzheimer's Disease remains unknown, aging, head injury, family history, genetic factors and thyroid disease have been linked. (75, 76, 77, 57, 113, 72, 7, 67, 127, 66)

There is increasing evidence that an altered protein, called "amyloid," is encoded by a gene on chromosome 21 in some late-onset familial Alzheimer's Disease patients. (74, 62, 137, 167, 63) As discussed above, amyloid is one of the components of senile plaques which, in large enough numbers at autopsy, are one of the diagnostic features of Alzheimer's Disease. Victims of Down's Syndrome, who have an extra copy of chromosome 21, produce more amyloid and develop more plaques than do people without the disease. Down's Syndrome victims almost invariably go on to develop the pathological changes of Alzheimer's Disease if they live beyond age forty. (75, 35, 162, 137, 167) Other potential genetic causes of Alzheimer's Disease are currently being researched.

Anecdotal reports of dizziness, headaches, nausea, memory loss and irritability have been made by the aircraft workers. The Panel's consultant Neurologist, Dr. J. Turnbull, advises that, other than memory loss which has many potential causes, the symptoms reported by these workers are not the symptoms of Alzheimer's Disease nor of DES but are almost exactly the symptoms seen in patients with chronic solvent exposure. (166, 8, 151)

Obviously, the Panel is not in a position to draw any conclusions about the cause(s) of the symptoms of dizziness, headaches, nausea, memory loss and irritability, but it must acknowledge that high levels of solvents in the work environment at McDonnell Douglas have been identified by the Ministry of Labour. For example, air test results showed that levels of trichloroethane were as high as 6074, 6027 and 5236 p.p.m. in 1985 when the time-weighted average guideline was 350 p.p.m. (109)

In summary, neither the occupational surveys (discussed above) nor the medical literature provide evidence that Alzheimer's Disease has a general occupational link.

#### *Occupational Aluminum Exposure and Cognitive Deficits or Neurologic Effects*

As discussed above, very high aluminum exposure is believed to have caused neurological and cognitive deficits in some dialysis patients, resulting in problems with speech, concentration and muscle control, a condition which is known as DES.

The Panel also notes that cognitive deficits were found in dialysis patients without extremely high blood aluminum levels and without overt DES (6), although it has not been established that those deficits were caused by aluminum. (154)

Between 1944 and 1979, northern Ontario miners were deliberately exposed to high levels of an aluminum powder (353 milligrams/cubic metre of air), known as "McIntyre Powder", which contained metallic aluminum and aluminum oxide, in an attempt to prevent the occurrence of silicosis. (42) An epidemiological survey of a small sample of those miners suggests that they may have suffered some cognitive effects as a result of that aluminum exposure. (126) This was a preliminary survey only and some of the methodology used has since been criticized. (153) However, these could be very important findings, particularly when considered in light of the studies discussed below. The Panel has funded the first phase of a more detailed study of the aluminum-exposed miners in an attempt to repeat those findings.

A Yugoslavian study of 87 aluminum foundry workers found that their "changes in psychomotor and intellectual abilities could be a consequence of the long-lasting toxic effects of aluminum." (78)

A Swedish study of 65 welders found that "Welders exposed to aluminum, lead or manganese for a long period had more neuropsychiatric symptoms than welders not exposed to these metals." The authors attributed these findings to metal welding fumes, but not specifically to aluminum. (142)

Three cases of neurologic disorder in potroom workers occurred "in one of the largest aluminum production plants in the United States." Those workers had been heavily exposed to particulate alumina, fluorides including hydrogen, calcium and lithium, hydrogen sulfide, sulfur oxides, polycyclic aromatic hydrocarbons, volatile emissions of coal tar pitch, carbon monoxide, carbon dioxide, heat, noise and strong direct-current electrical fields. None of the three cases had evidence of other

diseases reported to afflict workers in the aluminum production industry and none had the clinical features of DES, osteomalacia nor anaemia which have been linked to aluminum. They had some cognitive impairment but not the same impairment seen in DES. The authors attributed these effects to occupational exposure but were not able to specify from which substance(s). (96)

The OWHC provided anecdotal evidence to support its argument that at least 10% of the 375 McDonnell Douglas workers whose blood aluminum levels were higher than normal suffer from noticeable memory loss. (68) The Panel has not yet received the requested documentation of these findings.

The Union states that some workers from both aircraft plants have filed aluminum-related claims through their sickness and accident insurance plan and that numerous claims have also been filed with the WCB. All those WCB claims which were based on aluminum levels without other symptoms or diagnoses have been denied. Several of their claims related to solvent exposures have been allowed by the WCB. (114, 52)

#### *The Panel's Findings Regarding Occupational Aluminum Exposure*

The Panel accepts that there is some epidemiological and anecdotal evidence to suggest that high levels of occupational aluminum exposure might lead to cognitive or neurologic effects. Is that evidence sufficient to conclude that a probable relationship exists between aluminum exposure and disease?

In the Panel's opinion, the *Act* does not require scientifically conclusive evidence to establish the existence of an industrial disease. It is only necessary to find a **probable** connection between a process and/or exposure to a substance and the development of a disease. However, that probable connection can only be made when an adequate level of evidence exists.

In weighing this evidence, the Panel notes that the medical and epidemiological evidence is preliminary. There is an insufficient number of studies to establish consistent results. The problem is that exposure to aluminum is usually accompanied by exposure to other potentially toxic substances and therefore it has not been possible so far for aluminum to be identified as the causal agent of any occupational disease. In addition, the anecdotal reports have not been supported by any documentation. Overall, the evidence currently available to the Panel is inadequate to allow the Panel to describe occupational exposure to aluminum as a probable factor in the development of cognitive or neurologic deficits, or Alzheimer's Disease. Therefore they cannot currently be described as aluminum-related industrial diseases.

However, the Panel recognizes that a lack of evidence does not mean that a relationship does not exist. It only means that medical science cannot yet answer these questions. Clearly, further research is needed in order to resolve the significant uncertainties about aluminum and to answer the important concerns of workers. Further research is already being funded by this Panel, as discussed below.

If evidence can be obtained which identifies a disease that has a probable connection to workplace exposure to aluminum, this Panel will promptly reconsider its opinion and these interim findings.

#### *Further Study of Health Effects from Aluminum Exposure*

The Panel's Progress Report of October 20, 1989 identified the need for further investigations of the health effects of aluminum and other workplace exposures in aircraft workers. (45) Accordingly, the Panel has considered funding a proposal entitled "A Study of Aircraft Workers Exposed to Aluminum." (89)

It has heard extensive critiques of that study from the Union (15, 37, 38) and management (39, 100) as well as from numerous medical and scientific experts (17, 143, 55, 151), the Ministry of Labour (102) and the WCB. (51)

After considering all of those opinions, the Panel has concluded that this proposal will not distinguish between the effects of aluminum and the effects of solvents because it cannot adequately control for solvent exposure. Therefore, it cannot adequately

answer the workers' questions about the effects of aluminum exposure and other workplace exposures on their health because it cannot distinguish between potential causes of ill health. For these reasons, the Panel will not proceed with that study proposal.

However, the Panel has already funded the first phase of a follow-up study of the effects of aluminum exposure on northern Ontario miners, who were exposed to high levels of aluminum in the form of "McIntyre Powder" from 1944 to 1979. (126) These workers were not also exposed to the potentially confounding effects of solvents.

The Panel will consider funding further phases of this study once it has reviewed the first-phase findings.

- 2) *Are serum aluminum levels a good indicator for predicting the occupational health risks?*  
*Are urine aluminum levels or other measuring methods useful as indicators for predicting occupational health risks?*

#### *Background*

Much of the previous medical research on aluminum has studied aluminum levels in blood and urine because these are the easiest samples to obtain. (5) Aluminum in bone has been studied in research about osteomalacia, a condition marked by softening of the bones due to impaired mineralization. Brain aluminum levels have been studied at autopsy in research about Alzheimer's Disease and other dementias.

It is known that aluminum exposure may be reflected in increased blood and urine levels, at least temporarily. The only effective route of elimination is through urine. (134, 5)

The Panel has noted several examples of wide variations in aluminum levels which occur because of differences in diet, intake of medication, state of health and the type of aluminum involved (32):

- Wide variations in blood and urine aluminum levels occur because of differences in diet, intake of medication, state of health and the type of aluminum involved.
- Certain types of aluminum appear to penetrate the body's protective barriers much more than do others. Aluminum maltol, for example, is a sugar-based additive in many processed foods. When fed to rabbits, it was found to increase urine levels by more than 200 times and to raise brain aluminum levels by three times (87);
- Tea leaves are grown on one of the few plants that naturally accumulate aluminum. Brewed tea typically contains 2 to 6 mg/litre of aluminum and ingestion markedly raises urine aluminum levels (56);
- Normal urine levels increase from 4 to 50 times when antacids are being taken (84);
- Coated aspirin contains about 12–17% aluminum (71);
- Iron deficiency and parathyroid hormone promote aluminum absorption (145);
- Ingesting dill pickles, drinks from aluminum cans and acidic foods cooked in aluminum containers raises blood aluminum levels (32);
- Blood aluminum levels will increase by 2–1/2 to 5 times when a person takes antacids in combination with acidic foods such as orange juice (88, 84);
- Milk of Magnesia is 50% aluminum. One non-occupationally exposed patient taking Milk of Magnesia had a blood aluminum level of 1300 nmol/litre (157);
- Dr. J. A. Fenton, staff physician for McDonnell Douglas, has provided the Panel with laboratory reports which indicate that he had 55 nmol/litre of aluminum in his blood prior to taking 15 cc of Maalox and this level nearly doubled (to 95 nmol) within 12 hours. (103)

These are only a few examples which are given to illustrate the fact that people without occupational exposure to aluminum can have blood or urine levels which are considerably above "normal" levels.

#### *The Evidence about Blood Aluminum Levels*

It must be noted that some researchers maintain that blood aluminum cannot be measured accurately. (9) Others disagree and have cited the

following normal levels of aluminum in the blood of non-occupationally exposed persons:

<i>level</i>	<i>author</i>
average of about 241 nmol/litre	Kaehny et al., 1977
between 74 and 519 nmol/litre	Leung and Henderson, 1982
means between 78–1556 nmol/litre	Savory et al., 1983
about 371 nmol/litre	Henderson, 1992

These variations have been attributed to differences in methods of analyzing samples as well as differences in diet, intake of medication, state of health and the type of aluminum involved. (32, 73)

Whether significant or not, researchers report that Alzheimer's Disease patients have normal blood aluminum levels. (23, 24)

#### **Blood aluminum levels and body burden**

Blood aluminum levels are not considered to reflect body burden. (5, 152)

In dialysis patients, aluminum in bone has been found to correspond with the total body burden but blood levels did not. (160)

Animal research leads to the same conclusion. After five months of low-level exposure to aluminum oxide dust, rabbits' brains accumulated two and a half times the aluminum levels found in the non-exposed and lung levels were 158 times higher, but blood levels were only slightly raised. Again, these authors concluded that blood levels do not indicate body burden of aluminum. (131)

#### **Blood aluminum levels in occupational monitoring**

It is established that aluminum is cleared relatively quickly from the blood and excreted in urine when people have normal kidney function (5, 152) so blood levels are not considered useful for occupational monitoring. (65)

Several researchers who have studied blood aluminum levels in occupationally exposed workers also concluded that blood levels are not reliable for occupational monitoring. (155, 138, 115, 141, 33)

The Ontario Ministry of Labour has issued a Circular for Health and Safety Support Service Branch Consultants, dated July 13, 1988, which states:

The normal level of aluminum in serum has been reported to be 372 nmol/L. Work practices should be reviewed when a worker serum aluminum level is at or above 744 nmol/L. There is no support in the literature for a serum aluminum level that indicates toxicity in individuals with normal renal [kidney] function. (107)

The Panel has been advised that this level was chosen arbitrarily in response to the workers' complaints. (157) Obviously, this is not the appropriate way to choose a standard for acceptable blood aluminum levels.

Dr. Donald R. Crapper McLachlan is a Toronto Neurologist who has conducted much of the leading research into aluminum health effects. He and several of his colleagues attended the Panel's meeting on December 11, 1991 and provided considerable information and expert advice. They made clear that blood aluminum levels cannot be used to predict bone, liver or brain aluminum levels. They also confirmed that the relationship between blood aluminum levels and the probability of cognitive deficit is unknown. This was reiterated by Neurologist Dr. J. Turnbull, who also provided expert advice to the Panel at that meeting.

For those reasons, Dr. Crapper McLachlan has advised the IDSP that he would not make decisions about when to remove people who are not reporting cognitive symptoms from workplace aluminum exposure based upon their blood aluminum levels because blood levels are not considered predictors of danger to health. (33) He also said:

Perhaps the most rational approach would be to argue that an individual, in whom the most probable diagnosis for either cognitive or motor control deficits was most likely related to aluminum, should be removed from the workplace if the serum value exceeds 10 micrograms [370 nmol] per litre. However, the long-term risk to

those individuals having an elevated blood aluminum level without neurological signs is uncertain and requires further systemic investigation. (34)

In all of its research and consultations with the parties, the Panel has not been able to find any cases of cognitive deficits nor of other adverse health effects which were diagnosed as related to aluminum in the workers from either of these two aircraft plants.

In summary, none of the numerous medical experts consulted by the Panel was able to identify a blood aluminum level which indicates danger from further exposure when no symptoms are being reported. Since aluminum is quickly cleared from the blood and either excreted in urine or deposited in bone or other tissue, low blood levels of aluminum in exposed persons can mean that aluminum is either being excreted or retained. Therefore low blood aluminum levels do not necessarily indicate low risk to health.

#### *The Evidence about Urine Aluminum Levels*

The following have been cited as normal levels of aluminum in the urine of non-occupationally exposed persons:

level	author
median of about 148 nmol/litre	Sjögren et al., 1983
average of 155 nmol/litre	Mussi et al., 1984
average of 279 nmol/litre	Hosovski et al., 1990
less than 370 nmol/litre	Leung and Henderson, 1982
average of 491 nmol/litre	Kaehny et al., 1977

There is nothing in the literature which suggests a "safe" level of aluminum in urine.

Urine aluminum levels are not affected by gender, age or smoking (138) but, like blood levels, can be markedly affected by diet and intake of medication.

#### **Urine aluminum levels and body burden**

The Panel's investigations found nothing in the literature to suggest that urine aluminum levels reflect body burden. This was confirmed by the medical experts who attended the Panel's meeting on December 11, 1991. (32, 152)

#### **Urine aluminum levels in occupational monitoring**

While urine levels more often correlate with exposure than do blood levels, urine measurements are also not reliable because there are great variations between individuals. (141) Variations may also be caused by contamination of samples and differences in analyzing methods. (32, 73)

Some studies suggest that urinary aluminum levels are proportionate to the amount of aluminum exposure (138, 115, 141, 78), but another study found no significant increase in urine levels after low levels of exposure, indicating that aluminum had accumulated in the body rather than having been excreted. (130)

No proportionate increase in urinary aluminum levels was found in a study of long-term exposed workers. (95) Other studies indicate a much slower rate of excretion after long-term exposure (140, 50), again suggesting that some aluminum had been retained in the body.

These findings were reiterated by all the doctors who were consulted by the Panel. Low urine levels of aluminum in exposed people might mean that aluminum is being retained in the body, so low urine aluminum levels do not necessarily indicate low risk to health. In fact, the Panel is advised that high urine levels suggest that the body's protective mechanisms are efficiently clearing aluminum. (152)

#### *The Panel's Finding Regarding Blood and Urine Aluminum Levels*

All of the medical experts consulted by the Panel concurred with the majority of the medical literature and stated that neither blood nor urine levels consistently reflect exposure or absorption. Without exception, the Panel has been advised that neither blood nor urine levels indicate the total body burden of aluminum.

On this strong evidence, the Panel must find that neither blood nor urine

levels of aluminum indicate the amount of aluminum which is being retained by the body, nor where it might accumulate, nor whether there is any danger to health from occupational exposure. The evidence shows that blood and urine aluminum levels are clearly inadequate measurements for indicating or predicting danger to health from aluminum.

Since neither blood nor urine aluminum levels indicate an abnormal state of health, neither can be considered a "medical condition" which may be a precursor to an industrial disease.

#### *The Evidence about Other Measuring Methods*

There are other methods which may be capable of assessing levels of aluminum in the body, such as bone biopsy, autopsy and the use of chelating drugs:

- 1) So far, the most reliable tissue for assessing body burden of aluminum is bone. (5) Alfrey reports that bone aluminum levels bear no relationship to blood aluminum levels. (3) Malluche and Faugere speculate that avid uptake of aluminum by bone may protect against aluminum accumulation in the brain. (98)

These are not yet conclusive findings but, in any event, surgical bone biopsy is far too invasive a method to propose for medical monitoring of apparently healthy workers in order to satisfy the Workers' Compensation Board that it should remove workers from further aluminum exposure;

- 2) Brain aluminum content can, so far, only be determined by surgical biopsy or at autopsy (152);
- 3) Chelation therapy, which involves a series of injections of a drug known as "desferrioxamine," mobilizes accumulated aluminum.

Dr. Crapper McLachlan and colleagues have advised the Panel that more could be learned about whether and how blood aluminum levels correlate with aluminum exposure and body burden by conducting desferrioxamine challenge tests on the aircraft workers, then measuring their blood aluminum levels.

However, other researchers, and the drug's manufacturer, have described potentially serious side effects when several chelation therapy treatments are given, such as reported cases of potentially fatal blood infections, temporary and permanent damage to hearing and vision, allergic or hypersensitivity reactions, nausea, diarrhea and lowered blood pressure. (93, 64, 118, 119, 12, 98, 30, 152) Worsening of encephalopathy and of seizures has been reported even at low doses. (101, 94)

In addition to removing aluminum, chelation treatments remove iron from all tissues and disturb the blood concentration of parathyroid hormone which is necessary for normal health. (44) When used in cases of lead toxicity, it may even cause increased absorption of lead. (93) Finally, some studies suggest that some of the drug may accumulate in the body. (43)

Perhaps because the "half-life" of desferrioxamine is about 90 minutes (26) (i.e., it takes about 90 minutes for half of the drug to be cleared from blood), it does not remain effective long enough to inspire confidence that blood levels after chelation indicate body burden. (5) Moreover, it is not known whether body burden reflects danger to health. (5, 152)

Under these circumstances, the Panel is not prepared to recommend conducting experiments on apparently healthy workers who are not reporting symptoms when doing so could cause them illness and which will not provide reliable answers about their health in any event.

In summary, there is currently no acceptable tool which is capable of reliably determining whether, how much or where aluminum may be accumulating in the body. However, the Panel is anxious to find a responsible way to protect workers from risk without unnecessarily alarming workers who are not at risk and so it is investigating current research into other methods of assessing body burden of aluminum.

The Panel is encouraged to learn about research into a new testing method, known as "neutron activation analysis", which has already been shown to reliably indicate body burden of lead and cadmium. (18) Dr. David Chettle and colleagues at McMaster University are currently working on refining that technique to make it safer and more sensitive, and on ways to apply it to aluminum and to mercury. (18, 19) The Panel is cautioned, however, that body burden does not necessarily predict any potential risk of cognitive effects. (154)

While that measurement tool is being developed, the Panel asks that the Union and the employers help it find the needed answers by continuing to collect and provide evidence of any symptoms and/or disability which might be related to occupational aluminum exposure, or to any other exposures which occur in the aircraft industry. The Panel undertakes to continue investigating the issue and this important new technique and will make further findings known to the parties as soon as more information becomes available.

**3) Under what conditions should a worker be removed from occupational exposure to aluminum?**

Section 1 (1) (n) (iii) of the *Workers' Compensation Act* states that an "industrial disease" includes:

a medical condition that in the opinion of the Board requires a worker to be removed either temporarily or permanently from exposure to a substance because the condition may be a precursor to an industrial disease.

The purpose of the *Act* is to provide for payment after a worker becomes ill. The *Act* does not have a general safety mandate. The precursor clause is one of the few legislative provisions that allows the WCB to be proactive and protective in terms of the worker's health and safety.

*The Panel's Finding regarding the "precursor clause"*

In the Panel's reading of this provision, it is not necessary that there be a disabling feature to the "medical condition." If disability were necessary, it would mean that an industrial disease had already been established and the preventative feature of the legislation would be lost. It is of interest to note that Workers' Compensation Appeals Tribunal decision #157/91 confirms the need to identify a medical condition and also concluded that it was not necessary for disabling consequences to flow from the medical condition.

However, it is necessary that the medical condition be a condition which "may be a precursor to an industrial disease." In the Panel's view, regardless of whether or not blood and urine levels are "medical conditions", they do not constitute precursors to any known aluminum-related industrial disease. Nor are there any other acceptable methods for diagnosing potential precursors to aluminum-related industrial disease. Hence, the Panel is unable to identify conditions under which workers should be removed from occupational exposure to aluminum.

**Summary of the Panel's Findings**

- 1) *The evidence currently available is inadequate to allow the Panel to conclude that occupational aluminum exposure causes neurological health effects.*
- 2) *Neither blood nor urine aluminum levels are good indicators for predicting occupational health risks, nor for estimating body burden of aluminum. The other measuring methods which are currently available are too invasive to be considered for occupational monitoring. There is currently no evidence that body burden of aluminum reflects danger to health.*
- 3) *The available evidence is inadequate to allow the Panel to identify conditions under which a worker should be removed from occupational exposure to aluminum.*
- 4) *Since the available evidence is inadequate to identify adverse health effects from occupational aluminum exposure, the Panel is not able to recommend criteria for the adjudication of claims at this time.*

**Summary of the Panel's Recommendations**

Since some preliminary studies suggest that aluminum could cause some health effects, further research is recommended.

The Panel recommends that a study of health effects in aircraft workers be conducted, subject to the parties' agreement to participate and the availability of sufficient funding.

**Further Panel Activity**

The Panel has funded the first phase of a follow-up study of cognitive effects in northern Ontario miners exposed to aluminum and will consider funding further phases of this study once the initial findings have been reviewed by the Panel.

For the reasons outlined above, the Panel will not proceed with the proposed study entitled "Proposal: A Study of Aircraft Workers Exposed to Aluminum."

The Panel will continue to monitor research into the application of neutron activation analysis to aluminum.

The Panel undertakes to continue to monitor all research about potential health effects of aluminum.

The Panel again requests that the Union and management continue to provide any and all evidence of health effects in aircraft workers which becomes available to them. Once further scientific or medical evidence is available, the Panel will promptly reconsider these findings.

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

**NOTE:** A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

## AUDITOR'S REPORT

CONSTITUENCY ASSOCIATION  
ANNUAL FINANCIAL STATEMENTSPursuant to Section 41(4) of the Election Finances Act, 1986

To: \_\_\_\_\_, Chief Financial Officer  
 of the: \_\_\_\_\_ Constituency Association

I/we have audited the statement of assets and liabilities of \_\_\_\_\_ as at December 31, 19\_\_\_\_ and the statement of income and expenses for the year then ended. These financial statements are the responsibility of the chief financial officer. My/our responsibility is to express an opinion on these financial statements based on my/our audit.

Except as explained in the following paragraph, I/we conducted my/our audit in accordance with generally accepted auditing standards. Those standards require that I/we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the chief financial officer as well as evaluating the overall financial statement presentation.

Due to the nature of the types of transactions inherent in organizations of this type, it is impracticable through auditing procedures to determine that the accounting records include all income and expenses for the year. Accordingly, my/our verification of these transactions was limited to the amounts recorded in the accounting records of the association and I was/we were not able to determine whether any adjustments might be necessary to income and expenses, assets or liabilities, and surplus/deficit.

In my/our opinion, except for the effect of adjustments, if any, which I/we might have determined to be necessary had I/we been able to satisfy myself/ourselves as to the completeness of the records as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the association as at December 31, 19\_\_\_\_ and the income and expenses for the year then ended in accordance with the accounting principles disclosed in the notes to the financial statements.

The Act does not require me/us to report, nor was it practicable for me/us to determine, that contributions reported include only those which may be properly retained in accordance with the provisions of the Act.

## ACCOUNTING POLICIES

The accounting policies and procedures are determined by the Act and the Commission on Election Finances through its Guidelines. These are considered appropriate for compliance with the Act.

## Contributions

- Individuals, corporations, trade unions and other organizations are limited by the Act in the amount which they may contribute in a year or an election;
- The Commission requires that official income tax receipts be issued for each contribution;
- Contributions of other than cash are recorded at their fair commercial value.

## Expenses

- The Act imposes spending limits on the campaign period expenses of candidates and political parties. Campaign period expenses are defined in the Act and the Guidelines;
- The Act requires all expenses be recorded at their fair commercial value.

Inventory of campaign material consists primarily (for example) of sign posts, signs and campaign promotional material and is valued at fair commercial value.

Inventory other than campaign material is valued at cost.

Fixed assets, consisting primarily of \_\_\_\_\_, are expensed in the year of acquisition and are included in the statement of assets and liabilities at a nominal amount.

## RAPPORT DU VÉRIFICATEUR

ÉTATS FINANCIERS ANNUELS  
DE L'ASSOCIATION DE CIRCONSCRIPTION

Conformément au paragraphe 41 (4) de la Loi de 1986 sur le financement des élections.

À : \_\_\_\_\_, directeur des finances  
du : \_\_\_\_\_, association de circonscription.

J'ai/nous avons examiné l'état de l'actif et du passif du \_\_\_\_\_ au 31 décembre 19\_\_ ainsi que l'état des recettes et des dépenses pour l'exercice alors terminé. La responsabilité de ces états financiers incombe au directeur des finances. Ma/notre responsabilité consiste à exprimer une opinion sur ces états financiers basée sur mon/notre examen.

Sauf ce qui est exposé au paragraphe suivant, mon/notre examen a été effectué conformément aux normes de vérification généralement reconnues. Ces normes exigent de moi/nous de planifier et de réaliser un examen pour obtenir une assurance suffisante que les états financiers ne contiennent pas de déclarations erronées importantes. La vérification comporte l'examen, au moyen de sondages, des preuves à l'appui des montants et déclarations que renferment les états financiers. Elle comporte également l'évaluation des principes comptables appliqués et des prévisions faites par le directeur des finances ainsi que l'évaluation de la présentation d'ensemble des états financiers.

Étant donné la nature des transactions propres aux organisations de ce genre, les procédés de vérification ne permettent pas de déterminer si les registres comptables englobent toutes les recettes et dépenses de l'exercice. Par conséquent, ma/notre vérification de ces transactions se borne aux montants déclarés dans les registres comptables de l'association et j'étais/nous étions incapable(s) de déterminer s'il pouvait être nécessaire d'apporter des ajustements quelconques aux recettes et aux dépenses, à l'actif ou au passif ainsi qu'au surplus/déficit.

À mon/notre avis, sauf en ce qui concerne l'effet des ajustements, le cas échéant, que j'aurais/nous aurions pu déterminer comme étant nécessaires si j'avais/nous avions pu me/nous convaincre que les registres décrits au paragraphe précédent étaient complets, ces états financiers présentent fidèlement, sous tous égards importants, la situation financière de l'association au 31 décembre 19\_\_ ainsi que les recettes et les dépenses pour l'exercice alors terminé, conformément aux principes comptables énoncés dans les notes afférentes aux états financiers.

La loi ne m'/nous oblige pas à signaler, et cela n'était pas pratique à déterminer non plus, si les contributions déclarées ne comprennent que celles qui sont dûment conservées conformément aux dispositions de la loi.

NOTES AFFÉRENTES AUX ÉTATS FINANCIERS  
POUR L'EXERCICE TERMINÉ LE 31 DÉCEMBRE 19\_\_  
CONVENTIONS COMPTABLES

Les conventions et méthodes de comptabilité sont fixées par la loi et la Commission sur le financement des élections par le biais de ses Lignes directrices. L'observation de ces Lignes directrices est considérée suffisante pour appliquer la loi.

## Contributions

- La loi impose un plafond aux sommes que des particuliers, des personnes morales, des syndicats ou d'autres organismes peuvent verser pendant un exercice ou une campagne électorale.
- La Commission exige la remise de récépissés officiels pour chaque contribution.
- Les contributions autres qu'en espèces sont comptabilisées à leur juste valeur marchande.

## Dépenses

- La loi impose des plafonds aux dépenses liées à la campagne électorale des candidats et des partis politiques. Les dépenses liées à la campagne électorale sont définies dans la loi et dans les Lignes directrices.
- La loi exige que toutes les dépenses soient comptabilisées à leur juste valeur marchande.

Le stock de matériel de campagne électorale se compose principalement (par exemple) de supports d'affiches, d'affiches et de matériel de promotion de campagne électorale. Le stock est évalué à sa juste valeur marchande.

Le stock composé d'autres éléments que le matériel de campagne électorale est évalué au coût.

Les immobilisations, qui se composent principalement de \_\_\_\_\_, sont passées en charges au cours de l'année de leur acquisition et figurent à l'état de l'actif et du passif à une valeur symbolique.

## AUDITOR'S REPORT

POLITICAL PARTY  
ANNUAL FINANCIAL STATEMENTSPursuant to Section 41(4) of the Election Finances Act, 1986To: \_\_\_\_\_, Chief Financial Officer  
of the: \_\_\_\_\_

I/we have audited the statement of assets and liabilities of \_\_\_\_\_ as at December 31, 19\_\_\_\_ and the statement of income and expenses for the year then ended. These financial statements are the responsibility of the chief financial officer. My/our responsibility is to express an opinion on these financial statements based on my/our audit.

Except as explained in the following paragraph, I/we conducted my/our audit in accordance with generally accepted auditing standards. Those standards require that I/we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the chief financial officer as well as evaluating the overall financial statement presentation.

Due to the nature of the types of transactions inherent in organizations of this type, it is impracticable through auditing procedures to determine that the accounting records include all income and expenses for the year. Accordingly, my/our verification of these transactions was limited to the amounts recorded in the accounting records of the party and I was/we were not able to determine whether any adjustments might be necessary to income and expenses, assets or liabilities, and surplus/deficit.

In my/our opinion, except for the effect of adjustments, if any, which I/we might have determined to be necessary had I/we been able to satisfy myself/ourselves as to the completeness of the records as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the party as at December 31, 19\_\_\_\_ and the income and expenses for the year then ended in accordance with the accounting principles disclosed in the notes to the financial statements.

The Act does not require me/us to report, nor was it practicable for me/us to determine, that contributions reported include only those which may be properly retained in accordance with the provisions of the Act.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 19\_\_\_\_

## ACCOUNTING POLICIES

The accounting policies and procedures are determined by the Act and the Commission on Election Finances through its Guidelines. These are considered appropriate for compliance with the Act.

## Contributions

- Individuals, corporations, trade unions and other organizations are limited by the Act in the amount which they may contribute in a year or an election;
- The Commission requires that official income tax receipts be issued for each contribution;
- Contributions of other than cash are recorded at their fair commercial value.

## Expenses

- The Act imposes spending limits on the campaign period expenses of candidates and political parties. Campaign period expenses are defined in the Act and the Guidelines;
- The Act requires all expenses be recorded at their fair commercial value.

Inventory of campaign material consists primarily (for example) of sign posts, signs and campaign promotional material and is valued at fair commercial value.

Inventory other than campaign material is valued at cost.

Fixed assets, consisting primarily of \_\_\_\_\_, are expensed in the year of acquisition and are included in the statement of assets and liabilities at a nominal amount.

## RAPPORT DU VÉRIFICATEUR

ÉTATS FINANCIERS ANNUELS  
DU PARTI POLITIQUEConformément au paragraphe 41 (4) de la Loi de 1986 sur le financement des élections.À : \_\_\_\_\_, directeur des finances  
du : \_\_\_\_\_

J'ai/nous avons examiné l'état de l'actif et du passif du \_\_\_\_\_ au 31 décembre 19\_\_ ainsi que l'état des recettes et des dépenses pour l'exercice alors terminé. La responsabilité de ces états financiers incombe au directeur des finances. Ma/notre responsabilité consiste à exprimer une opinion sur ces états financiers basée sur mon/notre examen.

Sauf ce qui est exposé au paragraphe suivant, mon/notre examen a été effectué conformément aux normes de vérification généralement reconnues. Ces normes exigent de moi/nous de planifier et de réaliser un examen pour obtenir une assurance suffisante que les états financiers ne contiennent pas de déclarations erronées importantes. La vérification comporte l'examen, au moyen de sondages, des preuves à l'appui des montants et déclarations que renferment les états financiers. Elle comporte également l'évaluation des principes comptables appliqués et des prévisions faites par le directeur des finances ainsi que l'évaluation de la présentation d'ensemble des états financiers.

Étant donné la nature des transactions propres aux organisations de ce genre, les procédés de vérification ne permettent pas de déterminer si les registres comptables englobent toutes les recettes et dépenses de l'exercice. Par conséquent, ma/notre vérification de ces transactions se borne aux montants déclarés dans les registres comptables du parti et j'étais/nous étions incapable(s) de déterminer s'il pouvait être nécessaire d'apporter des ajustements quelconques aux recettes et aux dépenses, à l'actif ou au passif ainsi qu'au surplus/déficit.

À mon/notre avis, sauf en ce qui concerne l'effet des ajustements, le cas échéant, que j'aurais/nous aurions pu déterminer comme étant nécessaires si j'avais/nous avions pu me/nous convaincre que les registres décrits au paragraphe précédent étaient complets, ces états financiers présentent fidèlement, sous tous égards importants, la situation financière du parti au 31 décembre 19\_\_ ainsi que les recettes et les dépenses pour l'exercice alors terminé, conformément aux principes comptables énoncés dans les notes afférentes aux états financiers.

La loi ne m'/nous oblige pas à signaler, et cela n'était pas pratique à déterminer non plus, si les contributions déclarées ne comprennent que celles qui sont dûment conservées conformément aux dispositions de la loi.

Les conventions et méthodes de comptabilité sont fixées par la loi et la Commission sur le financement des élections par le biais de ses Lignes directrices. L'observation de ces Lignes directrices est considérée suffisante pour appliquer la loi.

## Contributions

- La loi impose un plafond aux sommes que des particuliers, des personnes morales, des syndicats ou d'autres organismes peuvent verser pendant un exercice ou une campagne électorale.
- La Commission exige la remise de récépissés officiels pour chaque contribution.
- Les contributions autres qu'en espèces sont comptabilisées à leur juste valeur marchande.

## Dépenses

- La loi impose des plafonds aux dépenses liées à la campagne électorale des candidats et des partis politiques. Les dépenses liées à la campagne électorale sont définies dans la loi et dans les Lignes directrices.
- La loi exige que toutes les dépenses soient comptabilisées à leur juste valeur marchande.

Le stock de matériel de campagne électorale se compose principalement (par exemple) de supports d'affiches, d'affiches et de matériel de promotion de campagne électorale. Le stock est évalué à sa juste valeur marchande.

Le stock composé d'autres éléments que le matériel de campagne électorale est évalué au coût.

Les immobilisations, qui se composent principalement de \_\_\_\_\_, sont passées en charges au cours de l'année de leur acquisition et figurent à l'état de l'actif et du passif à une valeur symbolique.

RECEIPTS FOR CONTRIBUTIONSGENERAL

- .01 The Province of Ontario allows individuals tax credits from Ontario income tax for contributions made to registered political parties, registered constituency associations and registered candidates. Corporations carrying on business in the Province of Ontario are permitted to make a deduction from their Ontario income for their contributions within the limits permitted by the Ontario Income Tax Act.

Contributions to a registered leadership contestant made by individuals are not eligible for the tax credit and contributions made by a corporation are not deductible from Ontario income in computing Ontario taxable income.

- .02 Both individuals and corporations must attach an official receipt to their tax returns in order to claim the benefits. Official receipt forms will be supplied by the Commission to CFOs. This Guideline outlines the responsibility of and procedures to be followed by CFOs with respect to official receipts. Receipts must be issued for all contributions accepted in cash or by cheque, money order or credit card. Contributions of goods and services, other than the provision of voluntary unpaid labour, must also be acknowledged by an official receipt except where their value is \$100 or less and the contributor indicates that the value is not to be considered a contribution. Cash contributions are limited to \$25.

Act references 22(2) and 26

SECURITY

- .03 Official receipt forms are valuable documents. These receipt forms should be stored in a secure place and proper records maintained by the CFO. The Commission strongly recommends that only CFOs on record with the Commission hold a supply of the forms. Only CFOs sign the form since it is their responsibility to ensure that all contributions allowed under the Act are acknowledged by the issuance of official receipts.

DISTRIBUTION

- .04 Following registration notification being received by the Commission, each CFO will:
- (a) receive from the previous CFO the unused supply of receipt forms issued by the Commission to that person, and
  - (b) receive a supply of receipt forms from the Commission where there has not been a previously registered CFO and when the Commission is notified that a new supply is required.

PROCEDURE

- .05 There are two types of receipt forms to be used by political parties and constituency associations or candidates as the case may be. The forms are the same except that the candidate form has the prefix C in front of the serial number of each receipt and the word CANDIDATE in red at the foot of the form.

If the same CFO is appointed for both a candidate and a constituency association at the time of an election, the CFO must ensure the proper receipt form is used to acknowledge each contribution.

- .06 The official receipt is a three-part form. Copy 1 is for the contributor. Copy 2 is for the Commission and Ministry of Revenue. Copy 3 is to be retained by the CFO.

- .07 The CFO should fill in the official receipt form by indicating:

- the date of acceptance of the contribution. Normally this is the date the contribution was deposited. Contributions made by a credit card having the name of the individual contributor imprinted or embossed thereon are to be considered as accepted on the date the credit card voucher is deposited or submitted by the CFO to the credit card issuer for payment.
- the date of issue of the receipt,
- the name and address of the contributor,
- whether the contributor is an individual, corporation or trade union,
- the amount of the contribution. A dollar sign "\$" should appear immediately to the left of the first digit in the amount received box.
- whether the contribution is in the form of (a) cash, cheque, money order, credit card, or (b) goods, services or advertising,
- the name of the party, constituency association, or candidate's campaign.

- .08 The CFO shall manually sign every receipt.

- .09 The CFO preparing to issue a receipt for a contribution received in the form of a cheque:

- (a) should ensure that the cheque is honoured on presentation to the bank as any receipts issued for cheques which might be returned for lack of sufficient funds will have to be recovered for cancellation.
- (b) from an unincorporated organization or partnership as specified in Guideline G37 must first determine the names of the persons in the organization who shared in the contribution and the amount each contributed. The receipts must be issued to each person so named and not to the unincorporated organization or partnership.

- (c) from an individual must ensure the contributor meets the requirement of being a resident in the Province of Ontario. Where the contribution is received from a business concern determined to be a sole proprietorship, the name of the owner must be determined and the receipt issued in the owner's name, not in the name of the business.
  - (d) from a corporation must ensure that it meets the requirement of carrying on business in the Province of Ontario as specified in Guideline G21.
  - (e) from a corporation, individual or trade union must ensure the receipt is made out in the contributor's name as it appears legibly printed on the contributor's cheque regardless of any other direction received with the cheque.
  - (f) from a trade union, including central, regional or district labour councils in the Province of Ontario, must ensure the union has bargaining rights in the Province of Ontario for its members.
- .10 Contributions received in an envelope postmarked prior to the end of the applicable reporting period, or received on the last day of the reporting period, which cannot be deposited because the financial institution where the account is held is closed, must be recorded in the accounting records as an outstanding bank deposit on the last day of the reporting period and receipts issued as of that date. Each outstanding deposit should be deposited on the next available banking day.
- .11 CFOs of parties, constituency associations and candidates when filing financial statement(s) must forward to the Commission:
- (a) the second copy of all receipts for contributions accepted in the reporting period ensuring that the total agrees with the contributions reported in the financial statement(s). If the figures are not in agreement, and the source of the contribution is unknown, section 18 requires the payment of the anonymous contribution to the Commission.
  - (b) the original and second copy of all cancelled receipts relative to the period reported in the financial statement(s).
  - (c) an accounting of all receipts. Therefore, a reconciliation of all unused receipts at the commencement of the particular period, used receipts and those remaining on hand is to be filed with the Commission. The Commission must be informed of any situations where official receipts have been issued for contributions received by cheque, but the cheque has been returned N.S.F. and the contributor has not provided a replacement cheque which has been honoured by the bank.
- .12 The unused supply of candidate official receipt forms must be returned to the Commission not later than the filing date of the candidate's campaign period financial statement.
-

- .13 Where the return of a contribution is necessary and:
- (a) the contributor fails to return the applicable receipt for cancellation, the contribution is to be paid to the Commission.
  - (b) the contributor returns the applicable receipt, the contributor's copy and the Commission's copy should be marked cancelled and both copies should be filed with the Commission with the audited financial statement(s).

**Act reference 18**

- .14 When it is necessary to issue a replacement receipt, write the word "Replacing" and indicate the serial number of the original receipt on the replacement receipt issued. All details on the replacement receipt should be the same as those shown on the original receipt, i.e. date received, etc. In lieu of issuing another receipt, the CFO may provide the contributor with a photostatic copy of the CFO's copy of the original receipt issued, but the photostatic copy must have written on it the words "Certified True Copy" and bear a new signature of the CFO.

**TAX CREDIT ON CONTRIBUTIONS TO POLITICAL PARTIES,  
CONSTITUENCY ASSOCIATIONS AND CANDIDATES**

- .15 The allowable tax credits from Ontario income tax for an individual taxpayer are:
- 75% of the first \$200 of total contributions, and
  - 50% of the next \$600 of total contributions, and
  - 33 1/3% of total contributions exceeding \$800 up to \$1,700.

The maximum credit allowable is \$750.

Contributions to leadership candidates are not eligible for a tax credit.

- .16 An individual's Ontario income tax payable must be reduced by the total of the property tax credit, sales tax credit and pensioner tax credit before the political contribution tax credit may be claimed. If no provincial income tax is payable after claiming property, sales and pensioner credits, then the political contribution tax credit may not be claimed. In other words, there must be provincial income tax payable in order to be able to claim the political contribution tax credit and the credit claimed cannot exceed the amount of the Ontario tax payable.
- .17 Corporations may deduct up to \$7,000 from their Ontario income. Contributions in excess of \$7,000 may be carried forward for deduction in future taxable years.
- .18 A political contribution tax credit may be claimed by either the contributor or the contributor's spouse. That is, official receipts for political contributions are transferable between spouses. However, a single contribution for which one official receipt is issued cannot be divided between spouses. It must be claimed entirely by one spouse or the other.

CHIEF FINANCIAL OFFICERSGUIDELINE G22

ACCEPTANCE OF CONTRIBUTIONS

- .19 If a cheque for a contribution is drawn on a joint personal bank account, the receipt should be issued only to the person who signed the cheque. Where two people have signed a cheque drawn on a joint personal bank account, the CFO should determine who made the contribution and prepare the receipt(s) accordingly.
- .20 The use of post-dated cheques is not prohibited because they are not negotiable before their effective date. Cheques, whether or not they are post-dated, are not considered as accepted contributions until deposited. A contribution by post-dated cheque must still comply with the contribution limits.
- Act references 17(2), 17(3) and 19(1)
- .21 It is the Commission's policy that contributions solicited for a specific purpose not within the general purposes of the Act do not qualify for an official tax credit receipt.
- Act references 1(1) and 17
- .22 Contributions may not be accepted which have conditions or restrictions attached. The only exceptions are funds given to a registered political party or constituency association covering fees for meetings, seminars, workshops or conferences, including leadership contests, provided that such events are sponsored by the political party or constituency association and are held in Ontario. Attendance at such events is considered to be part of the Ontario political process and, therefore, such contributions are accepted for the purposes set forth in the Act. Where the registration fee includes hotel, meal and travel costs, the entire amount of the fee will be considered to be a contribution. However, a contributor may not designate (other than as provided for agency contributions in Guideline G19) that funds equivalent to the contribution ultimately be transferred to the political party, to another constituency association or to a candidate as the case may be.
- .23 Under no circumstances may a party accept intended agency contributions as if they were for the benefit of the party itself. The contributions which are accepted on behalf of a particular constituency association or candidate's campaign as provided for in Guideline G19, must be receipted in the name of the particular constituency association or candidate's campaign as specified in writing by the contributor and remitted to the ultimate designated beneficiary.
- .24 Under no circumstances may a constituency association or candidate's campaign accept contributions on behalf of or intended for another constituency association or for the party.
-

RÉCÉPISSÉS DE CONTRIBUTIONSGÉNÉRALITÉS

- .01 La province de l'Ontario accorde aux particuliers des crédits d'impôt relativement à l'impôt sur le revenu de l'Ontario pour des contributions versées à des partis politiques, associations de circonscription et candidats inscrits. Les personnes morales exerçant des activités en Ontario ont la permission de déduire leurs contributions de leur revenu aux fins de l'impôt de l'Ontario dans le cadre de la Loi de l'impôt sur le revenu de l'Ontario.

Les contributions versées par un particulier à un candidat à la direction d'un parti ne sont pas admissibles à un crédit d'impôt et les contributions versées par une personne morale ne sont pas déductibles de son revenu aux fins de l'impôt sur le revenu de l'Ontario.

- .02 Les particuliers et les personnes morales doivent annexer un récépissé officiel à leur déclaration d'impôt pour avoir droit aux avantages fiscaux. La Commission fournit les formules de récépissé officiel aux DF. La présente Ligne directrice énonce les obligations du DF et les procédures qu'il doit suivre en matière de récépissés officiels. Il faut délivrer des récépissés pour toutes les contributions acceptées en espèces, par chèque, par mandat ou par carte de crédit. Il faut également accuser réception des biens et services autres que la prestation d'un travail bénévole non rémunéré par un récépissé officiel, sauf si leur valeur ne dépasse pas 100 \$ et que le donateur précise que cette valeur ne doit pas être considérée comme une contribution. Les contributions en espèces ne peuvent dépasser 25 \$.

Renvois à la loi 22 (2) et 26

SÉCURITÉ

- .03 Les formules de récépissé officiel sont des documents précieux. Aussi doivent-elles être conservées en lieu sûr et le DF doit-il tenir les registres pertinents. La Commission recommande que seul le DF dont le nom figure aux dossiers de la Commission détienne une provision de formules. Seul le DF signe les récépissés étant donné qu'il lui incombe de faire en sorte que la délivrance d'un récépissé officiel accuse réception des contributions admises aux termes de la loi.

DISTRIBUTION

- .04 Une fois qu'il a reçu de la Commission la notification de son inscription, le DF :
- a) reçoit de son prédécesseur le stock non utilisé de récépissés que la Commission a remis à celui-ci;
  - b) reçoit de la Commission un stock de récépissés s'il n'y a pas eu auparavant de DF inscrit et lorsque la Commission est informée qu'une nouvelle provision de formules est nécessaire.

PROCÉDURE

- .05 Il existe trois genres de formules de récépissés à utiliser par les partis politiques et les associations de circonscription, les candidats et les candidats à la direction d'un parti. Les formules sont les mêmes, sauf que la formule réservée au candidat porte le préfixe C devant le numéro de série du récépissé et la mention CANDIDAT en rouge au bas du récépissé. La formule réservée au candidat à la direction d'un parti porte le préfixe «CD» devant le numéro

DIRECTEURS DES FINANCES

Commission sur le financement des élections

de série du récépissé et la mention « CANDIDAT À LA DIRECTION DU PARTI » en rouge au bas du récépissé. La formule de récépissé réservée au candidat à la direction d'un parti précise que la contribution d'un particulier n'est pas admissible à un crédit d'impôt et que celle d'une personne morale n'est pas déductible du revenu aux fins de l'impôt sur le revenu de l'Ontario.

Si le même DF est nommé à la fois pour un candidat et pour une association de circonscription en temps d'élection, le DF doit veiller à utiliser le bon récépissé pour accuser réception de chaque contribution.

- .06 Le récépissé officiel se compose de trois parties. L'exemplaire n° 1 pour le donateur. L'exemplaire n° 2 pour la Commission et le ministère du Revenu. L'exemplaire n° 3 doit être conservé par le DF.
- .07 Le directeur des finances remplit le récépissé officiel en y indiquant ce qui suit :
- la date de réception de la contribution. C'est normalement la date du dépôt de la contribution. Les contributions versées moyennant une carte de crédit sur laquelle le nom du donateur est imprimé ou gravé en relief sont considérées comme reçues à la date à laquelle le bordereau de carte de crédit est déposé ou remis à l'émetteur de la carte de crédit aux fins de paiement;
  - la date de délivrance du récépissé;
  - le nom et l'adresse du donateur;
  - si le donateur est un particulier, une personne morale ou un syndicat;
  - le montant de la contribution;
  - si la contribution est versée a) en espèces, par chèque, mandat ou carte de crédit, ou b) en biens, services ou publicité;
  - le nom du parti, de son association de circonscription, du candidat ou du candidat à la direction d'un parti.
- .08 Le DF doit signer chaque récépissé de sa propre main.
- .09 Le DF qui s'apprête à délivrer un récépissé pour une contribution reçue sous forme de chèque :
- a) doit s'assurer que le chèque est payé lorsqu'il est présenté à la banque, car tout récépissé délivré pour un chèque qui est retourné pour insuffisance de fonds devra être récupéré pour être annulé.
  - b) d'une organisation sans personnalité morale ou d'une société de personnes, comme précisé dans la Ligne directrice G37, doit d'abord déterminer le nom des personnes concernées dans l'organisation et la part de chacun dans la contribution. Les récépissés doivent être délivrés au nom de chaque personne nommée et non pas au nom de l'organisation sans personnalité morale ou de la société de personnes.
  - c) d'un particulier, doit d'abord s'assurer que le donateur remplit les conditions requises pour être résident de l'Ontario. Si l'on reçoit une contribution d'une entreprise à propriétaire unique, il faut déterminer le nom du propriétaire, car le récépissé doit être délivré à son nom et non à celui de l'entreprise.
-

DIRECTEURS DES FINANCESLIGNE DIRECTRICE G22

- d) d'une personne morale, doit s'assurer qu'elle satisfait à l'exigence d'«exercer des activités en Ontario» précisée dans la Ligne directrice G21.
  - e) d'une personne morale, particulier ou syndicat, doit s'assurer que le récépissé est libellé au nom du donateur tel qu'il figure lisiblement imprimé sur le chèque du donateur, quelles que soient les instructions reçues avec le chèque.
  - f) d'un syndicat, y compris des conseils du travail centraux, régionaux ou de district de l'Ontario, doit s'assurer que le syndicat détient des droits de négociation en Ontario pour ses membres.
- .10 Les contributions reçues dans une enveloppe dont le tampon de la poste indique une date antérieure à la fin de la période de déclaration applicable, ou reçues le dernier jour de la période de déclaration, et qui ne peuvent être déposées parce que l'institution financière qui détient le compte est fermée, doivent être consignées dans les livres comptables comme un dépôt bancaire en souffrance au dernier jour de la période de déclaration, et les récépissés doivent être délivrés à cette date. Chaque dépôt en souffrance doit être déposé le premier jour ouvrable suivant de la banque.
- .11 Les DF de partis, d'associations de circonscription, de candidats ou de candidats à la direction d'un parti qui déposent des états financiers doivent remettre à la Commission :
- a) Le deuxième exemplaire de tous les récépissés délivrés pour des contributions acceptées pendant la période qui fait l'objet de la déclaration, veillant à ce que le total concorde avec les contributions indiquées dans les états financiers. Si les chiffres sont incompatibles et que la source de la contribution est inconnue, l'article 18 exige le paiement de la contribution anonyme à la Commission.
  - b) L'original et le deuxième exemplaire de tous les récépissés annulés relativement à la période qui fait l'objet des états financiers.
  - c) Le compte rendu comptable de tous les récépissés. Il faut donc déposer à la Commission un rapprochement de tous les récépissés inutilisés au commencement de la période visée, des récépissés utilisés et de ceux qui restent en main. La Commission doit être informée de toute situation où des récépissés officiels ont été délivrés pour des contributions reçues par un chèque sans provision et que le donateur n'a pas remplacé par un chèque payé par la banque.
- .12 Le stock inutilisé de **formules de récépissé officiel réservées au candidat et de formules de récépissé réservées au candidat à la direction d'un parti** doit être retourné à la Commission au plus tard respectivement à la date de dépôt pour la période de campagne électorale du candidat et de l'état financier pour la période de campagne électorale du candidat à la direction d'un parti.
- .13 Si une contribution doit être retournée et
- a) que le donateur omet de retourner le récépissé pour qu'il soit annulé, la contribution doit être versée à la Commission;
  - b) que le donateur retourne le récépissé, l'exemplaire du donateur et celui de la Commission doivent porter la mention «annulé» et les deux exemplaires doivent être déposés auprès de la Commission avec les états financiers vérifiés.

Renvoi à la loi 18

- .14 S'il est nécessaire de délivrer un récépissé de remplacement, écrire la mention «REMPLACEMENT» et indiquer le numéro de série du récépissé original sur le récépissé de remplacement ainsi délivré. Toutes les données du récépissé de remplacement doivent être les mêmes que celles du récépissé original, par ex. la date de réception, etc. Au lieu de délivrer un autre récépissé, le DF peut remettre au donateur une photocopie de l'exemplaire du récépissé qu'il détient, mais la photocopie doit porter la mention «Copie certifiée conforme» et une nouvelle signature du DF.

**CRÉDIT D'IMPÔT POUR DES CONTRIBUTIONS AUX PARTIS POLITIQUES,  
ASSOCIATIONS DE CIRCONSCRIPTION ET CANDIDATS**

- .15 Les crédits d'impôt admissibles au titre de l'impôt sur le revenu de l'Ontario pour un contribuable qui est un particulier sont les suivants :

75 pour 100 de la première tranche de 200 \$ du total des contributions;  
50 pour 100 de la tranche suivante de 600 \$ du total des contributions;  
33 1/3 pour 100 du total des contributions dépassant 800 \$ jusqu'à 1 700 \$.

Le crédit maximal admissible est de 750 \$.

Les contributions aux candidats à la direction d'un parti ne sont pas admissibles à un crédit d'impôt.

- .16 Avant de faire valoir un crédit d'impôt pour contribution politique, le particulier doit réduire l'impôt sur le revenu de l'Ontario qu'il doit payer du total de son crédit d'impôt foncier, du crédit de taxe de vente et du crédit d'impôt de pensionné. S'il n'a pas d'impôt provincial sur le revenu à payer après déduction des trois crédits mentionnés, il ne peut pas faire valoir le crédit d'impôt pour contribution politique. Autrement dit, il doit y avoir un impôt provincial sur le revenu à payer pour que l'on puisse faire valoir le crédit d'impôt pour contribution politique. Ce crédit ne peut dépasser le montant d'impôt de l'Ontario à payer.
- .17 Les personnes morales peuvent déduire jusqu'à concurrence de 7 000 \$ de leur revenu de l'Ontario. La tranche de contribution au-delà de 7 000 \$ peut être reportée aux fins de déduction dans les années d'imposition ultérieures.
- .18 Le donateur ou son conjoint peut se prévaloir d'un crédit d'impôt pour contribution politique. C'est-à-dire que les récépissés officiels pour contribution politique peuvent être transférés entre conjoints. Toutefois, une même contribution pour laquelle un seul récépissé officiel a été délivré ne peut être divisée entre conjoints. L'un ou l'autre conjoint doit faire valoir la totalité du montant de la contribution.

**ACCEPTATION DE CONTRIBUTIONS**

- .19 Si un chèque remis à titre de contribution est tiré sur un compte de banque conjoint, le récépissé doit être délivré seulement au nom de la personne qui a signé le chèque. Si deux personnes ont signé un chèque tiré sur un compte de banque conjoint, le DF doit déterminer qui a fait la contribution et rédiger le(s) récépissé(s) en conséquence.
- .20 Il n'est pas interdit d'utiliser des chèques postdatés étant donné qu'ils ne sont pas négociables avant leur date d'effet. Les chèques, postdatés ou non, ne sont considérés comme des contributions acceptées que lorsqu'ils sont déposés. Une contribution par chèque postdaté est toujours assujettie aux plafonds imposés aux contributions.

- .21 La Commission a pour politique que des contributions sollicitées à une fin particulière et non aux fins générales de la loi ne donnent pas droit à un récépissé officiel aux fins de l'impôt.

## Renvois à la loi 1 (1) et 17

- .22 On ne peut accepter de contributions qui soient assujetties à des conditions ou à des restrictions. Les seules exceptions sont les fonds donnés à un parti politique inscrit ou à une association de circonscription inscrite pour couvrir les frais relatifs à des assemblées, séminaires, ateliers ou conférences, notamment les campagnes à la désignation du chef, à condition que ces événements soient parrainés par le parti politique ou l'association de circonscription et aient lieu en Ontario. L'assistance à ces événements est considérée comme faisant partie du processus politique de l'Ontario et les contributions sont donc acceptées aux fins visées dans la loi. Si les frais d'inscription comprennent les frais d'hôtel, de repas et de déplacement, le montant total des frais d'inscription est considéré comme une contribution. Un donateur ne peut toutefois pas spécifier (à l'exception de ce qui est dit des contributions pour mandat à la Ligne directrice G19) que des fonds équivalents à la contribution soient en fin de compte transférés au parti politique, à une autre association de circonscription ou à un candidat, selon le cas.
- .23 En aucun cas, un parti ne peut accepter des contributions désignées comme contributions pour mandat comme si elles étaient versées au profit du parti lui-même. Les contributions qui sont acceptées pour le compte d'une association de circonscription particulière ou de la campagne électorale d'un candidat, comme prévu dans la Ligne directrice G19, doivent être reçues au nom de l'association de circonscription particulière ou de la campagne électorale du candidat comme cela est précisé par écrit par le donateur et remis en fin de compte au bénéficiaire désigné.
- .24 En aucun cas, une association de circonscription ou la campagne électorale d'un candidat ne peuvent accepter de contributions versées pour le compte ou à l'intention d'une autre association de circonscription et du parti.

LIMIT ON CAMPAIGN EXPENSES

- .01** The Act defines campaign expenses as meaning any expense incurred in relation to an election by or on behalf of a political party, constituency association or candidate registered under the Act during the period commencing with the issue of a writ for an election and terminating on polling day, other than:
- (a) expenses incurred by a candidate in seeking nomination in accordance with the Election Act, 1984,
  - (b) a candidate's deposit as required under the Election Act, 1984,
  - (c) auditor's and accounting fees,
  - (d) interest on loans authorized under section 36,
  - (e) expenses incurred in holding a fund-raising activity referred to in section 24. Refer to Guideline G31.08 regarding restrictions on advertising content,
  - (f) expenses incurred for victory parties held after the close of polls and thank you advertising published after polling day,
  - (g) expenses incurred in relation to the administration of the political party or constituency association such as:
    - (i) employment costs associated with permanent full or part-time staff employed by the party or constituency association,
    - (ii) on going office expenses which would have been incurred even if there had not been an election campaign,
    - (iii) occupancy costs provided, however, that any extra rental for campaign headquarters, equipment or furniture is recorded as a campaign expense for the period from writ to polling day, and
    - (iv) certain pre-writ media production costs as referred to in Guideline G25.03,
  - (h) transfers authorized under section 28,
  - (i) fees paid in respect to maintaining a credit card facility,
  - (j) expenses relating to a recount in respect of the election,
  - (k) child care expenses of a candidate,
  - (l) payments made to the candidate in lieu of salary lost during an unpaid leave of absence from the candidate's employer, and
  - (m) the rent associated with maintaining a temporary residence in the electoral district when the candidate does not maintain a residence therein,

but campaign expenses are deemed to include the value of any goods held in inventory or any fees or expenses for services for any candidate or political party, and any contribution of goods and services to the political party, constituency association or candidate registered under the Act, for use in whole or in part during the period commencing with the issue of the writ for an election and terminating on polling day.

**Act reference 1(1)**

- .01a In addition to the exempt campaign expenses listed in paragraph .01 above, the Commission has ruled that expenses which are directly related to a candidate's physical disability (as defined in the Ontario Human Rights Code) also do not constitute campaign expenses. The Human Rights Code defines physical disability as follows:

"any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness, and without limiting the generality of the foregoing including diabetes mellitus, epilepsy, any degree of paralysis, amputation, lack of physical coordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a dog guide or on a wheel chair or other remedial appliance or device".

Thus reasonable expenses over and above those expenses that would have been incurred by those candidates not having any physical disability will be exempt as a campaign expense. For example, a candidate confined to a wheel chair may need special transportation services. A non-physically disadvantaged candidate would have the cost of a car. However, the physically disadvantaged candidate confined to a wheel chair may need a specially equipped mode of transportation. The additional cost of the specially equipped mode of transportation will be exempt as a campaign expense. Other special services such as, a TDD/TTY telephone, the services of a "sign" interpreter or a wheel chair for a candidate with a physical disability will also be exempted as a campaign expense.

**Act reference 1(1)**

All exempt campaign expenses shall be recorded and reported.

- .02 Advertisements paid for by any person, corporation or trade-union which promote or oppose a political party or candidate and costing either individually or in aggregate in excess of \$100 are considered a contribution to the party or candidate with whose knowledge and consent the political advertising was done and, if done during the relevant period, a campaign expense.

**Act reference 23(1)**

- .03 Every payment of a campaign expense shall be made by the CFO of the registered party, constituency association or candidate that incurred the campaign expense. Except where the campaign expense is less than \$25, such campaign expense shall be vouched for by a statement setting forth the particulars and proof of payment.

- .04 Any monies used for a political campaign by a registered candidate out of the candidate's own funds shall be considered to be a contribution for the purposes of this Act. Every registered candidate shall submit to the candidate's CFO a statement in writing setting forth all campaign expenses paid or to be paid out of the candidate's own funds, together with all receipts and claims therefor within three months after polling day.

Act reference 19(3)

- .05 Where goods or services have been provided, whether or not considered to be a contribution for the purposes of the Act, an expense in the equivalent value is considered to have been incurred except advertising valued at \$100 or less arranged by a person, corporation or trade union with the knowledge and consent of the political party, constituency association or candidate.

Act references 22(2) and 23(1)

- .06 With the exception of goods held in inventory for any candidate for use during a campaign period, funds, goods or services transferred between a political party, a constituency association and the campaign account of a registered candidate are not considered either a contribution or campaign expense.

Act reference 28

- .07 No constituency association shall incur campaign expenses greater in total than the amount previously approved in writing by the CFO of the candidate endorsed by that constituency association.

Act reference 39(5)

- .08 Where total campaign expenses exceed the limitation provided in the Act, the campaign expense subsidy to which a political party may be entitled will be reduced by \$1 for every \$1 the campaign expenses exceed the maximum allowed.

Act reference 46(6)

A similar penalty is provided in relation to the expense subsidy to which a candidate may be entitled.

Act references 46(1) and 46(2)

An elected member of the Assembly may incur an even greater penalty. Should the campaign expenses of the member exceed the maximum amount allowed and the Assembly find no mitigating reason for non-compliance, the member shall forthwith vacate the seat.

- .09** (a) The campaign expenditure of a political party shall not exceed the aggregate amount determined by multiplying 40 cents by:
- (i) in relation to a general election, the number of electors entitled to vote, as certified by the Chief Election Officer, in the electoral districts in which there is an official candidate of that party, and
  - (ii) in relation to a by-election in an electoral district the number of electors entitled to vote, as certified by the Chief Election Officer, in that electoral district.
- (b) The joint campaign expenditure limit of a candidate together with that of the candidate's constituency association shall not exceed the amount that is the aggregate of:
- (i) \$2 for each of the first 15,000 of the number of electors entitled to vote, as certified by the Chief Election Officer, in the candidate's electoral district and \$1 for each of the number of such electors in excess of 15,000 but not more than 25,000, and 25 cents for each of the number of electors in excess of 25,000, and
  - (ii) in the case of candidates in the electoral districts of Cochrane North, Rainy River, Kenora, Lake Nipigon, Algoma and Nickel Belt the amount determined above shall be increased by \$5,000.

Act references 39(1), 39(2) and 39(3)

- .10** Following polling day and immediately upon receiving the certified list of electors from the Chief Election Officer, the Commission will notify the CFO of a political party and candidate of the number of electors upon which the expenditure limitation is to be determined.

For budgetary purposes, however, each CFO should obtain the list of electors from the local Returning Officer immediately after the enumeration.

- .11** Within three months after polling day invoices for goods or services must be submitted by their suppliers to the CFO of the political party, constituency association, or candidate that incurred the campaign expense. Such invoices or accounts must be retained until authorization to destroy them is obtained in writing from the Commission.
- .12** Where a CFO disputes or refuses to pay an account, such account shall be considered to be a disputed claim and the claimant may bring an action for payment. The details of disputed claims and the reason the claim is disputed are to be reported in the audited financial statements to be filed with the Commission.

Act reference 39(8)

RESTRICTIONS IMPOSÉES AUX DÉPENSES LIÉES À LA CAMPAGNE ÉLECTORALE

- .01 La loi définit comme suit les dépenses liées à la campagne électorale, les dépenses qu'engage un parti politique, une association de circonscription ou un candidat inscrits aux termes de la loi, ou qui sont engagées pour son compte pendant la période comprise entre l'émission du décret de convocation des électeurs et le jour du scrutin, à l'exception de ce qui suit :
- a) les dépenses engagées par le candidat lorsqu'il sollicitait une candidature conformément à la Loi électorale de 1984;
  - b) le dépôt remis par le candidat tel que l'exige la Loi électorale de 1984;
  - c) les honoraires de vérification et de comptabilité;
  - d) les intérêts sur les prêts autorisés aux termes de l'article 36;
  - e) les dépenses engagées relativement à la tenue d'une activité de financement visée à l'article 24. Voir la Ligne directrice G31.08 touchant les restrictions relatives au contenu de la publicité;
  - f) les dépenses engagées relativement à la célébration de la victoire après la fermeture des bureaux de vote et à la publication de remerciements après le jour du scrutin;
  - g) les dépenses engagées relativement à l'administration du parti politique ou de l'association de circonscription, notamment :
    - (i) les coûts de personnel en rapport avec la rémunération du personnel permanent à temps plein ou à temps partiel au service du parti ou de l'association de circonscription,
    - (ii) les dépenses de bureau courantes qui auraient été engagées même s'il n'y avait pas eu de campagne électorale,
    - (iii) les coûts d'occupation, pourvu toutefois que toute location supplémentaire pour les bureaux, l'ameublement ou le matériel en vue de la campagne électorale soit consignée comme une dépense liée à la campagne électorale pendant la période comprise entre l'émission du décret de convocation des électeurs et le jour du scrutin.
    - (iv) certains coûts de production de moyens de diffusion avant l'émission du décret de convocation, dont il est question dans la Ligne directrice G25.03;
  - h) les transferts autorisés aux termes de l'article 28;
  - i) les frais occasionnés par l'entretien d'un service de cartes de crédit;
  - j) les dépenses liées au dépouillement judiciaire relatif à l'élection;
  - k) les dépenses liées à la garde d'enfants d'un candidat;
  - l) les paiements versés au candidat en remplacement du salaire perdu pendant un congé sans solde autorisé par son employeur;
  - m) le loyer lié au séjour dans une résidence temporaire dans la circonscription électorale lorsque le candidat n'y a pas de résidence permanente.
-

Les dépenses liées à la campagne électorale sont réputées comprendre toutefois la valeur des articles gardés en stock ou des honoraires ou des dépenses liés à des services fournis à un candidat ou à un parti politique, ainsi que la valeur de tout article et tout service fournis au parti politique, à l'association de circonscription ou au candidat inscrits aux termes de la loi qui doivent être utilisés en totalité ou en partie pendant la période comprise entre l'émission du décret de convocation des électeurs et le jour du scrutin.

- .01a** En sus des dépenses liées à la campagne électorale faisant l'objet d'une exception, énoncées au paragraphe .01 ci-dessus, la Commission a décidé que les dépenses qui sont directement reliées à l'incapacité physique d'un candidat selon la définition du Code ontarien des droits de la personne ne constituent pas des dépenses liées à la campagne électorale. Le Code ontarien des droits de la personne définit l'incapacité physique comme suit :

«Tout degré d'incapacité physique, d'infirmité, de malformation ou de défigurement dû à une lésion corporelle, une anomalie congénitale ou une maladie, et notamment, le diabète sucré, l'épilepsie, tout degré de paralysie, une amputation, l'incoordination motrice, la cécité ou une déficience visuelle, la surdité ou une déficience auditive, la mutité ou un trouble de la parole, ou la nécessité de recourir à un chien d'aveugle, à un fauteuil roulant ou à un autre appareil ou dispositif correctif.»

Donc, les dépenses raisonnables dépassant les dépenses qui ont été engagées par les candidats sans incapacité physique feront l'objet d'une exception aux dépenses liées à la campagne électorale. Par exemple, tout candidat qui doit recourir à un fauteuil roulant peut avoir besoin de services de transport spéciaux. Certes un candidat qui n'a pas de handicap physique subirait les dépenses d'une automobile. Cependant, le candidat ayant un handicap physique qui doit recourir à un fauteuil roulant peut avoir besoin d'un mode de transport doté d'un équipement spécial. Le coût supplémentaire du mode de transport doté d'un équipement spécial fera l'objet d'une exception. D'autres services spéciaux, comme le téléphone ATS et le téléimprimeur, les services d'un interprète gestuel ou un fauteuil roulant pour les candidats ayant un handicap physique feront également l'objet d'une exception aux dépenses liées à la campagne électorale.

#### Renvoi à la loi 1 (1)

Prière de comptabiliser et de déclarer toutes les dépenses liées à la campagne électorale faisant l'objet d'une exception.

- .02** Les publicités payées par un particulier, une personne morale ou un syndicat qui favorisent un parti politique ou un candidat ou manifestent de l'opposition à un parti politique ou à un candidat et qui coûtent chacune ou globalement plus de 100 \$ sont considérées comme une contribution au parti ou au candidat à la connaissance et avec le consentement de qui la publicité politique est faite et, si elle est faite durant la période pertinente, comme une dépense liée à la campagne électorale.

#### Renvoi à la loi 23 (1)

- .03** Le DF du parti inscrit, de l'association de circonscription inscrite ou du candidat inscrit qui a engagé des dépenses liées à la campagne électorale effectue le paiement qui s'y rapporte. Sauf si le montant d'une dépense est inférieur à 25 \$, la dépense doit être appuyée d'un relevé détaillé qui inclut la preuve de paiement.

#### Renvoi à la loi 39 (7)

- .04 Pour l'application de la loi, sont considérées comme une contribution les sommes prélevées sur le fonds particulier d'un candidat inscrit que celui-ci affecte à sa campagne électorale. Chaque candidat inscrit présente à son DF, dans les trois mois du jour du scrutin, un relevé de toutes les dépenses liées à la campagne électorale qui ont été payées, ou qui le seront, grâce à ces sommes, ainsi que les récépissés et les demandes qui s'y rapportent.

**Renvoi à la loi 19 (3)**

- .05 En cas de fourniture de biens ou de services, si l'on considère qu'ils constituent une contribution pour l'application de la loi, on considère qu'une dépense équivalente a été engagée, sauf s'il s'agit d'une publicité évaluée à 100 \$ ou moins, commandée par une personne, une personne morale ou un syndicat à la connaissance et avec le consentement du parti politique, de l'association de circonscription ou du candidat.

**Renvois à la loi 22 (2) et 23 (1)**

- .06 À l'exception des biens gardés en stock à l'usage d'un candidat au cours d'une période de campagne électorale, les fonds, les biens et les services transférés entre un parti politique, une association de circonscription et le compte de la campagne électorale d'un candidat inscrit ne constituent ni une contribution ni une dépense liée à la campagne électorale.

**Renvoi à la loi 28**

- .07 L'association de circonscription ne doit pas engager des dépenses liées à une campagne électorale dont le montant total est supérieur à la somme préalablement approuvée par écrit par le DF du candidat que parraine cette association.

**Renvoi à la loi 39 (5)**

- .08 Si la somme totale des dépenses liées à une campagne électorale dépasse le plafond fixé par la loi, la subvention relative aux dépenses liées à une campagne électorale à laquelle le parti politique peut avoir droit sera réduite de un dollar par dollar dépassant le plafond des dépenses liées à une campagne électorale.

**Renvoi à la loi 46 (6)**

Une peine semblable est prévue en ce qui concerne la subvention relative aux dépenses à laquelle un candidat peut avoir droit.

**Renvois à la loi 46 (1) et 46 (2)**

Un député élu à l'Assemblée est passible d'une peine encore plus sévère. Si le montant des dépenses liées à la campagne électorale qu'a engagées le député est supérieur au maximum permis et que l'Assemblée ne trouve aucune circonstance atténuante, le député quitte sans délai son siège à l'Assemblée.

**Renvois à la loi 39 (4) et 44 (2)**

- .09 a) Les dépenses liées à la campagne électorale d'un parti politique ne sont pas supérieures au produit obtenu en multipliant 0,40 \$ par :
- (i) en ce qui concerne une élection générale, le nombre d'électeurs ayant le droit de voter, selon l'attestation du directeur général des élections, dans les circonscriptions électorales où ce parti présente un candidat officiel, et

- (ii) en ce qui concerne une élection partielle dans une circonscription électorale, le nombre d'électeurs ayant le droit de voter, selon l'attestation du directeur général des élections, dans cette circonscription.
- b) Le plafond des dépenses liées à la campagne électorale engagées par un candidat et réunies à celles qu'engage son association de circonscription n'est pas supérieur au montant qui comprend l'ensemble des éléments suivants :
  - (i) 2 \$ à l'égard de chacun des 15 000 premiers électeurs ayant le droit de voter, selon l'attestation du directeur général des élections, dans la circonscription électorale du candidat; 1 \$ à l'égard de chacun des électeurs au-delà des 15 000 premiers, jusqu'à concurrence de 25 000, et 0,25 \$ pour chacun des électeurs au-delà des 25 000 premiers, et
  - (ii) la somme fixée ci-dessus est majorée de 5 000 \$ dans le cas des candidats des circonscriptions électorales de Cochrane Nord, Rainy River, Kenora, Lake Nipigon, Algoma et Nickel Belt.

**Renvois 39 (1), 39 (2) et 39 (3)**

- .10 Après le jour du scrutin et dès réception de la liste certifiée des électeurs communiquée par le directeur général des élections, la Commission informe le DF d'un parti politique et le candidat du nombre d'électeurs à propos duquel les restrictions aux dépenses doivent être déterminées.

Aux fins des prévisions budgétaires, toutefois, chaque DF doit se procurer une liste des électeurs auprès du directeur local du scrutin immédiatement après le recensement.

- .11 Dans les trois mois qui suivent le jour du scrutin, les fournisseurs doivent présenter leurs factures de biens et services au DF du parti politique, de l'association de circonscription ou du candidat qui a engagé la dépense liée à la campagne électorale. Il faut garder ces factures ou ces comptes jusqu'à ce qu'on obtienne par écrit de la Commission l'autorisation de les détruire.
- .12 Constitue une demande contestée le compte qu'un directeur des finances conteste ou refuse de payer. L'auteur de la demande peut intenter une action en recouvrement de ce paiement. Les particularités des demandes contestées et les motifs qui expliquent le litige doivent être déclarés dans les états financiers vérifiés relativement à la campagne électorale à déposer auprès de la Commission.

**CAMPAIGN MATERIALS INVENTORY  
AND PREPAID CAMPAIGN EXPENSES**

- .01 The Act defines campaign expenses to include the value of any goods held in inventory for any candidate or political party for use during a campaign period.

Act reference 1(1)

- .02 The Act also provides that transfers of goods held in inventory for any candidate for use during a campaign period will be considered to be a campaign expense.

Act reference 28

- .03 What constitutes inventory of campaign materials and prepaid campaign expenses may cause some concern. The Commission considers that inventory will normally consist of such things as lawn stakes, sign supports, usable literature, signs and other campaign materials.

Prepaid campaign expenses will consist of such things as the cost of consulting services, production costs of advertising for use during the campaign and deposits for campaign offices and equipment. These will not include pre-writ media production expenses incurred in connection with the ongoing activities of the political party or constituency association, but will include:

- (a) product which is created thereby and used in the election, and
- (b) expenses incurred with the predominant purpose of creating product for use in the election.

Information is available from the statement of expenses, i.e. an analysis of the nature of the expense, to determine what is properly inventory and prepaid expense. At the end of the reporting period this amount should not be left in the expense total but should be deducted and shown as an asset adjustment. In a campaign period it is important to display the value of such inventory and prepaid campaign expense as part of the total campaign expenditure. The overall campaign expenses are affected by the inventory adjustment.

- .04 Prior to the issue of a writ for an election, all expenses relating to a potential campaign should be accumulated and transferred to an inventory account. Once there has been a writ for an election, the value of all expenses and materials in the inventory account should be transferred to the campaign period accounts, to a candidate's accounts or, in the case of the party, to its campaign period accounts or as transfers to constituency associations' or candidates' campaign accounts.

Market price will normally be used as the basis for determining the value of inventory transferred into the campaign accounts. Market price can be determined in several ways, the more prevalent methods being:

- (a) recent invoices or quoted price
-

- (b) the lower of replacement or reproduction cost, or
- (c) the price of recent comparable sales.

In the case of acquisitions made within one year of the writ, the invoice price should be used. In valuing campaign materials available for the candidate's use which were left from a previous campaign, replacement or quoted price should be used. All reusable materials from a previous campaign should be included. This price will vary across the province and is dependent upon local supply, competition and the constituency association's ability to produce its own signs or secure salvage material, for example, to construct signs. In all instances, proper documentation should be prepared to substantiate any opening inventory value.

- .05 If at the end of a reporting period a writ for an election has not been issued, the value of inventory of campaign materials and prepaid campaign expenses should be shown as an asset on the statement of assets and liabilities.
- .06 The inventory of reusable campaign materials remaining on hand at the end of a campaign should be transferred from the campaign period accounts back to the regular accounts of the constituency association or party, as the case may be. The value of such materials shall not be deducted from the total of opening inventory value plus additional purchases to provide a cost of materials consumed. This cost will be reported as a campaign expense. It is important that the CFOs of all the organizations involved make corresponding entries in their respective accounts.

The candidate's CFO should determine carefully not only the quantity of reusable campaign materials but the value to attach to each item. A detailed list should be made of all reusable campaign materials on hand at the end of the campaign and the valuation thereof. Guideline G25.04 provides guidance on valuation. Reusable materials on hand at the end of the campaign should be valued as follows:

- (a) if on hand at the start of the campaign, value at the same value used at the start of the campaign, and
- (b) if acquired during the campaign, value at invoice price.

**All reusable campaign materials remaining on hand at the end of a campaign period must be valued and reported but cannot be deducted from campaign expenses subject to limitation. Exclusion of items from ending inventory does not preclude their inclusion at the start of any subsequent campaign.**

- .07 Transfers of inventory between the candidate's campaign account and the constituency association can be handled most easily by allowing the constituency association to handle all inventory related expense items. As campaign expenses are incurred by the association prior to the writ of election, they should be accumulated in an inventory account. As of the date of the writ of election, the accumulated amount in the inventory account should be transferred to the campaign expenses account at fair market value. At the end of the campaign, any value of reusable campaign materials should be transferred back to the constituency association at the same value. To avoid the possibility of over-expenditure of campaign expenses the candidate's CFO, if not the same as the constituency association's CFO, should

GUIDELINES FOR  
CHIEF FINANCIAL OFFICERSGUIDELINE G25  
FEBRUARY 1992

---

Commission on Election Finances

---

Page 3 of 3

be consulted and should approve all expenditures and transfers related to inventory.

- .08 In the case of a candidate transfers of inventory between the constituency association and the candidate's campaign account can also be handled by transferring both campaign expenses prepaid prior to the writ of election and the value of inventory using the account "transfers received from constituency association". In the case of a constituency association campaign expenses and current purchases of campaign materials can be handled by using the account "transfers paid out to the candidate's campaign". This method will involve some extra bookkeeping. In order to keep track of the total campaign expenses, the related transfer entries in the accounts and in the preparation of the required forms to be filed with the Commission, close communication between the candidate's and constituency association's CFOs will be essential.
  - .09 Transfers of inventory from the party and back again involving the constituency association's or the candidate's campaign account should be monitored closely by all the CFOs involved. Failure to do so could result in over-expenditure of campaign expenses or in a failure to report all transfers on the required reporting forms. The accounting method followed can be either of those outlined in Guidelines G25.07 and G25.08.
  - .10 Every audited annual financial statement of each registered party and constituency association must be accompanied by a detailed list of reusable campaign materials inventory, prepaid campaign expenses and current purchases of campaign materials in support of the total value of such items shown in the statement of assets and liabilities. The prescribed schedule form for the listing is included with each financial statement form required to be filed.
  - .11 Every campaign period financial statement of each registered party, constituency association and candidate must be accompanied by a detailed list of opening reusable campaign materials, prepaid campaign expenses and current purchases of campaign materials in support of the total of the value of such items transferred into the party, constituency association or candidate's campaign accounts. In addition, a separate list of reusable campaign materials inventory at the close of the campaign is to be provided. The prescribed schedule form for the listing is included with each financial statement form required to be filed.

STOCK DE MATÉRIEL DE CAMPAGNE ÉLECTORALE ET DÉPENSES  
LIÉES À LA CAMPAGNE ÉLECTORALE PAYÉES D'AVANCE

- .01 Dans sa définition des dépenses liées à la campagne électorale, la loi englobe la valeur des articles gardés en stock et destinés à l'usage d'un candidat ou d'un parti politique au cours d'une période de campagne électorale.

Renvoi à la loi 1 (1)

- .02 La loi stipule également que le transfert de biens gardés en stock et destinés à l'usage d'un candidat au cours d'une période de campagne électorale constitue une dépense liée à la campagne électorale.

Renvoi à la loi 28

- .03 On peut se demander avec une certaine inquiétude ce qui constitue un stock de matériel de campagne électorale et des dépenses liées à la campagne électorale payées d'avance. La Commission considère que le stock consiste normalement en des choses comme des piquets de pelouse, des panneaux d'affichage, de la documentation utilisable, des enseignes et d'autres articles de campagne électorale.

Les dépenses liées à la campagne électorale payées d'avance sont, entre autres, le coût de services de consultation, les coûts de production de la publicité à utiliser au cours de la campagne électorale et les dépôts versés relativement à des bureaux et du matériel en vue de la campagne électorale. Elles ne comprennent pas les frais de production de moyens de diffusion engagés avant l'émission du décret de convocation des électeurs, dans le cadre des activités courantes du parti politique ou de l'association de circonscription, mais elles comprennent :

- a) le produit qui en sort **et** est utilisé dans la campagne électorale;
- b) les dépenses engagées dans le but prédominant de créer un produit à utiliser dans la campagne électorale.

L'état des dépenses, qui est une analyse de la nature des dépenses, renferme des renseignements permettant de déterminer ce qui est à proprement parler un stock et une dépense payée d'avance. À la fin de la période de déclaration, ce montant ne doit pas rester dans le total des dépenses mais doit être déduit et indiqué comme redressement de l'actif. Dans une période de campagne électorale, il est important d'affecter la valeur de ce stock et des dépenses liées à la campagne électorale payées d'avance comme partie du total des dépenses liées à la campagne électorale. Le redressement du stock influe sur les dépenses globales liées à la campagne électorale.

- .04 Avant l'émission du décret de convocation des électeurs, toutes les dépenses en rapport avec la campagne électorale éventuelle doivent être accumulées et transférées à un compte de stock. Dès l'émission du décret de convocation des électeurs, la valeur de toutes les dépenses et du matériel consignés dans le compte de stock doit être transférée dans les comptes de la période de campagne électorale, dans les comptes du candidat ou, s'il s'agit du parti, dans ses comptes de la période de campagne électorale ou à titre de transferts dans les comptes de la campagne électorale des associations de circonscription ou des candidats.

On recourra ordinairement au prix du marché comme base du calcul de la valeur du stock transféré dans les comptes de la campagne électorale. On peut déterminer le prix du marché de plusieurs façons, les principales étant :

- a) des factures récentes ou le prix fixé;

- b) le moins élevé du coût de remplacement et du coût de reproduction;
- c) le prix de ventes récentes comparables.

Dans le cas d'acquisitions réalisées dans l'année du décret de convocation, utiliser le prix de la facture. Dans l'évaluation d'un matériel de campagne électorale destiné à l'usage du candidat, qui provient d'une campagne électorale antérieure, utiliser le prix de remplacement ou le prix du devis. Déclarer tout le matériel provenant d'une campagne électorale antérieure. Ce prix varie selon les endroits de la province et dépend de l'approvisionnement local, de la concurrence et de l'aptitude de l'association de circonscription à produire ses propres enseignes ou à se procurer du matériel de récupération pour construire des enseignes. Dans tous les cas, il y a lieu de réunir la documentation pertinente à l'appui de la valeur d'ouverture du stock.

- .05 Si, à la fin d'une période de déclaration, un décret de convocation des électeurs n'a pas été émis, la valeur du stock de matériel de campagne électorale et des dépenses liées à la campagne électorale payées d'avance doit être indiquée comme élément d'actif dans l'état de l'actif et du passif.
- .06 Le stock de matériel de campagne électorale réutilisable en main à la fin de la campagne électorale, doit être transféré des comptes de la période de campagne électorale aux comptes ordinaires de l'association de circonscription ou du parti selon le cas. La valeur de ce matériel ne doit pas être déduite de la valeur totale du stock à l'ouverture, et des achats ultérieurs pour fournir le coût du matériel consommé. Ce coût sera déclaré comme une dépense liée à la campagne électorale. Il est important que les DF de toutes les organisations concernées procèdent aux inscriptions correspondantes dans leurs comptes respectifs.

Le directeur des finances du candidat doit déterminer avec soin non seulement la quantité du matériel de campagne électorale réutilisable, mais aussi la valeur à assigner à chaque article. Il y a lieu de dresser une liste détaillée de tout le matériel de campagne électorale réutilisable en main à la fin de la campagne électorale avec son évaluation. La Ligne directrice G25.04 donne une orientation sur cette évaluation. Évaluer comme suit le matériel réutilisable en main à la fin de la campagne électorale :

- a) si l'article était en main au début de la campagne électorale, l'évaluer à la même valeur utilisée au début de la campagne;
- b) si l'article a été acquis durant la campagne électorale, l'évaluer au prix de la facture.

Tout le matériel de campagne électorale réutilisable en main à la fin de la campagne électorale doit être évalué et déclaré, mais il ne peut être déduit des dépenses liées à la campagne électorale assujetties à un plafond. L'exclusion de certains articles du stock à la fin de la période n'empêche pas qu'ils soient inclus au début d'une campagne électorale ultérieure.

- .07 Il est possible de faciliter considérablement les transferts de stock entre le compte de la campagne électorale du candidat et l'association de circonscription en permettant à l'association de circonscription de s'occuper de tous les postes de dépenses reliés au stock. À mesure que l'association engage des dépenses liées à la campagne électorale avant l'émission du décret de convocation des électeurs, elle les accumule dans un compte de stock. À la date de l'émission du décret de convocation des électeurs, transférer le montant accumulé dans le compte de stock dans le compte de dépenses liées à la campagne électorale à la juste valeur marchande. À la fin de la campagne électorale, transférer de nouveau à l'association de circonscription, à la même valeur, la valeur en matériel de campagne électorale réutilisable. Pour éviter le risque

LIGNES DIRECTRICES À L'INTENTION DES  
DIRECTEURS DES FINANCESLIGNE DIRECTRICE G25

de dépassement des dépenses liées à la campagne électorale, consulter le DF du candidat, s'il n'est pas le même que celui de l'association de circonscription, et lui demander d'approuver toutes les dépenses et transferts ayant trait au stock.

- .08 Dans le cas d'un candidat, on peut traiter les transferts de stock entre l'association de circonscription et le compte de la campagne électorale du candidat en transférant à la fois les dépenses liées à la campagne électorale payées d'avance avant l'émission du décret de convocation des électeurs et la valeur du stock à l'aide du compte «transferts reçus de l'association de circonscription». Dans le cas d'une association de circonscription, on peut traiter les dépenses liées à la campagne électorale et les achats courants de matériel de campagne électorale à l'aide du compte «transferts payés au compte de la campagne électorale du candidat». Cette méthode exigera une certaine dose de tenue de livres. Pour suivre la trace du total des dépenses liées à la campagne électorale, des entrées de transfert respectives dans les comptes, et pour préparer les formules requises à déposer auprès de la Commission, il est essentiel qu'existent d'étroites communications entre le DF du candidat et celui de l'association de circonscription.
- .09 Tous les DF concernés doivent surveiller de près les transferts de stock entre le parti, l'association de circonscription et le compte de la campagne électorale du candidat. Sinon, il pourrait en résulter un dépassement des dépenses liées à la campagne électorale et une lacune dans la déclaration des transferts sur les formules de déclaration requises. La méthode comptable choisie peut être l'une ou l'autre des méthodes exposées aux Lignes directrices G25.07 et G25.08.
- .10 Tout état financier annuel vérifié de chaque parti politique et association de circonscription inscrits doit être accompagné d'une liste détaillée du stock de matériel de campagne électorale réutilisable, des dépenses liées à la campagne électorale payées d'avance et des achats courants de matériel de campagne électorale à l'appui de la valeur totale desdits articles indiquée dans l'état de l'actif et du passif. Le tableau prescrit à cet effet est annexé à chaque formule.
- .11 Accompagner tout état financier de la période de campagne électorale de chaque parti politique, association de circonscription et candidat inscrits d'une liste détaillée du matériel de campagne électorale réutilisable à l'ouverture, des dépenses liées à la campagne électorale payées d'avance et des achats courants de matériel de campagne électorale à l'appui de la valeur totale de ces articles transférés dans les comptes de la campagne du parti, de l'association de circonscription ou du candidat. En outre, il y a lieu de fournir, à la clôture de la campagne électorale, une liste distincte du stock de matériel de campagne électorale réutilisable. Le tableau prescrit à cet effet est annexé à chaque formule d'état financier à déposer.

FUND-RAISING ACTIVITIES

- .01 Fund-raising activities are organized activities held for the purpose of raising monies for a political party, constituency association, candidate or leadership contestant registered under the Act by whom or on whose behalf the activity is held. Such organized activities include social functions such as suppers, dances, garden parties, etc. for which an admission charge is made as well as auctions, button sales, car washes, etc. for which no admission charge is made. Fund-raising activities must be held for the purpose of making a profit. Seminars, workshops, annual meetings, conventions, policy conferences, candidate rallies and similar events are not considered to be fund-raising activities for the purposes of the Act. Each activity will be reviewed to determine whether it is organized with a view to a profit and, therefore, exempt from the campaign expense limitations.

## Act reference 24(1)

- .02 The gross income from each fund-raising activity must be recorded in the period held and reported in the appropriate financial statement(s) to be filed by the CFO with the Commission. It is also required that in reporting the gross income for each activity the income from ticket sales be shown separately from other income, for example refreshments sold.

## Act reference 24(2)

- .03 Where a charge is made for a fund-raising activity, a portion of the charge will, in certain instances, be deemed to be a contribution to the registered political party, constituency association, candidate or leadership contestant by whom or on whose behalf the activity is held. The tests are as follows:
- (a) - Where the charge is \$25 or less, it may be considered entirely to cover expenses, entirely a contribution or any combination of contribution and expense allocation.
  - (b) Where the charge is \$25 or more, any amount up to \$25 may be considered to cover expenses but the remainder must be considered a contribution.

If the charge is considered entirely a contribution, an official receipt must be issued for the full amount.

For each activity the original allocation of the charge between contribution and expense should be consistent.

Should the contribution component of any charge exceed \$25, the entire amount must be paid for by cheque, money order or credit card.

## Act reference 24(3)

For example, books are sold to raise funds. They are purchased from the publisher for \$10 each and are sold by the fund-raising body for \$50 each. In this case either \$50 or \$40 may be considered to be a contribution.

- .04 Any amount paid for goods or services offered for sale during any fund-raising activity in excess of their fair market values shall be considered to be a contribution for the purposes of the Act. To determine fair market value see Guideline G25.04.

**Act reference 24(4)**

For example, an auction is held to raise funds. Ms. A donates a painting valued at \$130 which is bought by Mr. X at the auction for \$350. Official tax credit receipts must be issued to Ms. A for \$130 and to Mr. X for \$220, the latter amount being the difference between the value of the painting and the price for which it was purchased by Mr. X.

- .05 Whatever the fund-raising activity, gross income and gross expenses must be recorded and reported in the appropriate schedules and financial statements.
- .06 In some cases, a constituency association or a candidate will act as the agent for a political party or another constituency association or candidate for the purpose of selling tickets to a fund-raising activity. In such situations, the agent should turn over all proceeds of the ticket sales to the CFO of the sponsoring party, constituency association or candidate together with a certified list of the ticket purchasers, their addresses and the amounts paid for the tickets. The CFO of the sponsoring party, constituency association or candidate, upon receipt of this certified list, should record the gross income received and, where applicable, issue receipts to each ticket purchaser for the contribution portion of the ticket price.
- .07 In the event that a joint fund-raising activity should be contemplated the net proceeds of which are to be shared by a registered candidate or constituency association and a federal candidate or constituency association, the following procedures apply:
- (a) There should be an initial agreement between the sharing bodies providing for the sharing of revenues and expenses on an equitable basis. Any question as to whether a proposed arrangement is equitable in the circumstances shall be reviewed with Commission staff.
  - (b) A special bank account should be established solely for the purpose of financial transactions related to this event and the Commission must be notified of the establishment of the account.

**Act references 11(2) and 14(3)**

- (c) The CFO of the registered candidate or constituency association must:
  - (i) ensure that proper accounting records are established for the recording of all receipts and disbursements of the activity to ensure fulfilment of the CFO's responsibilities.

**Act reference 34(4)**

- (ii) not issue any official receipts supplied by the Commission for the contribution portion of any tickets sold until the total ticket sales are known. Only then should official receipts be issued in respect to the quantity of tickets accruing to the benefit of the provincial candidate or constituency association. The CFO must

further ensure that the receipt issued for the deemed contribution portion of each ticket sold is consistent with the original determination for the splitting of the per person admission charge as outlined in Guideline G31.03.

- (d) The federal constituency association's share of total tickets sold for which a contribution is deemed to have been made is a matter which must be arranged directly between the federal association and the federal party.
- (e) The audited financial statement(s) of the registered candidate or constituency association for the reporting period in which the event was held should be accompanied by a separate financial statement which clearly indicates the following:
  - (i) the ticket quantity and related revenue accruing to the benefit of each organization that is to share in the proceeds,
  - (ii) other revenues that are to be shared, for example refreshment sales,
  - (iii) a listing of all expenditures which indicates the name, address and amount paid to each supplier receiving an amount which in aggregate exceeds \$100, with the payments made to suppliers of \$100 or less shown as a single figure, and
  - (iv) the net profit from the event and the amount accruing to the benefit of each organization. In addition, the auditor of the registered candidate or constituency association involved in the event must be given access to the accounting records and supporting documents of the event for audit verification purposes.

The pertinent financial details of the event related to the participation in the activity of the registered candidate or constituency association should be brought forward from this statement and recorded in the appropriate sections of the Commission's reporting form.

- .08 All literature and other communication used in connection with the sale of tickets to a fund-raising activity and any other solicitation of contributions in connection therewith must clearly identify the registered political party, constituency association or candidate, on whose behalf the fund-raising activity is being held.

- .09 The limitation on campaign expenses in the period commencing with the writ for an election and terminating on polling day does not apply to expenses incurred in holding a fund-raising activity.

However mail solicitation to potential contributors must be a genuine solicitation of funds and must not be a disguised form of campaigning. The inclusion of campaign literature or material will cause the mailing to be a campaign expense subject to limitation.

- .10 The Commission has determined that the exempt status of advertising done in relation to a fund-raising activity, both from the campaign expense limitation and the campaign non-partisan advertising period between writ and polling day, i.e. the period outside the twenty-one day allowable period, must conform with the Commission's Guideline G23.05.

Act references 1(1) and 38(1)

**ACTIVITÉS DE FINANCEMENT**

- .01 Les activités de financement sont organisées en vue de recueillir des fonds pour le parti politique, l'association de circonscription, le candidat ou le candidat à la direction d'un parti inscrits aux termes de la loi, par qui ou pour le compte desquels l'activité a eu lieu. Ces activités organisées comprennent des dîners, des danses, des réceptions en plein air, etc., pour lesquels on perçoit des frais d'entrée. Il peut s'agir aussi de ventes aux enchères, ventes de macarons, lavages de voitures, etc., pour lesquels on ne perçoit pas de frais d'entrée. Les activités de financement doivent avoir lieu en vue de réaliser un profit. Les séminaires, ateliers, assemblées annuelles, congrès, conférences de politique, rassemblements sous l'égide d'un candidat et autres activités de ce genre ne sont pas considérés comme des activités de financement pour l'application de la loi. Chaque activité sera examinée pour déterminer si elle est organisée en vue de réaliser un profit et est donc exemptée du plafond imposé aux dépenses liées à la campagne électorale.

**Renvoi à la loi 24 (1)**

- .02 Le DF doit consigner le montant des revenus bruts provenant de chaque activité de financement et le communiquer à la Commission dans les états financiers couvrant la période pendant laquelle l'activité a eu lieu. Il est en outre exigé que, dans la déclaration de recettes brutes de chaque activité, la recette des ventes de billets soit consignée séparément des autres recettes, par exemple, les ventes de rafraîchissements.

**Renvoi à la loi 24 (2)**

- .03 Lorsqu'une activité de financement comporte la perception de frais, une partie des frais est, dans certains cas, considérée comme une contribution au parti politique, à l'association de circonscription, au candidat ou au candidat à la direction d'un parti qui sont inscrits et qui ont organisé l'activité de financement ou pour le compte desquels celle-ci a lieu. Les critères sont les suivants :

- a) Lorsque les frais ne sont pas supérieurs à 25 \$, il est possible de les considérer, dans leur totalité, comme des dépenses, comme une contribution ou comme une combinaison quelconque de contributions et de dépenses.
- b) Lorsque les frais sont supérieurs à 25 \$, tout montant jusqu'à concurrence de 25 \$ peut être considéré comme des dépenses. Le reste doit être considéré comme une contribution.

Si les frais sont considérés, dans leur totalité, comme une contribution, il faut produire un récépissé officiel libellé au montant intégral des frais.

Dans le cadre d'un seul et même événement, la ventilation originale des frais entre contribution et dépenses doit être la même pour chacun.

Si l'élément de contribution des frais est supérieur à 25 \$, le montant intégral doit être payé par chèque, mandat ou carte de crédit.

**Renvoi à la loi 24 (3)**

Par exemple, on vend des livres pour recueillir des fonds. Ils sont achetés à l'éditeur 10 \$ chacun et vendus par l'organisme de collecte de fonds 50 \$ chacun. Dans ce cas, on peut considérer 50 \$ ou 40 \$ comme une contribution.

- .04 Toute somme payée pour des biens ou services offerts en vente au cours d'une activité de financement au-delà de leur juste valeur marchande doit être considérée comme une contribution pour l'application de la loi. Pour déterminer la juste valeur marchande, se reporter à la Ligne directrice G25.04.

**Renvoi à la loi 24 (4)**

Par exemple, une vente aux enchères a lieu en vue de recueillir des fonds. M<sup>me</sup> A fait don d'un tableau évalué à 130 \$, qui est acheté par M. X aux enchères pour 350 \$. Il faut délivrer deux récépissés officiels aux fins de l'impôt, un à M<sup>me</sup> A. pour 130 \$ et un à M. X pour 220 \$, cette dernière somme étant la différence entre la valeur du tableau et le prix auquel M. X l'a acheté.

- .05 Quelle que soit l'activité de financement, les recettes et les dépenses brutes doivent être enregistrées et déclarées dans les tableaux et états financiers pertinents.
- .06 Dans certains cas, une association de circonscription ou un candidat agit en qualité de mandataire d'un parti politique ou d'une autre association de circonscription ou d'un candidat, en vue de vendre des billets d'entrée à une activité de financement. Dans ce genre de situation, le mandataire doit remettre au directeur des finances du parti, de l'association de circonscription ou du candidat qui l'a parrainé la totalité du produit de la vente de billets ainsi qu'une liste certifiée conforme des acheteurs de billets, précisant leur adresse et le montant versé pour les billets. Dès réception de cette liste certifiée conforme, le DF du parti, de l'association de circonscription ou du candidat qui a parrainé le mandataire doit consigner le montant des recettes brutes reçues et, s'il y a lieu, délivrer un récépissé au nom de chaque acheteur de billet pour la partie du prix du billet représentant une contribution.
- .07 Si l'on doit envisager une activité de financement mixte dont le produit net doit être partagé entre un candidat ou une association de circonscription inscrits et un candidat fédéral ou une association de circonscription fédérale, les dispositions suivantes s'appliquent :
- a) Il doit y avoir une entente initiale entre les parties prévoyant le partage équitable des recettes et des dépenses. L'examen de toute question relative au caractère équitable, dans les circonstances, de l'entente proposée relève du personnel de la Commission.
  - b) Il y a lieu d'ouvrir un compte de banque particulier aux fins exclusives des opérations financières en rapport avec cet événement, et la Commission doit être informée de l'ouverture du compte.

**Renvois à la loi 11 (2) et 14 (3)**

- c) Le DF du candidat ou de l'association de circonscription doit :
  - (i) s'assurer que les registres appropriés sont constitués pour y consigner toutes les recettes et sorties de fonds de l'activité afin de s'acquitter des obligations du DF; et

**Renvoi à la loi 34 (4)**

- (ii) ne pas délivrer de récépissé officiel fourni par la Commission pour accuser réception de la partie des billets vendus représentant une contribution tant qu'il ne connaît pas le produit total des ventes. Alors, seulement, il doit délivrer un récépissé officiel relativement à la quantité de billets qui revient au candidat provincial ou à l'association de circonscription provinciale. Le DF doit en outre s'assurer que le récépissé délivré pour la partie de chaque billet vendu réputée être une contribution concorde avec la décision convenue au départ en matière de partage des billets d'entrée par personne, dont il est question à la Ligne directrice G31.03.
- d) En ce qui concerne la part qui revient à l'association de circonscription fédérale du total des billets vendus qui est censé constituer une contribution, c'est une question qui doit être tranchée directement entre l'association fédérale et le parti fédéral.
- e) L'état financier vérifié du candidat ou de l'association de circonscription inscrits pour la période de déclaration pendant laquelle l'événement a eu lieu doit être accompagné d'un état financier distinct donnant clairement les précisions suivantes :
  - (i) la quantité de billets et les recettes dont bénéficie chaque organisation qui doit partager le produit;
  - (ii) d'autres recettes à partager, par exemple, les ventes de rafraîchissements;
  - (iii) une liste de toutes les dépenses, indiquant le nom et l'adresse de chaque fournisseur ayant reçu en tout plus de 100 \$, ainsi que le montant qui lui a été versé, et les paiements effectués aux fournisseurs n'ayant pas reçu plus de 100 \$, indiqués par un seul montant;
  - (iv) le bénéfice net de l'événement et la somme qui revient à chaque organisation. En outre, le vérificateur du candidat ou de l'association de circonscription inscrits et qui ont participé à l'événement doit avoir accès aux registres comptables et aux documents à l'appui de l'événement aux fins de sa vérification.

Reporter les données financières pertinentes en rapport avec la participation à l'activité du candidat ou de l'association de circonscription inscrits de cet état et les consigner aux sections appropriées de la formule de déclaration de la Commission.

- .08 Toute la documentation et tout autre organe de communication utilisés dans le cadre de la vente de billets à une activité de financement, et toute autre sollicitation de contribution en rapport avec l'activité doivent indiquer clairement le parti politique, l'association de circonscription ou le candidat inscrits, pour le compte duquel l'activité a lieu.
- .09 La restriction imposée aux dépenses liées à la campagne électorale pendant la période comprise entre l'émission du décret de convocation des électeurs et le jour du scrutin ne s'applique pas aux dépenses engagées pour la réalisation d'une activité de financement.

Toutefois, une sollicitation postale à d'éventuels donateurs doit être une authentique sollicitation de fonds et non pas une forme déguisée de campagne électorale. L'inclusion de documentation de campagne électorale fait de l'envoi postal une dépense liée à la campagne électorale, assujettie à une restriction.

LOTTERIES AND GAMES OF CHANCE

- .01 The Criminal Code of Canada makes lotteries and games of chance illegal unless sponsored by specific organizations. Political organizations are prohibited from holding lotteries or games of chance.
  - .02 Carnival games which clearly are games of skill such as a shooting gallery, ring toss, a bottle knock down or similar games are not covered by the Criminal Code and would qualify as legitimate fund-raising activities for a political organization.
  - .03 Any monies paid for admission to the fund-raising activity together with monies paid to participate in games of skill will be considered to be contributions and all rules applicable to contributions (i.e. limit, form and source) must be followed. Note that subsection 24(3) of the Election Finances Act, 1986 (subsection 23(3) EFA, RSO 1990) permits an exclusion of the first \$25.

LOTÉRIES ET JEUX DE HASARD

- .01 Le **Code criminel du Canada** déclare les loteries et jeux de hasard illégaux sauf s'ils sont parrainés par des organismes spécifiques. Il est interdit aux organisations politiques de tenir des loteries ou des jeux de hasard.
- .02 Les jeux de carnaval qui sont clairement des jeux d'adresse comme un stand de tir, le lancement d'anneaux, l'encerclement de cols de bouteilles ou autres jeux semblables ne sont pas visés par le Code criminel et remplissent donc les conditions requises pour faire partie des activités de financement d'une organisation politique.
- .03 Les sommes d'argent versées pour entrer à une activité de financement et celles qui sont versées pour participer à des jeux d'adresse sont considérées comme des contributions et l'on doit observer toutes les règles applicables aux contributions (plafonds, forme et source). À noter que le paragraphe 24 (3) de la Loi de 1986 sur le financement des élections (paragraphe 23 (3) LFE, LRO 1990) permet d'excepter la première tranche de 25 \$.
- .04 L'administration de ce genre d'activité doit réunir toutes les conditions requises en matière de contributions.

## RÈGLEMENT MODIFIANT LE RÈGLEMENT DE L'ONTARIO 725/89 PRIS EN APPLICATION DE LA LOI SUR LES REDEVANCES D'EXPLOITATION

**1** Le Règlement de l'Ontario 725/89 est modifié par adjonction de la version française suivante :

(2) Aux fins du calcul des redevances d'exploitation, la municipalité applique uniquement les normes que son conseil a approuvées et qui font partie d'un plan officiel adopté, d'un plan de prévisions relatifs aux immobilisations approuvées ou d'autres manifestations similaires de l'intention du conseil.

(3) Les normes approuvées en vertu du paragraphe (2) peuvent être fondées sur la fourniture d'un service :

- a) soit partout dans la municipalité;
- b) soit dans la partie de la municipalité que désigne un règlement municipal prévoyant l'imposition de redevances d'exploitation.

(4) La municipalité peut modifier la manière de fournir les services.

(5) Les modifications apportées en application du paragraphe (4) sont fondées sur des modifications dans la conception, la prestation ou le fonctionnement des services visés. Elles ne doivent toutefois pas prévoir des normes de services plus sévères que celles utilisées en vertu du paragraphe (1).

(6) Malgré les paragraphes (1) et (5), si les normes actuellement appliquées sont moins sévères que les normes exigées en vertu d'une

autre loi, le calcul des redevances d'exploitation peut être fondé sur la fourniture des services selon les normes exigées en vertu de l'autre loi. Règl. de l'Ont. 349/92, art. 1, *en partie*.

4 (1) Le calcul des redevances d'exploitation est fondé sur les coûts en immobilisations nets liés à la croissance pour une période d'au plus dix ans à compter de la date d'entrée en vigueur d'un règlement municipal prévoyant l'imposition de redevances d'exploitation.

(2) Malgré le paragraphe (1), le calcul des redevances d'exploitation peut être fondé sur les coûts en immobilisations nets liés à la croissance des services d'approvisionnement en eau, d'égout séparatif et d'égout pluvial, des services de transport et des services d'élimination des déchets pour une période de plus de dix ans. Règl. de l'Ont. 349/92, art. 1, *en partie*.

5 (1) Par voie de règlement municipal prévoyant l'imposition de redevances d'exploitation, la municipalité peut définir :

- a) des utilisations résidentielles, commerciales ou d'autres catégories générales d'utilisation;
- b) des catégories particulières d'utilisation, à l'intérieur des catégories générales visées à l'alinéa a).

(2) La municipalité calcule les coûts en immobilisations nets liés à la croissance imputables à chacune des utilisations de terrains, de bâtiments ou de constructions, désignées dans le règlement municipal prévoyant l'imposition de redevances d'exploitation.

(3) À l'égard de chaque utilisation de terrains, de bâtiments ou de constructions, désignée dans le règlement municipal prévoyant l'imposition de redevances d'exploitation la municipalité ne peut imposer que les coûts en immobilisations nets liés à la croissance imputables à l'utilisation visée.

(4) La municipalité qui a établi, dans son règlement municipal prévoyant l'imposition de redevances d'exploitation, deux ou plus de deux catégories particulières d'utilisation à l'intérieur d'une catégorie générale peut, pour l'application des paragraphes (2) et (3), considérer les catégories particulières d'utilisation comme une utilisation générale.

(5) Pour l'application des paragraphes (2) et (3), la municipalité peut considérer comme une utilisation unique l'une ou l'ensemble des utilisations précisées dans son règlement municipal prévoyant l'imposition de redevances d'exploitation, sauf les utilisations résidentielles. Règl. de l'Ont. 349/92, art. 1, *en partie*.

- a) d'un ou de deux logements additionnels dans une habitation unifamiliale isolée existante;

b) d'un logement additionnel dans tout autre immeuble d'habitation existant.

(3) Une redevance d'exploitation peut être imposée en vertu de l'alinéa (2) a) si la surface de plancher hors-tout totale d'un ou de deux logements additionnels dépasse la surface de plancher hors-tout du logement existant.

(4) Une redevance d'exploitation peut être imposée en vertu de l'alinéa (2) b) si la surface de plancher hors-tout du logement additionnel dépasse :

- a) dans le cas d'une habitation jumelée ou en rangée, la surface de plancher hors-tout du logement existant;
- b) dans le cas de tout autre immeuble d'habitation, la surface de plancher hors-tout du logement le plus petit que contient l'immeuble d'habitation. Règl. de l'Ont. 349/92, art. 1, *en partie*.

**1** Les définitions qui suivent s'appliquent au présent règlement.

«bien-fonds» Bien-fonds situé dans un territoire non érigé en municipalité. («land»)

«ministre» Le ministre des Affaires municipales et du Logement. («Minister») Règl. de l'Ont. 350/92, art. 1, *en partie*.

**2** Si le propriétaire d'un bien-fonds désire construire, réparer ou entretenir une clôture pour marquer la limite entre son bien-fonds et un bien-fonds contigu, mais que celui-ci et le propriétaire du bien-fonds contigu n'arrivent pas à s'entendre sur la répartition du coût de construction, d'entretien ou de réparation de la clôture, l'un ou l'autre des propriétaires peut donner avis au ministre de son désir que des inspecteurs des clôtures examinent la clôture et procèdent à l'arbitrage du litige. Règl. de l'Ont. 350/92, art. 1, *en partie*.

**3** Le ministre nomme trois inspecteurs des clôtures chargés d'inspecter le bien-fonds à la date et à l'heure que fixe le ministre pour l'arbitrage du litige. Règl. de l'Ont. 350/92, art. 1, *en partie*.

**4** (1) Après avoir effectué l'examen et entendu les propriétaires, les inspecteurs des clôtures rendent une sentence rédigée selon la formule prescrite que signent deux d'entre eux, à l'égard des questions en litige. La sentence indique :

- a) la répartition du coût de construction, d'entretien ou de réparation de la clôture, selon le cas;
- b) la description de la clôture, y compris des matériaux devant être utilisés pour la construction, la réparation ou l'entretien de la clôture, et son emplacement.

(2) Les inspecteurs des clôtures répartissent en parts égales le coût de la partie de la clôture qui marque la limite entre le bien-fonds du propriétaire et le bien-fonds contigu de l'autre propriétaire, sauf si, compte tenu :

- a) de la mesure dans laquelle la clôture correspond aux besoins de chacun des propriétaires ou des occupants du bien-fonds;
- b) de la nature du terrain sur lequel la clôture est ou doit être située;
- c) du genre de clôtures utilisées dans la localité;
- d) de tout autre facteur que les inspecteurs des clôtures estiment s'appliquer à la décision,

les inspecteurs des clôtures estiment qu'une division en parts égales serait injuste. Dans ce cas, ils répartissent les coûts de la façon qu'ils estiment convenable dans les circonstances.

RÈGLEMENT DE L'ONTARIO 9/82  
PRIS EN APPLICATION DE LA  
LOI SUR LES CLÔTURES DE BORNAGE

**1 Le Règlement de l'Ontario 9/82 est modifié par adjonction de la version française suivante :**

(3) Malgré le paragraphe (2), les inspecteurs des clôtures ne peuvent, dans le cadre d'une répartition des coûts portant sur des biens-fonds dévolus à la Couronne du chef de l'Ontario, exiger que la Couronne verse une somme d'argent dépassant 50 pour cent du coût de la clôture. Règl. de l'Ont. 350/92, art. 1, *en partie*.

**5** Les inspecteurs des clôtures déposent sans délai la sentence auprès du ministre. Elle peut être attestée au moyen d'une copie certifiée conforme par le ministre qui l'envoie aux propriétaires des biens-fonds contigus et aux occupants de ceux-ci à la dernière adresse connue de leur domicile. Règl. de l'Ont. 350/92, art. 1, *en partie*.

**6** (1) Le propriétaire peut interjeter appel d'une sentence auprès d'un arbitre nommé en vertu du paragraphe 25a (2) de la Loi. À cet effet, dans un délai de quinze jours suivant la réception d'une copie de la sentence, le propriétaire signifie l'avis d'appel rédigé selon la formule prescrite au propriétaire ou à l'occupant du bien-fonds contigu et il dépose une copie de cet avis, un affidavit de signification de l'avis et des droits administratifs de 50 \$ auprès du ministère des Affaires municipales dans le délai de quinze jours.

(2) L'arbitre entend et tranche l'appel et peut :

- a) annuler, modifier ou confirmer la sentence ou corriger une erreur dans celle-ci;
- b) interroger les parties à l'appel et leurs témoins sous serment;
- c) inspecter les lieux;
- d) ordonner le paiement des dépens relatifs à l'instance par l'une ou l'autre des parties et en fixer le montant.

(3) La décision de l'arbitre est définitive et la sentence, telle qu'elle est modifiée ou confirmée, a la même portée, à tous égards, que si elle n'avait pas fait l'objet d'un appel.

Règl. de l'Ont. 350/92, art. 1, *en partie*.

**7** (1) Le propriétaire qui a engagé des coûts de construction, d'entretien ou de réparation d'une clôture et qui réclame une somme d'argent du propriétaire du bien-fonds contigu aux termes d'une sentence peut aviser le propriétaire du bien-fonds contigu ou l'occupant du bien-fonds de ce dernier de la somme réclamée aux termes de la sentence.

(2) Si le propriétaire du bien-fonds contigu ne verse pas la somme réclamée dans un délai de vingt-huit jours qui suit la date à laquelle a été donné l'avis, le propriétaire peut donner avis au ministre qu'il désire que les inspecteurs des clôtures se rendent de nouveau sur les lieux afin d'examiner la clôture et d'évaluer la réclamation. Les inspecteurs des clôtures se rendent de nouveau sur les biens-fonds à la date et à l'heure que fixe le ministre.

(3) Si un des inspecteurs des clôtures qui ont rendu la sentence est empêché de se rendre de nouveau sur les biens-fonds, le ministre peut nommer un autre inspecteur des clôtures à sa place.

(4) Après avoir effectué leur examen et entendu les propriétaires, les inspecteurs des clôtures décident de la valeur des travaux effectués par le propriétaire, évaluent la réclamation du propriétaire et préparent un certificat rédigé selon la formule prescrite dans lequel ils attestent le montant qui est imputable au propriétaire du bien-fonds contigu au titre de la part du coût des travaux qui lui incombe.

(5) Les inspecteurs des clôtures déposent le certificat auprès du ministre qui envoie une copie de la sentence, certifiée conforme par le ministre, au propriétaire ainsi qu'au propriétaire et aux occupants, le cas échéant, des biens-fonds contigus à la dernière adresse connue de leur domicile.

(6) Le propriétaire peut déposer une copie certifiée conforme du certificat et de la sentence auprès du greffier de la Cour provinciale (Division civile). Après dépôt de cette copie, la somme peut être prélevée sur les biens et effets mobiliers ainsi que sur le bien-fonds du propriétaire du bien-fonds contigu de la même façon que peut être

prélevée une somme à la suite d'un jugement de la Cour provinciale (Division civile) en vertu de la *Loi de 1984 sur les tribunaux judiciaires*. Règl. de l'Ont. 350/92, art. 1, *en partie*.

8 (1) La sentence et le certificat, le cas échéant, peuvent être enregistrés au bureau d'enregistrement immobilier compétent. Dès leur enregistrement, ils constituent des charges grevant le bien-fonds visé par la sentence ou le certificat en question.

(2) L'enregistrement peut être effectué en enregistrant le double ou une copie de la sentence ou du certificat, certifié conforme par le ministre. Règl. de l'Ont. 350/92, art. 1, *en partie*.

9 L'accord rédigé selon la formule prescrite que concluent les propriétaires et qui porte sur la répartition du coût de construction, d'entretien ou de réparation d'une clôture de bornage peut être enregistré au bureau d'enregistrement immobilier et exécuté de la même façon qu'une sentence que rendent les inspecteurs des clôtures. - (d) Acquiring land to amend the boundaries of Provincial Parks, to complete land acquisition for an existing Provincial Park or for a sewage lagoon in or for a Provincial Park; and
- (e) Amending and rescinding boundary regulations for Provincial Parks,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Park environmental and recreational features could be damaged in the absence of Provincial Park projects that address park management issues.
- B. The Ministry of Natural Resources (MNR) will be damaged by the interference with its ongoing programs associated with natural heritage protection and outdoor recreation.
- C. The public will be damaged by the loss of anticipated benefits associated with resource protection and the provision of outdoor recreation opportunities, associated tourism benefits and economic benefits to local communities.
- D. Pre-submission consultation and completion of the Class Environmental Assessment (Class EA) for Provincial Park Management for formal submission will be hampered by having to prepare separate exemption orders or environmental assessments for all Provincial Park projects at the same time.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant natural and cultural features in the Ontario landscape.
- B. The conditions to which this undertaking is subject will ensure that affected government agencies and the public are informed of MNR's intentions to implement components of the Provincial Parks Program during the period of this exemption order.
- C. A number of activities that make up this undertaking are similar to activities that are covered by approved MNR Class Environmental Assessments. The Minister of Natural Resources will apply such parts of the procedure specified in the Class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures or other procedures are made directly applicable by the Class EA for Provincial Park Management.
- D. This interim exemption will allow Provincial Park plans and projects to continue while a Class EA for Provincial Park Management is prepared for approval.

This exemption order is subject to the following terms and conditions:

1. This exemption order does not apply to any plan or project:
  - (a) where the undertaking is likely to affect the known habitat of a species designated under the *Endangered Species Act* (except for protecting the species);

4. Prior to amending or rescinding boundary regulations for a park (which for greater clarity includes the elimination of the entire area of a park), MNR shall follow applicable public consultation and notification as provided for in the policies and guidelines included in Condition 2 of this order. MNR will include the Director, EA Branch as well as the appropriate Director, Regional Office of MOE as a mandatory contact for all public and government agency notices required by the policies and guidelines included under Condition 2 of this order with respect to the amending or rescinding boundary regulations.

Such notification will occur either prior to amending or rescinding boundary regulations or in the initial invitation for public consultation in the park management planning process, whichever comes first.
7. Lists of completed interim management statements and approved Park Management Plans will be maintained and available upon request for examination at the Provincial Parks and Natural Heritage Policy Branch, MNR. Copies of interim management statements and approved Park Management Plans will be maintained and available for examination at the appropriate local MNR Office.
8. Any activity exempt under this order and carried out in a Park that does not have an approved Park Management Plan and that would be the subject of an approved MNR Class Environmental Assessment, except that the approval does not apply to Provincial Parks, shall be carried out in accordance with the appropriate Class EA procedures, including notification, as though the activity were not in a provincial park, and the MNR Construction and Mitigation Handbook, in which case conditions 11 through 14 of this order shall not apply.

Reg. 145/90 shall not apply. Notice of all such dispositions will be given to MOE as per conditions 11 through 14 below.

The MNR District Manager shall, after the emergency situation has been dealt with, notify the Director of the EA Branch and appropriate MOE Regional Director of the actions carried out, why the actions were necessary, any required future actions and how MNR intends to comply with the requirements of the Act for those future actions.

  - (ii) does not include, during the life of a contract the landlord enters into for the purposes of switching from heating by hydro to heating by another form of energy, any amount by which the actual operating costs for heating (other than by hydro) exceed the actual operating costs for heating (other than by hydro) that would have been incurred had the contract not been performed,

3. In the case of a rental unit described in paragraph 3 of subsection 1 (4) of the Act whose initial rent date would, under that paragraph, be the 1st day of October, 1990, if the maximum rent under the *Residential Rent Regulation Act* on that day was higher than the rent charged on that day, the initial rent date shall be,

1. The days of the year on which the two consecutive years begin and end shall be the same days of the year as the prescribed periods for which information concerning operating costs was filed under clause 53 (a) of the Act with the application that gave rise to the first order under the Act increasing the maximum rent for the rental unit by more than the guideline.
2. The effective date of the rent increase under the notice shall be determined.

“arm's length” means the persons involved are not related persons;

“control” means direct or indirect ownership or control either alone or with a related person of,

8. The following are prescribed as rules for making findings:

1. If more than one of the following increases in maximum rent is justified under clause 20 (1) (d) of the Act, the increases shall be applied to the maximum rent in the following order,

  - ii. increases from a carry forward from a previous order under subsection 21 (8) of the Act described in clause 20 (1) (f) of the Act,
  - iii. increases from a carry forward from a previous order under subsection 21 (8) of the Act described in clause 20 (1) (e) of the Act,

  - v. increases based on capital expenditures other than capital expenditures referred to in subparagraph iv including increases based on the part of the cost of new or additional services that is a capital expenditure.
2. If there is more than one increase referred to in subparagraph iv or v of paragraph 1 and the full amount of the increases under either of those subparagraphs cannot be applied to the maximum rent, the increases shall be applied to the maximum rent proportionally.

9.—(1) For the purposes of subsection 28 (5) of the Act, the rent officer shall adjust the maximum rent set out in the previous order by applying the increase or decrease used to obtain the maximum rent set out in that order, to the maximum rent as reduced by the order under section 28 of the Act.

(2) For the purposes of subsection 28 (6) of the Act, the rent officer shall adjust the maximum rent as determined in the previous notice of carry forward or notice of phase in by applying the increase used to obtain the maximum rent in that notice, to the maximum rent as reduced by the order under section 28 of the Act. O. Reg. 375/92, s. 9.

10. For the purpose of section 99 of the Act, the allowed amount of a contingency fee charged by an agent of a landlord or tenant is 10 per cent of the amount that has been or may be recovered, gained or saved, in whole or in part, over a one-year period, through the efforts of the agent. O. Reg. 375/92, s. 10.

## PART II MAXIMUM RENT

11.—(1) The provisions of this section are prescribed as rules other than those set out in subsection 10 (2) of the Act for determining the maximum rent for a rental unit on the initial rent date if the initial rent date is on or after the day section 10 of the Act comes into force.

(2) The following rules apply with respect to the determination of the maximum rent for a rental unit on the initial rent date:

1. Paragraphs 2 and 3 apply to a rental unit that, on the initial rent date, was rented to a superintendent, an employee of the landlord whose employment relates to the management of the complex or a member of the landlord's family.

2. If an order was made, before the initial rent date, under a predecessor Act setting out the rent for a unit described in paragraph 1, the maximum rent on the initial rent date shall be deemed to be the rent set out in the order plus all increases that were permitted by law between the effective date of the ordered rent and the initial rent date.
3. If no order described in paragraph 2 was made before the initial rent date for a unit described in paragraph 1,
  - i. the maximum rent on the initial rent date shall be deemed to be the earliest rent known since the unit became subject to a predecessor Act that was charged to a person who was not a superintendent, an employee of the landlord whose employment relates to the management of the complex or a member of the landlord's family, plus all increases permitted by law up to the initial rent date,
  - ii. if the maximum rent cannot be determined under subparagraph i and the rental unit is part of a residential complex containing other rental units, the maximum rent on the initial rent date shall be deemed to be the average of the rents, on the initial rent date, for all similar rental units in the complex that are not occupied by a superintendent, an employee of the landlord whose employment relates to the management of the complex or a member of the landlord's family, or, if there are no such similar units, the maximum rent on the initial rent date shall be deemed to be what would be a reasonable rent having regard to the rents, on the initial rent date, for the other rental units in the complex,
  - iii. if the maximum rent cannot be determined under subparagraph i or ii, the maximum rent on the initial rent date shall be deemed to be what would be a reasonable rent having regard to the rents, on the initial rent date, for similar rental units in the geographic vicinity.
4. If there is a tenancy agreement in force on the initial rent date that provides for a discount, the maximum rent shall be determined, except as provided in paragraph 5, using the undiscounted rent as of the initial rent date minus the average discount. The average discount is the total discount under the agreement averaged over the number of rental periods in one year. If the term of the tenancy agreement is more than one year, the average discount shall be calculated using the total discount under the agreement for the first year of the term. In this paragraph and in paragraph 5, "discount" includes a benefit in the nature of a discount or a decrease in rent and may be in the form of a deduction, a payment of money or the transfer of any other kind of property.
5. The maximum rent shall be determined using the undiscounted rent if,
  - i. the tenancy agreement referred to in paragraph 4 is in writing,
  - ii. the tenancy agreement provides for a discount in respect of the marketing of the first rental of the rental unit,
  - iii. the total discount under the agreement does not exceed two months undiscounted rent, and
  - iv. the rental periods in respect of which the discount is paid or deducted, which need not be consecutive, do not exceed six months.
6. If a registration statement relating to a rental unit was filed under Part V of the *Residential Rent Regulation Act* and subsection 4 (16) of Ontario Regulation 10/87, as it exists immediately before section 10 of the Act comes into force, applied to the actual rent, within the meaning of the *Residential Rent Regulation Act*, of the rental unit, the maximum rent of the

rental unit on the initial rent date shall be the actual rent determined under that subsection. O. Reg. 375/92, s. 11.

### PART III OPERATING COSTS

12.—(1) The provisions of this section are prescribed as rules for making findings relating to operating costs.

(2) The following rules relate to “base year” and “reference year”:

1. “Base year” and “reference year” refer to certain annual accounting periods established for the purposes of an application. The accounting periods must each be one year in length. The reference year is the period ending immediately before the base year.
2. If the application is by the landlord, the reference year and base year shall be the annual accounting periods most recently completed on or before the day that is ninety days before the effective date of the first rent increase applied for.
3. If an order has been made under the Act increasing the maximum rent for a rental unit by more than the guideline, the annual accounting periods mentioned in paragraph 2 shall begin and end on the same days of the year as the prescribed periods for which information concerning operating costs was filed under clause 53 (a) of the Act with the application that gave rise to the order.
4. If the application is by the tenant, except as provided in paragraph 5, the reference year and the base year are the calendar years preceding the date the application is made.
5. If the application is by the tenant and an order has been made under the Act increasing the maximum rent for a rental unit in the complex by more than the guideline, the reference year and base year shall be the two years that would be determined under section 6 for a notice whose effective date of rent increase is the same as the date of the tenant's application.

(3) The following rules apply to the allocation of operating costs for a residential complex that is part of a larger project if the complex shares those costs with other parts of the project:

1. The operating costs for the project shall, subject to paragraph 2, be allocated among the parts of the project in accordance with one or more of the following factors,
  - i. the area of each part of the project,
  - ii. the assessment for municipal taxes for each part of the project,
  - iii. the market value of each part of the project,
  - iv. the revenue generated by each part of the project.
2. If the allocation of operating costs in accordance with paragraph 1 would be unreasonable considering how much of the costs are attributable to each part of the project, the operating costs shall be allocated among the parts of the project in reasonable proportions according to how much of the costs are attributable to each part of the project.

(4) The following rules apply to the situation in which a rent officer decides that an increase in maximum rent should be decreased or the rent or maximum rent reduced because of an extraordinary decrease in operating costs and then considers, under subsection 13 (9) or 24 (3) of the Act, evidence concerning an extraordinary increase in operating costs:

1. The rent officer may deduct an amount in respect of the extraordinary increase in operating costs from the amount of the

decrease or reduction that the rent officer has decided upon, but only to the extent of eliminating that decrease or reduction.

2. This subsection does not apply to an application based on an extraordinary increase in operating costs. O. Reg. 375/92, s. 12.

13.—(1) The provisions of this section are prescribed as rules for making findings relating to extraordinary increases in operating costs.

(2) In determining whether an increase in an operating cost is extraordinary under subsection 14 (2) of the Act, the following rules apply:

1. The increase shall be the increase in the operating costs from the reference year to the base year.
2. The percentage set out in the corresponding operating cost category, mentioned in subsection 14 (2) of the Act, shall be obtained,
  - i. from the Table referred to in subsection 12 (1) of the Act for the calendar year containing the effective date of the first rent increase applied for, or
  - ii. if the effective date of the first rent increase applied for is in 1992, from the Table referred to in subsection 12 (1) of the Act for 1993.

(3) If an increase in the maximum rent is justified on the ground of an extraordinary increase in operating costs, the amount of the increase in the maximum rent shall be equal to,

- (a) the amount of the cost for the operating cost category for the base year; minus
- (b) the amount of the cost for the operating cost category for the reference year adjusted by the percentage for the operating cost category as determined under paragraph 2 of subsection (2). O. Reg. 375/92, s. 13.

14.—(1) The provisions of this section are prescribed as rules for making findings relating to extraordinary decreases in operating costs.

(2) In determining whether a decrease in operating costs is extraordinary under subsection 24 (2) of the Act, the following rules apply:

1. The decrease shall be the decrease in the operating costs from the reference year to the base year.
2. The percentage set out in the corresponding operating cost category, mentioned in subsection 24 (2) of the Act, shall be obtained,
  - i. from the Table referred to in subsection 12 (1) of the Act for the calendar year in which the application is made, or
  - ii. if the application is made in 1992, from the Table referred to in subsection 12 (1) of the Act for 1992.

(3) If a reduction of the rent or of the maximum rent is justified on the ground of an extraordinary decrease in an operating cost, the amount of the reduction shall, except as provided in subsection (4), be equal to,

- (a) the amount of the cost for the operating cost category for the reference year; minus
- (b) the amount of the cost for the operating cost category for the base year.

(4) If the percentage set out in the operating cost category is negative, the amount of the reduction shall be equal to,

O. Reg. 375/92, s. 14.

#### PART IV CAPITAL EXPENDITURES

15.—(1) The following are prescribed as rules for making findings relating to capital expenditures and for calculating allowances for capital expenditures:

1. There shall be no allowance for a capital expenditure, except under section 16 of the Act, unless,
  - i. the work was completed during the one-year period ending ninety days before the effective date of the first rent increase applied for, or
  - ii. the application is made within six months after the day section 13 of the Act came into force.
2. The amount of a capital expenditure is the total of the purchase price and the installation, renovation and construction costs less any grant or other assistance from the federal, provincial or a municipal government or insurance, salvage, resale or trade-in proceeds.
3. The amount of a capital expenditure that relates to a leased asset is the lesser of,
  - i. the net present value, at the commencement of the lease, of the minimum lease payments including any initial payments or options to purchase but not including the cost of any maintenance contract, and
  - ii. the fair market value of the leased asset at the commencement of the lease.
4. For the purposes of subparagraph i of paragraph 3, the net present value shall be determined using the interest rate, prescribed under section 18, for the month in which the lease commences.
5. The value of the landlord's own labour in carrying out the work involved in the capital expenditure is equal to the amount of time spent multiplied by a rate of pay that is reasonable given the landlord's experience and skill in the type of work done. If the amount of time spent exceeds the amount of time that would be reasonable given the landlord's experience and skill, the latter amount of time shall be used in the calculation of the value of the landlord's own labour. Only that part of the value of the landlord's own labour that is less than the amount a person in the business of doing such work would charge shall be considered.
6. The allowance for a capital expenditure is the sum of the amount of the capital expenditure plus the value of the landlord's own labour, amortized over the useful life of the work done or the thing purchased, prescribed under section 17, in equal instalments of blended principal and interest.
7. The amortization under paragraph 6 shall be done using the interest rate, prescribed under section 18, for the month in which the application is made.
8. The date on which a capital component is to be deducted from the maximum rent for a unit shall be the date that follows the effective date of the maximum rent set out in the order that determined the allowance of which the capital component is

part by the length of time of the anticipated useful life of the work done or thing purchased prescribed under section 17.

9. Without limiting what other capital expenditures may be capital expenditures that increase energy conservation, a capital expenditure is a capital expenditure that increases energy conservation if any of the following apply,

- i. any financial assistance, the purpose of which is to increase energy conservation, is received from the federal, provincial or a municipal government, an agency of any of them or a supplier of energy or fuel,
- ii. the expenditure is for anything recommended in writing, for the purpose of increasing energy conservation, by the federal, provincial or a municipal government, an agency of any of them, Ontario Hydro, a public utility commission or any person who supplies gas or electric power to a municipal corporation or the inhabitants of any municipality, in accordance with the *Municipal Franchises Act*,
- iii. the expenditure is to do any of the following,
  - A. change anything powered by electricity to something powered by another form of energy or fuel,
  - B. change incandescent lighting to florescent or halogen lighting,

(2) The following rules apply to the allocation of a capital expenditure for a residential complex that is part of a larger project if expenditure relates to other parts of the project:

1. The capital expenditure for the project shall, subject to paragraph 2, be allocated among the parts of the project in accordance with one or more of the following factors,
  - i. the area of each part of the project,
  - ii. the assessment for municipal taxes for each part of the project,
  - iii. the market value of each part of the project,
  - iv. the revenue generated by each part of the project.

2. If the allocation of the capital expenditure in accordance with paragraph 1 would be unreasonable considering how much of the expenditure is attributable to each part of the project, the expenditure shall be allocated among the parts of the project in reasonable proportions according to how much of the expenditure is attributable to each part of the project. O. Reg. 375/92, s. 15.

16. The following is prescribed as a rule for the purposes of subsections 15 (4) and 17 (2) of the Act:

(2) The useful life of work done or a thing purchased shall be determined from the Schedule in accordance with the following rules:

1. If, when a thing is purchased, it has previously been used, the useful life of the thing shall be determined taking into account the length of time of that previous use.
2. If the work done or thing purchased does not appear in the Schedule, the useful life of the work or thing shall be determined with reference to items with similar characteristics that do appear in the Schedule.

(3) If the useful life of work done or a thing purchased cannot be determined under subsection (2) because the work or thing does not appear in the Schedule and no item with similar characteristics appears in the Schedule, the useful life of the work or thing shall be what is generally accepted as the useful life of such work or thing. O. Reg. 375/92, s. 17.

18.—(1) This section prescribes the interest rates on capital expenditures for the purposes of subsection 20 (5) of the Act.

(2) The prescribed part of an allowance is the part of the allowance remaining after the appropriate portion of 2 per cent of the previous maximum rent, excluding all capital components, is deducted.

(3) The appropriate portion for each allowance is determined by pro rating 2 per cent of the previous maximum rent, excluding all capital components, among all the allowances respecting capital expenditures and all the allowances respecting a carry forward of an allowance for a capital expenditure. O. Reg. 375/92, s. 19.

20.—(1) The provisions of this section are prescribed as rules for determining the prescribed part of an amount justified respecting a carry forward for the purposes of subsection 22 (4) of the Act.

23. The following is prescribed as a rule for the purposes of subsection 18 (2) of the Act:

1. If the actual amount expended is different from the amount approved in the advance determination, the actual amount expended shall be the amount considered. O. Reg. 375/92, s. 23.

## PART VI INADEQUATE MAINTENANCE

24.—(1) The provisions of this section are prescribed as rules for making findings relating to a reduction of the rent charged or of maximum rent, based on an inadequate standard of maintenance or repair.

(2) A reduction of the rent charged or of maximum rent is not justified unless the standard of maintenance or repair is inadequate on the date the application is made.

(3) In determining whether the standard of maintenance or repair is inadequate, the rent officer may consider any matter and shall consider the following matters:

1. Any contravention of a municipal by-law, passed under section 31 of the *Planning Act* or under any special Act, respecting standards for maintenance and occupancy.
2. Any contravention of a provision of an Act respecting standards relating to the health or safety of occupants of buildings or structures or of a regulation made under such an Act.

2. If there was a previous order under the Act or a predecessor Act relating to the rental unit with an effective date that was within the two years preceding the date of the application, the period is from the effective date of the order to the date the application was made. 1. If there is a previous order under the Act or a predecessor Act relating to the unit setting out a separate charge for the service or facility, the amount of the reduction shall be that separate charge plus all increases to the separate charge that were permitted by law after the effective date of the order.
2. If there was a separate charge for the service or facility on or after the day the unit first became subject to the Act or a predecessor Act, the amount of the reduction shall be the earliest known such charge plus all increases to the separate charge that were permitted by law after the time of that earliest known charge.
3. If there are separate charges for the service or facility for the other rental units in the complex, the amount of the reduction shall be the average of those separate charges.
4. The amount of the reduction shall be what would be a reasonable charge for the service or facility based on the cost of the service or facility or, if the cost cannot be determined, on the value of the service or facility.

(3) If a service or facility is only reduced rather than discontinued, the amount of the reduction of maximum rent shall be a reasonable proportion, based on the degree of the reduction of the service or facility, of the amount determined under subsection (2).

(4) If the discontinuance or reduction is temporary and its duration is reasonable, taking into account the effect on the tenant, and does not exceed six months there shall be no reduction of the rent charged or of maximum rent.

(5) In determining the amount of a reduction of the rent charged or of maximum rent or in determining the period of time during which the rent charged shall not be increased, the rent officer shall consider a discontinuance or reduction in a service or facility only if the discontinuance or reduction commenced during the period determined as follows:

1. Except as provided in paragraph 2, the period is the six-year period ending on the date the application was made.
2. If there was a previous order under the Act or a predecessor Act relating to the rental unit with an effective date that was within the six years preceding the date of the application, the period is from the effective date of the order to the date the application was made. (Répartition des conseillers scolaires)

**1 Le Règlement de l'Ontario 384/88 est modifié par adjonction de la version française suivante :**

## RÉPARTITION DES CONSEILLERS SCOLAIRES

1 Dans le présent règlement, «plus grande partie» s'entend, en ce qui concerne un comté ou une municipalité régionale, d'un secteur situé dans ce comté ou cette municipalité régionale qui recouvre plus de 50 pour cent de l'aire géographique du comté ou de la municipalité régionale, selon le cas. Règl. de l'Ont. 378/92, art. 1, *en partie*.

2 (1) Sous réserve des paragraphes (2) à (4), le calcul et la répartition prévus à la partie VII-A de la Loi à l'égard d'un conseil sont effectués par les secrétaires des trois municipalités qui se trouvent dans le secteur qui relève de la compétence du conseil et dont les populations sont successivement les plus élevées.

(2) Si le secteur qui relève de la compétence d'un conseil comprend moins de trois municipalités, le secrétaire de la municipalité qui a la plus importante population, après avoir consulté le secrétaire de l'autre municipalité, le cas échéant, procède au calcul et à la répartition.

(3) Si le secteur qui relève de la compétence d'un conseil se compose de l'ensemble ou de la plus grande partie de deux comtés, le calcul et la répartition sont effectués par le secrétaire de la municipalité qui a la plus importante population dans chaque comté et par le secrétaire de la municipalité dont la population est la suivante en importance.

(3a) Si le secteur qui relève de la compétence d'un conseil se compose de l'ensemble ou de la plus grande partie de trois comtés, le calcul et la répartition sont effectués par le secrétaire de la municipalité qui a la plus importante population dans chaque comté.

(4) Si le secteur qui relève de la compétence d'un conseil comprend un comté ou la plus grande partie d'un comté et une municipalité régionale ou la plus grande partie d'une municipalité régionale, le calcul et la répartition sont effectués par le secrétaire de la municipalité qui a la plus importante population dans le comté et par le secrétaire de la municipalité régionale, ainsi que par le secrétaire de la municipalité qui se trouve dans le secteur qui relève de la compétence du conseil et dont la population est la suivante en importance.

(5) Le directeur de l'éducation d'un conseil prend les mesures nécessaires pour convoquer une réunion des personnes tenues de procéder au calcul et à la répartition au nom du conseil et il doit être consulté au cours du processus de calcul du nombre de membres ou de répartition des membres du conseil.

(6) Le calcul et la répartition prévus à la partie VII-A de la Loi sont effectués avant le 15 mars de l'année où se tient une élection ordinaire prévue par la loi intitulée *Loi sur les élections municipales* ou, si le calcul de l'effectif calculé et de l'effectif total calculé du conseil est renvoyé à la Commission des langues d'enseignement de l'Ontario aux termes du paragraphe 277q (4) de la Loi, avant le 15 avril de cette année-là.

(7) Si les membres d'un conseil qui représentent un groupe électoral ordonnent qu'une répartition de remplacement soit faite, celle-ci est faite avant le 31 mars de l'année où se tient une élection ordinaire prévue par la *Loi sur les élections municipales* ou, si le calcul de l'effectif calculé et de l'effectif total calculé du conseil est renvoyé à la Commission des langues d'enseignement de l'Ontario aux termes du paragraphe 277q (4) de la Loi, avant le 30 avril de cette année-là.

(8) Le secrétaire de la municipalité qui a la plus importante population envoie au ministre, au secrétaire du conseil, ainsi qu'aux secrétaires de toutes les municipalités, y compris les municipalités régionales, qui se trouvent, en totalité ou en partie, dans le secteur qui relève de la compétence du conseil, les documents suivants :

- a) une copie du texte du calcul définitif et de la répartition définitive effectués aux termes de la partie VII-A de la Loi;
- b) une copie du texte de la résolution visée à la règle 6 du paragraphe 206a (6) de la Loi approuvant une augmentation ou une diminution du nombre des membres du conseil;
- c) une copie du texte de la résolution visée au paragraphe 206a (13) de la Loi ordonnant qu'une répartition de remplacement soit faite;
- d) une copie du texte des données et des calculs sur lesquels le calcul définitif et la répartition définitive ont été fondés.

(9) Les copies qui doivent être envoyées aux termes du paragraphe (8) le sont par courrier recommandé au plus tard le 31 mars de l'année où se tient une élection ordinaire prévue par la *Loi sur les élections municipales* ou, si le calcul de l'effectif calculé et de l'effectif total calculé du conseil est renvoyé à la Commission des langues d'enseignement de l'Ontario aux termes du paragraphe 277q (4) de la Loi, au plus tard le 30 avril de cette année-là.

(10) Si une municipalité est divisée en secteurs électoraux aux fins de l'élection de membres de conseils, à l'exception des secteurs électoraux créés en vertu de l'article 277i de la Loi, et que le secrétaire de la municipalité n'est pas une personne prescrite pour faire la répartition, ce dernier peut formuler des recommandations sur la répartition qui doit être faite entre les secteurs électoraux de la municipalité. Règl. de l'Ont. 378/92, art. 1, *en partie*.

3 (1) Si deux municipalités ou plus sont fusionnées aux fins de l'élection d'un ou de plusieurs membres, les mises en candidature sont soumises au directeur du scrutin de la municipalité qui a la plus importante population.

(2) Si la totalité ou une partie de deux municipalités ou plus sont comprises dans un secteur électoral créé en vertu de l'article 277i de la Loi, les mises en candidature sont soumises au directeur du scrutin de la municipalité qui a la plus importante population.

(3) Le directeur du scrutin qui reçoit les mises en candidature envoie par courrier recommandé, dans les quarante-huit heures suivant la clôture du dépôt des mises en candidature, au secrétaire de chaque municipalité qui est comprise dans la fusion de municipalités ou qui est située, en totalité ou en partie, dans le secteur électoral, selon le cas, les noms des candidats qui ont satisfait aux conditions requises.

(4) Le secrétaire d'une municipalité fait office de directeur du scrutin en ce qui concerne le vote qui doit être enregistré dans la municipalité.

(5) Le secrétaire d'une municipalité fait état du vote enregistré au directeur du scrutin auquel les mises en candidature ont été soumises aux termes du paragraphe (1) ou (2). Ce dernier prépare la compilation définitive et annonce le résultat du scrutin.

(6) Pour l'application du présent article, le secrétaire d'un conseil est le secrétaire de chaque partie de territoire non érigé en municipalité qui est réputée une municipalité de district dans le secteur qui relève de la compétence du conseil.

(7) Dans le présent article, le terme «municipalité» s'entend en outre d'un territoire non érigé en municipalité qui est réputé une municipalité de district aux termes du paragraphe 52 (3) ou 112 (1) de la Loi. Règl. de l'Ont. 378/92, art. 1, *en partie*.

**ONTARIO REGULATION 381/92**  
made under the  
**INDEPENDENT HEALTH FACILITIES ACT**

Made: July 9th, 1992  
Filed: July 10th, 1992

**MAXIMUM ALLOWABLE CONSIDERATION**

APPLICATION

1.—(1) Subject to subsection (2), this Regulation applies with respect to independent health facilities to which section 7 of the Act applied on the 23rd day of April, 1990.

(2) Sections 10 and 11 apply to all independent health facilities. O. Reg. 381/92, s. 1.

CALCULATION OF MAXIMUM ALLOWABLE CONSIDERATION

2.—(1) The maximum allowable consideration in relation to a licence is 104 per cent of the income, as determined under section 5 or 6, arising from services rendered at the facility during a one-year period elected by the licensee.

(2) The maximum allowable consideration shall be adjusted annually for inflation in accordance with subsection (3).

(3) On the 1st day of April of each year, commencing in 1991, the maximum allowable consideration shall be adjusted by the percentage change in the Consumer Price Index for the twelve-month period ending at the end of the preceding October.

(4) In subsection (3), "Consumer Price Index" means the Consumer Price Index for Canada (All Items), as published by Statistics Canada under the authority of the *Statistics Act* (Canada). O. Reg. 381/92, s. 2.

3.—(1) The one-year period elected by a licensee must contain the 23rd day of April, 1990.

(2) If licensees are licensed to carry on business collectively and they do not agree on the election of a one-year period, they shall be deemed to have elected the one-year period beginning on the 23rd day of April, 1990. O. Reg. 381/92, s. 3.

4. The maximum allowable consideration in relation to a licence, determined in accordance with this Regulation, is binding on subsequent licensees. O. Reg. 381/92, s. 4.

DETERMINATION OF INCOME FOR CALCULATING  
MAXIMUM ALLOWABLE CONSIDERATION

5.—(1) In this section a fee is "connected" to an insured service if the fee is for or in respect of a service or operating cost that supports, assists or is a necessary adjunct, or any of them, to the insured service.

(2) The income arising from services rendered at a facility during a one-year period is the sum of the following:

1. Each fee paid under the *Health Insurance Act* that was for an insured service rendered at the facility during the one-year period and that was set out in a column denoted by the letter "T" in Regulation 452 of Revised Regulations of Ontario, 1980.
2. Each fee that was paid under section 24 of the Act and set out in the publication entitled "Facility Fee Schedule for Independent Health Facilities" published by the Ministry of Health and that was connected to an insured service rendered at the facility during the one-year period.
3. A professional component for each fee included in paragraph 1 or 2 equal to the product of the fee multiplied by the percentage set out in Column 2 of the Schedule opposite the service or operating cost that the fee is for or in respect of.

4. Each fee, other than a fee included in paragraph 1 or 2, that was connected to an insured service set out in the licence initially issued to operate the facility, as a primary insured service, and that was rendered at the facility during the one-year period.

5. The fee for each insured service, to which a fee included in paragraph 4 was connected, that was set out in the licence initially issued to operate the facility, as a primary insured service, and that was rendered at the facility during the one-year period.

(3) If a licensee is licensed for the same facility as other licensees but the licensee is not licensed to carry on business collectively with the others, the income arising from services rendered at the facility for the licence is determined in accordance with subsection (2) with the following modifications:

1. Under paragraphs 1 and 5 of subsection (2), only fees for insured services rendered by the licensee shall be included.
2. Under paragraphs 2 and 4 of subsection (2), only fees connected to insured services rendered by the licensee shall be included.

(4) If a licensee is licensed to carry on business collectively with other licensees, the maximum allowable consideration shall be determined for all the licences together. O. Reg. 381/92, s. 5.

6.—(1) For the purpose of determining the maximum allowable consideration, a person designated by the Minister in writing may determine the income arising from services of a facility if, in that person's opinion,

- (a) it is not possible to determine the income under section 5 because, through no fault of the licensee, necessary records have been destroyed; or
- (b) the operation of the facility was interrupted for more than four weeks during the one-year period, the interruption was for reasons beyond the control of the licensee and the interruption results in a lower income, as determined under section 5, than would have been the case had the interruption not occurred.

(2) In determining income under clause (1) (a), the person designated by the Minister shall estimate the income using the approach set out in section 5.

(3) In determining income under clause (1) (b), the person designated by the Minister shall estimate the income that would have arisen from services of the facility if the interruption had not occurred.

(4) In determining income under this section, the person designated by the Minister may make any estimations or assumptions that he or she considers appropriate. O. Reg. 381/92, s. 6.

ALLOCATION OF MAXIMUM ALLOWABLE CONSIDERATION

7.—(1) If licensees are licensed to carry on business collectively, the maximum allowable consideration shall be allocated among the licences in proportion to the interests of the licensees in the business that they are licensed to carry on.

(2) If a licensee is a corporation the shares of which are not traded on a stock exchange in Canada or the United States of America, the maximum allowable consideration shall be allocated among the shares in proportion to the property the holders of the shares would receive on the dissolution of the corporation.

(3) If a licensee is a corporation the shares of which are traded on a stock exchange in Canada or the United States of America, the maximum allowable consideration shall be allocated among the shares as determined by a person designated by the Minister in writing. O. Reg. 381/92, s. 7.

## MAC RETURNS

8.—(1) A maximum allowable consideration ("MAC") return is a report that sets out,

- (a) the licensee's election of the one-year period mentioned in subsection 2 (1);
- (b) a record of the fees relevant to the calculation of income as determined under section 5 or a statement as to why they are not available;
- (c) the licensee's calculation of maximum allowable consideration, if applicable; and
- (d) the allocation of the maximum allowable consideration, if necessary, and an explanation of how it was determined.

(2) A licensee may file a MAC return with the Director unless a MAC return has already been filed with the Director in respect of the licence.

(3) If a licensee wishes to transfer the licence, the licensee shall, unless a MAC return has already been filed with the Director in respect of the licence, file a MAC return with the Director to assist him or her in deciding whether to consent to the transfer.

(4) When a licensee files a MAC return, the licensee shall file, at the same time, a MAC return for every licence the licensee holds.

(5) Subsection (4) does not apply with respect to licences to carry on business collectively.

(6) Every licensee shall file a MAC return within three years of the date the licence was issued.

(7) A licensee that is a corporation shall file a MAC return with the Director within ninety days after receiving notice from a shareholder that the shareholder wants to transfer shares of the corporation.

(8) The election of a one-year period by a licensee in a MAC return filed with the Director is binding on subsequent licensees. O. Reg. 381/92, s. 8.

## RECORDS AND REPORTS

9. Every licensee of an independent health facility shall maintain the records that are necessary to determine the maximum allowable consideration for the facility for at least six years after a MAC return is filed with the Director. O. Reg. 381/92, s. 9.

10. Before transferring a licence, the licensee shall file a report with the Director setting out the consideration for the transfer of the licence. O. Reg. 381/92, s. 10.

11. A licensee shall furnish such information and accounts as may be required by the Director relating to the maximum allowable consideration of the licence or any allocation of the maximum allowable consideration or relating to any transfer of the licence or any consideration for such a transfer. O. Reg. 381/92, s. 11.
